The all-new BMW 4 Series Gran Coupé now available in Singapore.

A supremely elegant blend of dynamism and functionality.

Singapore. BMW Asia, Performance Motors Limited and Performance Munich Autos today announced the availability of the all-new BMW 4 Series Gran Coupé. With the original BMW 4 Series Gran Coupé having enjoyed significant success, a second-generation model is now being added to the latest 4 Series range. The all-new four-door coupé captures the imagination with its noticeably enhanced driving dynamics, a sharper design following the BMW brand's new design language, a refined premium feel for its interior and a host of innovations in the areas of operation and connectivity. In addition to the driving pleasure and sporting elegance for which BMW is renowned, modern functionality is central to this gran coupé concept for the premium midsize

segment. Comfortable access to the rear compartment, five full-size seats, a large tailgate and a variable-usage load compartment ensure the all-new BMW 4 Series Gran Coupé retains its model-specific skillset in everyday driving and on longer trips.

The performance version of the all-new BMW 4 Series Gran Coupé courtesy of BMW M GmbH is available from the car's Singapore launch alongside two other model variants. All are built under a flexible manufacturing process at BMW Group Plant Munich on the same line as the all-electric BMW i4 and the BMW 3 Series Sedan and BMW 3 Series Touring models.

Distinctive proportions, highly versatile interior.

The standalone character of the all-new BMW 4 Series Gran Coupé is clearly expressed in its exterior design. Measuring 4,783 millimetres in exterior length, 1,852 millimetres in width and 1,442 millimetres in height, it has distinctive proportions combined with dynamically stretched coupé lines. It

is 143 millimetres longer, 27 millimetres wider and 53 millimetres taller than its predecessor, while the track widths have also grown – to 1,595 millimetres at the front (+50 mm) and 1,623 millimetres at the rear (+29 mm). The wheelbase of 2,856 millimetres is 46 millimetres longer than the predecessor's and 5 millimetres more than the figure for the 3 Series Sedan.

The model-specific body concept results in a versatile interior offering generous amounts of space in the rear. The all-new BMW 4 Series Gran Coupé offers 470 litres of boot space, the primary capacity in the directly viewable area of the boot having grown by 39 litres. Load capacity can be expanded to a maximum of 1,290 litres by folding down the sections of the rear backrest, with its standard 40 : 20 : 40 split.

Expressive front end, elegant silhouette, powerful rear.

Bold lines and surfaces with a three-dimensional structure are the defining elements of the all-new BMW 4 Series Gran Coupé's expressive front end. Dropping deep down at its centre is the large and vertically prominent BMW kidney grille that transmits a feeling of assured presence. The slim full-LED

headlights come with U-shaped fibre-optic light guides for the daytime driving lights. There is also the option of Adaptive LED Headlights with BMW Laserlight including BMW Selective Beam non-dazzling high beam assistant.

Precise lines, doors with frameless windows and flush-fitting handles, and powerful shoulders shape the elegantly sporty silhouette of the all-new BMW 4 Series Gran Coupé, while the roofline culminates in a pronounced spoiler lip on the tailgate. Horizontal lines are the dominant influence at the rear end. And the low-slung, muscular stature of the car is also accentuated by a rear apron with vertical aero lips at its outer edges and a black finish for its lower edge. The stylishly darkened full-LED rear lights extend well into the flanks.

Bespoke design features add dynamic flourishes to M Sport cars and the BMW M model. An M Carbon exterior package can be specified as an option, and model-specific M Performance Parts are available as part of the Genuine BMW Accessory range.

Interior: driving pleasure and spaciousness amid a premium ambience.

Inside the all-new BMW 4 Series Gran Coupé, the high centre console and flowing surface structure running from the instrument panel into the door panels generate a cocooning feel in the front seats. The Start/Stop button for the engine is positioned in a classily designed control panel in the centre

console, which also houses the BMW Controller and the buttons for the Driving Experience Control unit and electromechanical parking brake alongside the model-specific gearshift lever. The rear seat bench with folding head restraints allows three child seats to be fitted.

