

Presse-Information
November 2009

Green Christmas. The BMW golf cart bag.

Munich. Temperatures below freezing, wind, snow or rain. November to April are the worst months of the year for around 575,000 German golfers. The vast majority of the 693 courses in these parts are unplayable and the greens are often closed. To fill the time, you could try a golfing holiday in southern Europe or a Christmas gift from the **BMW Golfsport Collection**.

A great deal to discover.

The white **BMW golf cart bag** has been developed together with bag specialist OGIO and has an impressive number of elaborate details: eleven special pockets, a roomy club compartment with seven separate sections, a strap for securing a golf club towel/umbrella, two isolated drinks compartments and much more. By the time you've discovered all the little extras, there will only be a few weeks to go until the beginning of the golfing season ...

Armed for the rain.

With the **BMW golf cart bag** the season can begin even if the weather is not yet exactly spring-like. The bag's rain cover can be attached in seconds, which means that an unexpected downpour is no longer a problem for the hardened golfer at least, because the equipment is protected.

The **BMW golf cart bag** is available from selected BMW dealers and online at www.bmw-shop.de.
