**BMW Motorrad presents three new special models:
BMW R 1200 GS Rallye, BMW K 1300 S with
HP Package, and BMW K 1300 R.
Dynamics Package for BMW K 1300 S.**

Special model BMW R 1200 GS Rallye.

Extended tours, long distance travels, and even journeys to the remote places of our planet run like a thread through the history of BMW GS, just like spectacular adventure rallies and magnificent sporting success. All of this now finds the ultimate testimony in the special model R 1200 GS Rallye from BMW Motorrad.

Body parts in solid Alpine white, graphics in the legendary BMW Motorrad Motorsports colours, and fork and engine in black lend the R 1200 GS Rallye its especially sporting, adventurous character. The Paralever swingarm in Asphalt grey metallic, cylinder head covers in Granite grey metallic, and an all chrome exhaust system provide a powerful contrast of engineering. A particular eyecatcher is presented by the rear frame with Magma red paintwork.

The sporting look of the 81 kW / 110 hp travel enduro is underscored by the seat in black and white. Cross spoke wheels, heated grips, hand protectors in white, case holder, onboard computer, and the electronic suspension adjustment Enduro ESA make this extraordinary GS ideal for a very wide range of applications.

The price in Germany is €14,950.00 incl 19% VAT, and the launch is scheduled for January 2012.

BMW K 1300 S with HP Package.

As the sportiest representative of the BMW Motorrad K Series, the BMW K 1300 S combines sporting character and riding dynamics with a high level of comfort, lightfooted handling with absolute riding stability, and superior performance with perfect everyday practicality. At the same time, it offers a high level of protection against wind and weather and perfected ergonomics for long hauls.

The special model BMW K 1300 S with HP Package emphasises these virtues and upgrades the popular sports tourer to a vehicle of even greater prestige.

The special model bears an exclusive Edition badge of brushed aluminium on the airbox cover. This sporting character is underscored by the paintwork of solid Alpine White / metallic Lupin Blue / solid Night Black contrasting with the HP carbon parts like the covers for the front wheel, airbox, clutch, and seat.

Special model BMW K 1300 R

Boasting a 127 kW (173 hp) engine and tipping the scales at 243 kg including fuel, the extravagant power roadster K 1300 R is one of the most powerful vehicles on this segment for even the highest demands for riding dynamics.

The exclusive paintwork on the special model K 1300 R underscores the muscular face and the sporty, lean tail of this athletic naked bike. At the same time, the combination of mat metallic Ostra grey and metallic Sapphire black emphasises the uncompromising masculinity of this beefy roadster.

The lettering in Sun yellow presents a play of harmony.

The special model also features a high quality carbon engine spoiler in support of its dynamic riding claims.

The price in Germany is €14,910.00 incl 19% VAT, and the launch is scheduled for January 2012.

The highlights of the special model K 1300 R:

- special paintwork in mat metallic Ostra grey and Sapphire black metallic
- lettering with Sun yellow
- carbon engine spoiler

BMW K 1300 S with Dynamics Package

The Dynamics Package from BMW Motorrad presents a range of optional equipment and optional accessories that serve to enhance even further the riding dynamics, riding safety, comfort, and touring capabilities provided by the extensive equipment that is already fitted as standard.

The new Dynamics Package will be available from January 2012 for orders of new vehicles. The package price in Germany is €1,010.00 incl 19% VAT (€854 saving).