M Sport seats and an M Leather steering wheel come as standard on the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro. The list of optional equipment provides extensive scope for individualisation. Driving pleasure and comfort can be enhanced with features such as seat ventilation, Vernasca (optional on the all-new BMW 420i Gran Coupé) and BMW Individual leather trim options, Sensatec or leather coverings for the instrument panel, a large glass slide/tilt sunroof (standard on the BMW 430i Gran Coupé M Sport Pro) and the Harman Kardon Surround Sound System (standard on the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro).

State-of-the-art four- and six-cylinder engines and 48V mild hybrid technology provide clear boost for dynamism and efficiency.

The all-new BMW 4 Series Gran Coupé underscores its vividly enhanced sporting credentials with a performance model at the top of the range.

The all-new BMW M440i xDrive Gran Coupé is powered by a 275 kW/374 hp six-cylinder in-line petrol engine. The all-new BMW 430i Gran Coupé M Sport Pro gives a debut to a new four-cylinder petrol engine which develops 180 kW/245 hp and has an exhaust manifold integrated into the cylinder head to further reduce emission levels. The four-cylinder petrol engine in the all-new BMW 420i Gran Coupé produces maximum output of 135 kW/184 hp.

In the all-new BMW M440i xDrive Gran Coupé, mild hybrid technology further increases dynamism and efficiency. The 48V starter-generator puts an extra 8 kW/11 hp on tap when accelerating off the line or putting in a quick burst of speed. An additional battery helps to further expand the scope for regenerating and storing brake energy.

The standard eight-speed Steptronic Sport transmission complements its sharper shift dynamics and shift paddles on the steering wheel with a Sprint function (standard on the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro). This prompts the powertrain and shift characteristics to maximise dynamic performance when putting in a sudden burst of speed or overtaking.

High body rigidity, optimised aerodynamic attributes.

The sporting characteristics of the all-new BMW 4 Series Gran Coupé are also well served by a low centre of gravity and almost 50 : 50 weight distribution. An intelligent material mix has been employed to optimise the weight of both the body and chassis technology. And the bespoke body struts at the front end and in the rear axle area can also take credit for the car's superb handling agility and precision.

An active air flap control system comprising flaps at the top and bottom, plus air curtains and an almost completely sealed underbody optimise the car's aerodynamics. The drag coefficient (Cd) of 0.26 measured for the all-new BMW 420i Gran Coupé, for example, represents a reduction of 0.02 over its predecessor.

Sophisticated chassis technology with model-specific tuning.

Model-specific geometry, mounting and tuning for the sophisticated chassis technology in the all-new BMW 4 Series Gran Coupé imbue it with exceptional dynamic assurance. The two-joint spring strut front axle and five-link rear axle have likewise been engineered to reduce weight while increasing rigidity. Standard-fitted lift-related dampers enhance both sports performance and ride comfort. Depending on the spring travel, these provide extra damping to control body movement when driving over large bumps, as well as preventing excessive dive. The system reacts to minor imperfections in the road surface with low damping forces that produce high levels of comfort.

The lift-related dampers are particularly firm in nature on the all-new BMW 420i Gran Coupé with the standard M Sport suspension specified. The adaptive M suspension (standard on the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro) combines the characteristics of M Sport suspension with electronically controlled dampers, and therefore offers the widest possible range of driving experiences on the sporty-to-comfortable spectrum. Variable sport steering is included with both suspension variants. Also available as an option are M Sport brakes (standard on the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro).

The all-new BMW 420i Gran Coupé comes as standard with 18-inch M light-alloy wheels. Standard specification for the all-new BMW M440i xDrive Gran Coupé and BMW 430i Gran Coupé M Sport Pro includes 19-inch M light-alloy wheels and an M Sport differential (optional on the all-new BMW

430i Gran Coupé M Sport Pro) with electronically controlled, fully variable locking function in the rear differential.

