11 March 2022

The all-new BMW 2 Series Coupé now available in Singapore.

A new dimension in driving dynamics for the premium compact segment.

Singapore. BMW Asia, Performance Motors Limited and Performance Munich Autos today announced the availability of the all-new BMW 2 Series Coupé, a car that embodies sporting prowess in a particularly concentrated form, with a vehicle concept focused squarely on dynamic excellence, an athletic design, powerful engines and sophisticated chassis technology.

BMW has opened a new chapter in its tradition of super-sporty compact models and has set a new benchmark for driving pleasure – a brand speciality – at the premium end of this vehicle class. Its

standalone appearance, a six-cylinder in-line petrol engine at the sharp end of the line-up, rear-wheel drive and chassis components carried over from the BMW 4 Series put clear water between the all-new BMW 2 Series Coupé and the compact BMW 1 Series, while also laying the foundations for performance attributes beyond the reach of any segment rival. The all-new BMW 2 Series Coupé therefore follows in the tyre tracks of the legendary BMW 02, which 55 years ago lit the fuse for the brand's recent history of compact and irresistibly sporty two-door models.

As well as noticeable gains in dynamic ability, the all-new BMW 2 Series Coupé also offers a premium cabin ambience of even greater class, and cutting-edge innovations in the areas of operation and connectivity. The advances made over the predecessor model are also reflected in a much wider range of driver assistance systems. The compact four-seater is built at the BMW Group's San Luis Potosí plant in Mexico. A performance model from BMW M GmbH will top the range. The all-new BMW M240i xDrive Coupé uses its 374 hp six-cylinder in-line engine and intelligent all-wheel drive to generate a driving experience of rare emotional richness. Customers in Singapore can also opt for the all-new BMW 220i Coupé with a four-cylinder petrol engine that channels its power to the road through the rear wheels.

A vehicle concept with its sights set on sporting prowess.

The fresh, youthful and extrovert aura of the all-new BMW 2 Series Coupé is complemented by thoroughly engineered and perfectly balanced driving attributes. Its vehicle concept is geared squarely to offering agile and precisely controllable handling in highly dynamic situations. Compact

dimensions, intelligent lightweight design for the body and chassis, an up to 12 per cent increase in static torsional rigidity compared to the predecessor model, almost perfect 50 : 50 weight distribution and optimised aerodynamics create an ideal blueprint for a vehicle character majoring in sporting excellence. The agility, steering precision and cornering dynamics of the all-new BMW 2 Series Coupé represent a significant step forward from the predecessor model. At the same time, optimised ride comfort and acoustics enhance the car's abilities both in everyday driving and over long-distance journeys.

Distinctive proportions, athletic forms.

The exterior dimensions of the new compact sports car provide the ideal starting point for excellent driving dynamics. A vehicle length of 4,537 millimetres and width of 1,838 millimetres represent increases over the measurements for the predecessor model of 105 and 64 millimetres respectively. However, the new car stands 28

millimetres lower, with a vehicle height of 1,390 millimetres. Other factors in the powerful and athletic appearance of the all-new BMW 2 Series Coupé are its wheelbase, which is now 51 millimetres longer at 2,741 millimetres, and the wide tracks. Track widths of 1,575 millimetres (an increase of 54 millimetres) at the front axle and 1,587 millimetres (an increase of 31 millimetres) at the rear axle (BMW M240i xDrive Coupé: +63 millimetres at the front, +35 millimetres at the rear) are ideal for excellent cornering dynamics.

Powerful proportions set within the classical three-box design of bonnet, passenger compartment and boot embody the dynamic potential of the all-new BMW 2 Series Coupé. Athletically sculpted surfaces and dynamic lines following the brand's new design language represent an expression of pure driving pleasure. And exclusive design features underscore the unmistakable vehicle character.

Eye-catching front end: headlights and BMW kidney grille with exclusive design.

Three-dimensional surfaces, triangular forms and diagonal lines shape the striking front end of the all-new BMW 2 Series Coupé. Prominently flared wheel arches and a muscular power dome at the centre of the bonnet give a clear indication of the all-new BMW 2 Series Coupé's dynamic driving

characteristics. The BMW kidney grille is horizontal in design and features vertically arranged air flaps at its heart in place of the classical bars. These open electrically when the engine behind the scenes has an increased need for cooling air.

