

## Husqvarna Racing Kit

**The Husqvarna Racing Kit consists of a selection of Husqvarna Special Parts, which allow you to customise your Enduro or Motocross bike, for both performance and style.**

**The kits will be available from Husqvarna motorcycle dealers.**

**Biandronno** – The Husqvarna Racing Kits have been developed for Enduro and Motocross models and enable you to customise your bike, similar to motorcycles used by Husqvarna Factory riders that race in the major international championships.

The kits feature different accessories to suit each model and are selected to suit and enhance style and performance for that bike.

Husqvarna Special Parts are made from high tech materials such as carbon fibre and titanium and are specifically designed in collaboration with the Husqvarna Racing Department to improve performance and aesthetics.

The kits will be available from Husqvarna dealers and give a 20% saving on the price compared to the prices of individual parts.

### **Kits are available for the following ENDURO models:**

**WR 125** – The “Racing Kit WR 125” consists of the following: Enduro Replica decal, tank filler cap machined from billet Ergal, footrests machined from billet Ergal, complete racing exhaust “Husqvarna by ProCircuit”.