Wide array of driver assistance systems.

Some 40 assistance functions designed to enable comfortable and safe driving and parking are available as standard or options for the all-new BMW 4 Series Gran Coupé. Highlights include Active Cruise Control with automatic Speed Limit Assist, route monitoring, plus Steering and Lane Control Assistant.

Standard specification comprises front collision warning, Speed Limit Info, Lane Departure Warning, Park Distance Control, the Reversing Assist Camera and Parking Assistant with Reversing Assistant. Parking Assistant Plus with Surround View and Remote 3D View can also be ordered as an option.

Advanced connectivity and new digital services.

The driver and passengers in the all-new BMW 4 Series Gran Coupé benefit from the extended possibilities provided by BMW Operating System 7 as standard. Customers can take their pick of control interface for the situation at hand: control display touchscreen, familiar BMW Controller, multifunction

buttons on the steering wheel, voice control or optional BMW gesture control. There is also access to a range of highly advanced digital services, including the BMW Intelligent Personal Assistant, BMW Digital Key and Remote Software Upgrades.

The standard-fitted BMW Live Cockpit Professional features a fully digital screen grouping including a high-resolution instrument cluster with a screen diagonal of 12.3 inches behind the steering wheel and a 10.25-inch control display.

With smartphone integration fitted as standard, customers can use Apple CarPlay and Android Auto via the car's operating system. And the Remote Software Upgrades function allows improved vehicle functions and additional digital services to be imported into the car over the air.

The all-new BMW 4 Series Gran Coupé is now available for viewing at the Performance Motors Limited and Performance Munich Autos showrooms.

About Performance Motors Limited (PML)

Performance Motors Limited (PML) is a unit under Sime Darby Motors, a division of Sime Darby Berhad, and has been the dealer of BMW cars and BMW motorcycles in Singapore since 1979.

The PML showroom is located at 303 Alexandra Road, Singapore 159941.

Showroom opening hours are Monday to Saturday, 8am – 7pm; Sunday and Public Holiday, 10am – 6pm. For more enquiries, please call 1 800 2255 269.

PML has achieved various accolades in the areas of sales achievement and service excellence in its 40-year history in the luxury segment.

2016 - PML recorded an all-time high for new car registrations and was named the 'Best Dealer in Sales – Importer Region B4' at BMW Group's Excellence in Sales Awards 2016. The company also won the 'Best Lifestyle Dealership' from BMW Group Asia. PML launched the Future Retail concept at the newly renovated BMW showroom at Sime Darby Performance Centre, creating an engaging retail environment with the use of innovative digital tools. As a leading luxury car brand in Singapore, BMW remained the preferred limousine brand for events such as the Singapore Airshow 2016, SMBC Singapore Open 2016, and Louis Vuitton High Jewellery Event 2016, just to name a few.

2017 - PML was recognised at BMW Group's Excellence in Sales Awards 2017 as 'Best Retailer in Sales in the Importer Region Asia Pacific', and was accorded the 'Point Of Sales Award for Aftersales Marketing Excellence - Second Place' as well as the 'Best Accessories Performance' awards by BMW Group Asia. The introduction of five new plug-in hybrid electric vehicles (PHEVs) and an updated electric vehicle (EV) under the BMW i brand saw PML cementing its position as the industry leader for electromobility in Singapore. BMW was appointed the official car brand for numerous high-profile events including the ASEAN Tourism Forum 2017, SMBC Singapore Open 2017, Singapore Yacht Show 2017, IMDEX Asia 2017, Miss Universe Singapore 2017, and Singapore International Energy Week 2017.

2018 – In another record-breaking year of new car registrations, PML had for the first time surpassed the 5,000-unit mark. BMW cars also continued to be the favoured limousines for various prestigious events throughout the year, namely the SMBC Singapore Open 2018, Singapore Airshow 2018, 32nd ASEAN Summit, and Singapore International Film Festival 2018.

