# ABB FIA FORMULA E CHAMPIONSHIP 2017/18.

## MEXICO CITY (MEX).

### THE DRIVERS.

"I'm looking forward to another new experience in Mexico. I've been enjoying my time so far with MS&AD Andretti in Formula E and I'm learning with every lap. Hopefully, I can take what I've learned in my first two weekends and translate it into an even better performance in Mexico City. There has been a lot to get my head around but we are getting stronger as a team round by round. The potential is there to score points on a regular basis and challenge for podiums so we just need to stay calm and maximise what we have."

"I'm happy to be coming back to Mexico City for another Formula E race. It is always one of the best races of the year in terms of track but we also have a huge fan base there and there is always a lot of support from the Mexican people. Last year, we were running well and in fourth place before a small issue caused us to not finish the race but I'm confident this can be a good track for us. The MS&AD Andretti FE team is taking massive steps forward every week. We are understanding where we have to improve and that motivates me a lot."

"The MS&AD Andretti FE team is excited to be heading back to Mexico City for a third straight year. The race event here has given us mixed results in the past but we are hoping for good luck the third time around. This season we have had some strong race performances but we do not always reap the rewards that our partners MS&AD, TE Connectivity and BMW deserve. Despite this, we are all motivated to perform well and continue to push hard between races. The effort that I see put in each day from the engineers, the mechanics, and the drivers tells me how hard everyone is striving for success. The team and its partnerships get stronger every day."
