BMW teams up with Paramount Pictures' new theatrical film, "Mission: Impossible – Fallout," with the BMW M5 appearing alongside Tom Cruise as Ethan Hunt in the action-packed film with spectacular car chases and stunts.

Munich. The BMW Group announces its role as the exclusive worldwide automotive partner of the next installment of Paramount Pictures' and Skydance Media's legendary action film franchise, "Mission: Impossible – Fallout," opening in cinemas around the world from 27 July. BMW has been a partner of the iconic film series since 2011, and in the upcoming film, BMW once again provides a range of vehicles and global marketing in support of the release.

BMW Trailer: <https://youtu.be/1q8CgwU70KY>

The new movie finds Ethan Hunt (Tom Cruise) and his IMF team (Alec Baldwin, Simon Pegg, Ving Rhames) along with some familiar allies (Rebecca Ferguson, Michelle Monaghan) in a race against time after a mission gone wrong. Henry Cavill, Angela Bassett, and Vanessa Kirby also join the dynamic cast with filmmaker Christopher McQuarrie returning to the direct.

The team of agents is reinforced by the new BMW M5 and a number of other BMW models, including the 1986 BMW 5 Series Sedan, the BMW 7 Series Sedan and the BMW R nineT Scrambler.

Styled with characteristic BMW M Performance Parts, such as a black kidney grille and carbon-fibre mirror caps, the BMW M5 makes an impressive appearance in the film. With its powerful 4.4-litre V8 biturbo engine with TwinPower Turbo technology and 441 kW/600 hp (combined fuel consumption: 10.5 l/100 km; combined CO2 emissions: 241 g/km) and the newly-developed high-performance M xDrive all-wheel drive, the BMW M5 makes sure that Cruise's Ethan Hunt always has the best-possible traction and superior driving dynamics to keep him ahead of his enemies.

The BMW R nineT Scrambler can be seen in key scenes, performing daring manoeuvres at rapid speed in a wild chase through Paris. A 1986 BMW 5 Series Sedan, from BMW's historic past, also makes a major appearance in a high-octane scene which sets a new standard for the action-film genre.

As part of the collaboration with Paramount Pictures, BMW's global "Mission to Thrill" themed marketing campaign will promote and support the theatrical release and include cobranded broadcast TV media highlighting a range of different vehicles, print ads, digital across BMW sites as well as other key channels, in dealer activations and more.

"BMW and 'Mission: Impossible' are a perfect fit. We are proud of our long-running partnership with Paramount Pictures and that our powerful cars and motorcycles have been able to enhance this iconic film series time and again. For exciting chases, you need cars with impressive driving dynamics and handling," said Uwe Dreher, head of Brand Communications BMW, BMW M, BMW i. "This provides the ideal stage for our most dynamic business athlete: the BMW M5."

"We are excited to welcome BMW back as a partner on 'Mission: Impossible Fallout,'" said Irene Trachtenberg, Senior Vice President of Worldwide Marketing Partnerships, Paramount Pictures. "Our partnership with BMW provides a global platform to reach

Mission: Impossible movie fans around the world and leverage our mutual passion for technological innovation, high octane action and compelling storytelling."

The "Mission Impossible" partnership between BMW and Paramount Pictures, which dates from 2011, has already provided movie fans with several classic moments of cinematic history. The BMW brand has been meaningfully integrated into the stories of each film, showcasing forward thinking technologies and vision that have helped the IMF agents successfully complete their missions.

The BMW i Vision Dynamics concept vehicle, which previewed the revolutionary BMW i8 hybrid sports car and technologies like Head-Up Display and active Pedestrian Detection, made its debut in "Mission: Impossible - Ghost Protocol" in 2011.

In 2015, this was followed by "Mission: Impossible – Rogue Nation," in which the BMW M3 pulled off one of the most spectacular backwards-driving stunts in film history. The movie car once again provided a glimpse of future technology with the handprint unlock function, while motorcycle enthusiasts will fondly remember the high-speed chase in which Ethan Hunt rides the BMW Motorrad S 1000 RR through the mountains outside Marrakech.

"Mission: Impossible - Fallout" promises to be the most thrilling mission yet.

The values of fuel consumptions, CO2 emissions and energy consumptions shown are determined according to the European Regulation (EC) 715/2007 in the version applicable at the time of type approval. The figures refer to a vehicle with basic configuration in Germany and the range shown considers optional equipment and the different size of wheels and tires available on the selected model and may vary during the configuration.

The values of the vehicles labeled with (...) are already based on the new WLTP regulation and are translated back into NEDC-equivalent values in order to ensure the comparison between the vehicles. [With respect to these vehicles, for vehicle related taxes or other duties based (at least inter alia) on CO2-emissions the CO2 values may differ to the values stated here].

The CO2 efficiency specifications are determined according to Directive 1999/94/EC and Pkw-EnVKV in its current version applicable. The values shown are based on the fuel consumption, CO2 values and energy consumptions according to the NEDC cycle for the classification.

For further information about the official fuel consumption and the specific CO2 emission of new passenger cars can be taken out of the „handbook of fuel consumption, the CO2 emission and power consumption of new passenger cars", which is available at all selling points and at <https://www.dat.de/angebote/verlagsprodukte/leitfaden-kraftstoffverbrauch.html>
