Munich. In the 2022 season, BMW M Motorsport's real-time video documentary 'MBEDDED' continues to offer exclusive insights behind the scenes of the racing programme, accompany management in their roles, and give viewers a totally new perspective of the big decision-making processes. The sixth episode begins by following Andreas Roos at his first race as Head of BMW M Motorsport in Sebring (USA). Part two offers an exclusive first insight into the complex process of manufacturing the hybrid drivetrain for the BMW M LMDh car. Link to video: <https://youtu.be/ZfVH4JhPb8U>.

Episode six begins with the 12 Hours of Sebring and an in-depth look at Andreas Roos in his role as Head of BMW M Motorsport. Viewers not only get to know him better, but also learn a little about the plans for the pending test phase for the new LMDh car, which will make its race debut at the 24 Hours of Daytona (USA) in 2023.

The second part of the episode enters uncharted territory. For the first time, BMW M Motorsport offers detailed insights into the development of the engine for the LMDh car. The engineers responsible show and explain the manufacturing process behind both the combustion engine and the electric motor, which completes the hybrid drivetrain. Here too, the engineers give a very good impression of just how sophisticated the project is. As one of the

highlights, 'MBEDDED' offers a taste of the sound that fans can look forward to hearing from the combustion engine in the BMW M LMDh car.