2019 – Celebrating its 40th year of distributing BMW Cars and Motorcycles in Singapore, PML took to the heart of Orchard Road for BMWFestSG with a myriad of activities to engage the masses and deliver sheer driving pleasure. BMW once again had the honour of being appointed as the preferred limousine provider for events such as the International Maritime Conference & Exhibition for Defence (IMDEX Asia) 2019, Singapore Convention Week 2019, and Singapore International Energy Week (SIEW) 2019.

2020 – BMW was the second best-selling car brand and leading premium automotive brand in Singapore, capturing 9.8% of the market share. November and December marked record-breaking months for car sales in PML's entire 41 year history. 2020 also saw the launch of 13 models including the first-ever BMW 2 Series Gran Coupé, new BMW X3 xDrive30e, and first-ever BMW M8 Competition, alongside eight virtual launches and events such as the eJoyFest and BMWFestSG. PML also launched the BMW Digital Showroom, BMW Convenience 360, and the BMW Performance Motors SG Mobile App to create a seamless customer journey between the virtual and physical landscapes.

About Performance Munich Autos

Performance Munich Autos is the world's first dedicated BMW M dealership in Singapore that holds the retail rights to a full range of BMW M and BMW M Performance Automobiles.

Performance Munich Autos Showroom is located at 315 Alexandra Road Singapore 159944.

Showroom opening hours are Monday to Saturday, 8am - 7pm, Sunday and Public Holidays, 10am – 6pm.

For more information or enquiries, visit <https://www.bmw.com.sg> or call (+65) 6333 3933.

1. The all-new BMW 4 Series Gran Coupé prices.

Model	VES Band	Retail price (at press time)
BMW 420i Gran Coupé M Sport	C1	\$273,888
BMW 430i Gran Coupé M Sport Pro	C1	\$330,888
BMW M440i xDrive Gran Coupé	C2	\$409,888

2. The all-new BMW 4 Series Gran Coupé specifications.

BMW 420i Gran Coupé

Four-cylinder petrol engine, BMW TwinPower Turbo technology: TwinScroll turbocharger, High Precision Injection, VALVETRONIC fully variable valve timing, Double-VANOS variable camshaft timing.

Capacity: 1,998 cc.

Output: 184 hp at 5,000 – 6,500 rpm.

Torque: 300 Nm at 1,350 – 4,000 rpm.

Acceleration (0 – 100 km/h): 7.9 seconds.

Top speed: 235 km/h.

Combined fuel consumption: 7.4 l/100 km.

Combined CO₂ emissions: 170 g/km.

BMW 430i Gran Coupé

Four-cylinder petrol engine, BMW TwinPower Turbo technology: TwinScroll turbocharger, High Precision Injection, VALVETRONIC fully variable valve timing, Double-VANOS variable camshaft timing.

Capacity: 1,998 cc.

Output: 245 hp at 4,500 – 6,500 rpm.

Torque: 400 Nm at 1,600 – 4,000 rpm.

Acceleration (0 – 100 km/h): 6.2 seconds.

Top speed: 250 km/h.

Combined fuel consumption: 7.7 l/100 km.

Combined CO₂ emissions: 177 g/km.

BMW M440i xDrive Gran Coupé

Six-cylinder petrol engine, BMW TwinPower Turbo technology: TwinScroll turbocharger, High Precision Injection, VALVETRONIC fully variable valve timing, Double-VANOS variable camshaft timing.

Capacity: 2,998 cc.

Output: 374 hp at 5,500 – 6,500 rpm.

Torque: 500 Nm at 1,900 – 5,000 rpm.

Acceleration (0 – 100 km/h): 4.7 seconds.

Top speed: 250 km/h.

Combined fuel consumption: 8.6 l/100 km.

Combined CO₂ emissions: 197 g/km.