The standard-fitted Adaptive LED Headlights with BMW Selective Beam non-dazzling high beam assistant are positioned in the outer reaches of the front end and inspired by the legendary BMW 02

models, which have a single unit, circular design. These are also available in M lights Shadow Line specification with darkened inlays (standard on the all-new BMW M240i xDrive Coupé).

Side view with crisp lines; powerful rear.

A long bonnet, short overhangs and a set-back passenger compartment – whose rear section rests on powerfully flared wheel arches – headline the side view of the all-new BMW 2 Series Coupé. Large glazed surfaces, a roofline that swoops down dynamically, and the short boot lid culminating in a pronounced spoiler lip are other identifying features of the compact sports

model. Crisp lines give the surfaces a defined athletic edge.

Horizontally pronounced surfaces give the powerful rear end its structure. The stylishly darkened rear lights – positioned at the outer extremes of the rear end – have compact contours. Their surfaces are formed by light clusters with three-dimensional sculpting. This provides a particularly classy showcase for the LED technology used in all the light functions.

Bespoke design features for M Sport cars and the all-new BMW M240i xDrive Coupé enhance the feeling of dynamism. And customers can also order model-specific M Performance Parts from the Genuine BMW Accessory range.

Sporting flair and refined premium ambience for the interior.

The driver-focused cockpit design and modern control panel on the centre console accentuate the sporting aura inside the all-new BMW 2 Series Coupé. The standard fitment of sport seats also feeds into the engaging nature of the driving experience. The taper in the rear section of the

roofline, the high centre console and the smoothly blending surface treatment of the instrument panel and door panels create a cocooning feel around the driver and front passenger. And the individual-seat character of the two rear seats allows passengers in the rear to enjoy a sense of sporty driving pleasure as well.

High-quality materials and precise workmanship create a premium ambience above and beyond that of the predecessor model. Dynamic lines bring structure to the door panels and rear trim sections. Interior trim strips in the new Dark Graphite matt variant come as standard. A new design feature comes in the form of trapezoidal accent surfaces above the armrests in the doors. With the standard ambient lighting, their perforated surfaces are stylishly backlit.

The all-new BMW 220i Coupé comes as standard with Sensatec perforated upholstery while the all-new BMW M240i xDrive Coupé has Leather Vernasca. The cars also have other specific design features such as an M leather steering wheel and headliner in Anthracite. Electrically adjustable sport seats (including a memory function on the driver's side) are standard on the all-new BMW 220i Coupé while M Sport seats with integral head restraints are standard on the all-new BMW M240i xDrive Coupé.

Standard specification also includes acoustic glazing for the windscreen and three-zone automatic climate control, while a Harman Kardon surround sound system is among the items on the options list. The likewise optional glass slide/tilt sunroof has a transparent surface that is nearly 20 per cent larger overall than on the outgoing model.

The all-new BMW 2 Series Coupé's boot offers load capacity of 390 litres. The height of the loading edge has been reduced by 35 millimetres compared to the predecessor model. And additional versatility is provided by the standard 40 : 20 : 40 split/folding rear seat backrest.

Advanced chassis engineering with technology transfer from the BMW 4 Series.

Exceptionally sophisticated chassis components originally designed for the BMW 4 Series models and adapted specially for the all-new BMW 2 Series Coupé ensure supreme driveability. The two-joint spring strut front axle and five-link rear axle were designed to minimise weight and optimise rigidity. M

Sport suspension (standard on the all-new BMW 220i Coupé) brings firmer responses for the lift-related dampers and springs and also includes variable sport steering. It provides the basis for the model-specific chassis of the all-new BMW M240i xDrive Coupé. The flagship 2 Series Coupé variant also comes as standard with an M Sport braking system, M Sport differential at the rear and adaptive M suspension with electronically controlled dampers.

The all-new BMW 2 Series Coupé is fitted as standard with 18-inch M light-alloy wheels with mixed-size tyres as part of M Sport specification. The all-new BMW M240i xDrive Coupé leaves the factory on 19-inch M light-alloy wheels as standard, and these are likewise fitted with mixed-size tyres. High-performance tyres can also be ordered as an option. The M Performance Parts range includes light-alloy wheel variants in sizes up to 20 inches.

Unparalleled driving pleasure, powered by four and six cylinders.

