BMW electrified models double sales in January

Sales growth achieved in all world regions

Munich. Following on from a sixth consecutive record-breaking year, sales at the BMW Group achieved their best-ever start to the year with January figures showing increased deliveries in all world regions. With its three premium brands, BMW, MINI and Rolls-Royce, the BMW Group delivered a total of 163,288 vehicles worldwide, an increase of 6.8% compared with January last year.

“We’ve started the year well, building on the success of 2016,” said Dr Ian Robertson, Member of the BMW AG Board of Management with responsibility for Sales and Marketing BMW. “We’re confident that the new models we’re bringing to market this year, especially the new generation BMW 5 Series which is about to arrive in dealerships, will ensure further momentum as the year goes on. We continue to focus on profitability and sustainable levels of growth distributed around the world,” he added.

Sales of **BMW** brand vehicles grew 7.2% compared with January last year; a total of 143,553 BMWs were delivered to customers around the world. Increased sales were achieved throughout the model range. For example, deliveries of the BMW X1 rose 40.2% (20,059); BMW 3 Series sales grew 6.3% (28,684) and the brand’s flagship BMW 7 Series achieved a 29.8% jump in sales, with 4,403 units handed over to customers around the world. Further momentum in BMW brand sales will come with the market launch of the all-new BMW 5 Series, which will start delivery from mid-February.

Meanwhile sales of BMW Group electrified vehicles continue to reflect the ongoing increase in customer demand for alternative drive vehicles: deliveries were up
