BMW Motorrad model facelift measures for model year 2016.

**Special model BMW R 1200 GS TripleBlack.
ABS Pro incl. dynamic brake light available for six
models from model year 2016.**

Munich. Model year 2016 sees a number of model facelift measures as well as the special model R 1200 GS TripleBlack included in the BMW Motorrad program. The models in the new configuration can be ordered from all BMW Motorrad dealers from August 2015.

BMW F 800 GT.

As of model year 2016, the BMW F 800 GT will be available in the following new colour combination:

- Monolith metallic matt / Sapphire black metallic.
- The paint finish Dark graphite metallic will no longer be available.

BMW R 1200 GS.

As of model year 2016, the R 1200 GS will not just be available in new paint finishes. With a view to enhanced motorcycling safety, the range of special equipment features is extended to include the banking-optimised ABS Pro and the dynamic brake light (in conjunction with the Riding Modes Pro option).

An overview of the new features in the R 1200 GS:

- ABS Pro and dynamic brake light as a special equipment feature
(dynamic brake light currently for EU markets only).
- Light white non-metallic replaces the existing Alpine white 3 non-metallic.

The paint finish Black storm metallic will no longer be available.

BMW R 1200 GS TripleBlack (special model).

TripleBlack – the name says it all with this BMW R 1200 GS special model. BMW Motorrad is responding to a wish expressed by many customers by bringing out the world's top-selling motorcycle in a virtually all-black finish.

The central fuel tank cover, fuel tank side panels and front mudguard in Black storm metallic together with black anodised fork slider tubes give the legendary travel enduro a strikingly masculine touch. Powerful technical accentuations are provided by the front and rear frame in Agate Grey in combination with the engine, gearbox and swinging arm.

The special model is fitted with the cross-spoke wheels with black gloss rim base familiar from the R 1200 GS Adventure, previously available as a special equipment feature.

A new black-grey seat with striking "GS" application on passenger seat rounds off the strong appearance of the new R 1200 GS TripleBlack.

BMW R 1200 GS Adventure.

As of model year 2016, the R 1200 GS Adventure will not just be available in new paint finishes. With a view to enhanced motorcycling safety, its range of special equipment features is extended to include the banking-optimised ABS Pro and the dynamic brake light (in conjunction with the Riding Modes Pro option).

An overview of the new features of the R 1200 GS Adventure:

- ABS Pro and dynamic brake light as a special equipment feature (dynamic brake light currently for EU markets only).
- New paint Racing red non-metallic matt and Ocean blue metallic matt.
- Light white non-metallic replaces the existing paint finish Alpine white 3 non-metallic.