With a six-cylinder in-line engine crowning its engine line-up, the all-new BMW 2 Series Coupé will unleash a power source with no comparable rival in its class. The performance characteristics, thirst for revs and smoothness of the 3.0-litre engine in the all-new BMW M240i xDrive Coupé reinforces its claim to unsurpassed sporting prowess in the premium compact segment. With maximum output of 374 hp, it develops 34 hp more than the engine in its predecessor. Peak torque is 500 Nm and the all-new BMW M240i xDrive Coupé accelerates from 0 to 100 km/h in 4.3 seconds.

The all-new BMW 220i Coupé is powered by a new four-cylinder petrol engine in which an exhaust manifold integrated into the cylinder head further reduces emissions. With maximum output of 184 hp and peak torque of 300 Nm, the all-new BMW 220i Coupé sprints from 0 to 100 km/h in 7.5 seconds. As well as paddles on the steering wheel, all the engines team up as standard with an eight-speed Steptronic Sport transmission that boasts sharp gearshifts.

Significantly broader selection of driver assistance systems.

The all-new BMW 2 Series Coupé enhances safety and comfort with a significantly expanded selection of driver assistance systems compared with the predecessor model. Standard equipment includes front-collision warning, Speed Limit Info, Lane Departure Warning and Cruise Control with brake function, Lane Change Warning, Rear Collision Prevention and rear crossing traffic warning, Park Distance Control, Reversing Assistant and Reversing Assist Camera.

Among the systems available as options are the Active Cruise Control with Stop&Go function (including manual Speed Limit Assist), Surround View and Remote 3D View. New optional features for the BMW 2 Series Coupé are the BMW Head-Up Display – which projects driving-related information onto the windscreen – and the BMW Drive Recorder.

Advanced connectivity and new digital services.

Both driver and passengers will benefit from the extended possibilities enabled by the inclusion of BMW Operating System 7 in the all-new BMW 2 Series Coupé as standard. Drivers can take their pick of control interface for the situation at hand: control display touchscreen, proven BMW Controller, multifunction buttons on the steering wheel or voice control. The all-new BMW 2 Series Coupé also gives customers onboard access to a range of advanced digital services, including the BMW Intelligent Personal Assistant, BMW Digital Key, and Remote Software Upgrades.

The standard-fitted BMW Live Cockpit Professional features a fully digital screen grouping. It includes a high-resolution instrument cluster behind the steering wheel with a screen diagonal of 12.3 inches and a 10.25-inch control display. Smartphone integration enables the use of Apple CarPlay and Android Auto via the car's operating system. Finally, the Remote Software Upgrades function allows improved vehicle functions and additional digital services to be imported into the car over the air.

The all-new BMW 2 Series Coupé is now available for viewing at the Performance Motors Limited and Performance Munich Autos showrooms.

About Performance Motors Limited (PML)

Performance Motors Limited (PML) is a unit under Sime Darby Motors, a division of Sime Darby Berhad, and has been the dealer of BMW cars and BMW motorcycles in Singapore since 1979.

The PML showroom is located at 303 Alexandra Road, Singapore 159941.

Showroom opening hours are Monday to Saturday, 8am – 7pm; Sunday and Public Holiday, 10am – 6pm. For more enquiries, please call 1 800 2255 269.

PML has achieved various accolades in the areas of sales achievement and service excellence in its 40-year history in the luxury segment.

2016 - PML recorded an all-time high for new car registrations and was named the 'Best Dealer in Sales – Importer Region B4' at BMW Group's Excellence in Sales Awards 2016. The company also won the 'Best Lifestyle Dealership' from BMW Group Asia. PML launched the Future Retail concept at the newly renovated BMW showroom at Sime Darby Performance Centre, creating an engaging retail environment with the use of innovative digital tools. As a leading luxury car brand in Singapore, BMW remained the preferred limousine brand for events such as the Singapore Airshow 2016, SMBC Singapore Open 2016, and Louis Vuitton High Jewellery Event 2016, just to name a few.

2017 - PML was recognised at BMW Group's Excellence in Sales Awards 2017 as 'Best Retailer in Sales in the Importer Region Asia Pacific', and was accorded the 'Point Of Sales Award for Aftersales Marketing Excellence - Second Place' as

well as the 'Best Accessories Performance' awards by BMW Group Asia. The introduction of five new plug-in hybrid electric vehicles (PHEVs) and an updated electric vehicle (EV) under the BMW i brand saw PML cementing its position as the industry leader for electromobility in Singapore. BMW was appointed the official car brand for numerous high-profile events including the ASEAN Tourism Forum 2017, SMBC Singapore Open 2017, Singapore Yacht Show 2017, IMDEX Asia 2017, Miss Universe Singapore 2017, and Singapore International Energy Week 2017.

2018 – In another record-breaking year of new car registrations, PML had for the first time surpassed the 5,000-unit mark. BMW cars also continued to be the favoured limousines for various prestigious events throughout the year, namely the SMBC Singapore Open 2018, Singapore Airshow 2018, 32nd ASEAN Summit, and Singapore International Film Festival 2018.

2019 – Celebrating its 40th year of distributing BMW Cars and Motorcycles in Singapore, PML took to the heart of Orchard Road for BMWFestSG with a myriad of activities to engage the masses and deliver sheer driving pleasure. BMW once again had the honour of being appointed as the preferred limousine provider for events such as the International Maritime Conference & Exhibition for Defence (IMDEX Asia) 2019, Singapore Convention Week 2019, and Singapore International Energy Week (SIEW) 2019.

2020 – BMW was the second best-selling car brand and leading premium automotive brand in Singapore, capturing 9.8% of the market share. November and December marked record-breaking months for car sales in PML's entire 41 year history. 2020 also saw the launch of 13 models including the first-ever BMW 2 Series Gran Coupe, new BMW X3 xDrive30e, and first-ever BMW M8 Competition, alongside eight virtual launches and events such as the eJoyFest and BMWFestSG. PML also launched the BMW Digital Showroom, BMW Convenience 360, and the BMW Performance Motors SG Mobile App to create a seamless customer journey between the virtual and physical landscapes.

2021 – For a second year running, BMW was the second best-selling car brand and leading premium automotive brand in Singapore, capturing 11.3% of market share with its best first half-year performance in PML's history recording 2,993 cars delivered and 736 cars registered in June 2021 alone. PML launched its first-ever Phygital (Physical and Digital) event; BMW World SG 2021 in January 2021 engaging our customers with in-showroom and online deals. Other events such as BMW JoyFest 2021 were also a resounding success generating 3,689 leads, 1300 test drives and a conversion ratio of 19.7% (leads to sales) with a mix of online activations such as online flash sales and secret deals and offsite activations such as goodie bag redemptions for test drives. 11 new models were launched in 2021 including two electric models; the BMW iX3 – an electric variant to the ever-popular BMW X3 and BMW Group's brand new technology flagship, the BMW iX alongside other models such as the BMW 4 Series Convertible, BMW 4 Series Gran Coupe, and BMW M3 and M4 Competition.

About Performance Munich Autos

Performance Munich Autos is the world's first dedicated BMW M dealership in Singapore that holds the retail rights to a full range of BMW M and BMW M Performance Automobiles.

Performance Munich Autos Showroom is located at 315 Alexandra Road Singapore 159944.

Showroom opening hours are Monday to Saturday, 8am - 7pm, Sunday and Public Holidays, 10am – 6pm.

1. The all-new BMW 2 Series Coupé prices.

Model	VES Band	Retail price (at press time)
BMW 220i Coupé	B	\$257,888
BMW M240i xDrive Coupé	C2	\$349,888

2. The all-new BMW 2 Series Coupé specifications.

BMW 220i Coupé

In-line four-cylinder petrol engine, BMW TwinPower Turbo technology: twin-scroll turbocharger, High Precision Injection, VALVETRONIC fully variable valve timing, Double-VANOS variable camshaft timing.

Capacity: 1,998 cc.

Output: 184 hp at 5,000 – 6,500 rpm.

Torque: 300 Nm at 1,350 – 4,000 rpm.

Acceleration (0 – 100 km/h): 7.5 seconds.

Top speed: 236 km/h.

Fuel consumption (combined): 6.9 L/100 km.

CO₂ emissions (combined): 159 g/km.

BMW M240i xDrive Coupé

In-line six-cylinder petrol engine, BMW TwinPower Turbo technology: twin-scroll turbocharger, High Precision Injection, VALVETRONIC fully variable valve timing, Double-VANOS variable camshaft timing.

Capacity: 2,998 cc.

Output: 374 hp at 5,500 – 6,500 rpm.

Torque: 500 Nm at 1,900 – 5,000 rpm.

Acceleration (0 – 100 km/h): 4.3 seconds.

Top speed: 250 km/h.

Fuel consumption (combined): 8.9 L/100 km.

CO₂ emissions (combined): 204 g/km.
