## Traditional driving fun re-interpreted: the MINI Cooper S 3-door in the Resolute Edition.

P90452362

The classic body variant of the premium small car is the epitome of agile handling, expressive design and individual style. The exclusive design and equipment features of the edition model lend particular emphasis to these hallmark MINI characteristics.

**Munich.** Expressive design, inspirational driving fun, premium quality and individual style: the MINI 3-door combines all this with a classic body concept and the brand's fascinating tradition. The new Resolute Edition of the original in the premium small car segment now captures the very essence of this unique combination. With its exclusive design and equipment features, it offers a modern re-interpretation of the authentic qualities embraced by the MINI 3-door. The new edition model is available at dealerships since March 2022.

Page 2

In the Resolute Edition, the MINI Cooper S 3-door (combined fuel consumption: 6.6 – 6.2 l/100 km; combined CO<sub>2</sub> emissions: 151 – 140 g/km WLTP) is a prime example of traditional sporty flair. Its 2.0-litre 4-cylinder engine with MINI TwinPower Turbo Technology has a peak output of 131 kW/178 hp and a maximum torque of 280 Nm. With the standard 6-speed manual transmission, this highly spirited small car sprints from standstill to 100 km/h in 6.8 seconds. When fitted with the optional 7-speed Steptronic transmission with double clutch, it moves a touch faster – in this case the standard sprint takes just 6.7 seconds. The car's top speed is 235 km/h.

Athletic talent is part and parcel of the MINI genes. The Resolute Edition echoes the brand's early motor racing career, in particular with a body finish that is inspired by the classic colour used for British racing cars: the exterior in the Rebel Green variant clearly expresses the sporting spirit of the premium small car – this finish was previously exclusive to the top athlete MINI John Cooper Works (combined fuel consumption: 7.1 – 6.8 l/100 km; combined CO<sub>2</sub> emissions: 162 – 156 g/km according to WLTP). The body colour is combined with a finish in Pepper White or black for the roof and exterior mirror caps. Bonnet stripes with parallel lines in light and dark gold tones along with exclusive 18-inch light alloy wheels in Pulse Spoke Black round off the sporty appearance of the edition vehicle. 17-inch alloy wheels are also available in the Tentacle Spoke Black variant as an alternative.

A clear commitment to the brand's historic roots is also signalled by the "RESOLUTE" inscription on the bonnet stripes and door sill finishers. Hallmark design features are finished in exclusive Resolute Bronze. This includes the headlight surrounds, the radiator grille and rear lights, the side scuttles on the front side panels, the door and tailgate handles, the air intakes in the front apron and the fuel filler cap. An attractive contrast is provided by the brand logos and model inscriptions, which like the inner frame and crossbar of the radiator grille and the tailpipe trim of the exhaust system are finished in Piano Black.

Page 3

An authentic interior atmosphere geared towards driving fun is ensured by the anthracite-coloured roof liner and sports seats in exclusive Black Pearl/Light Chequered fabric/leatherette, which are combined with black armrests and knee rolls. The MINI Yours Leather Lounge variant is also available on request in Carbon Black with particularly striking stitching and piping as well as a perforated Union Jack motif on the headrests. The range of standard equipment also includes the Nappa sports leather steering wheel. An edition emblem is featured on the bottom spoke of the Nappa sports leather steering wheel and on the floor mats.

The high-quality and authentic style of the MINI Cooper S-3 door in the Resolute Edition is further highlighted by means of distinctive interior surfaces. Against the black background of these surfaces, parallel and evenly curved lines in a light golden tone form an exquisite pinstripe pattern, also echoing the structure of the bonnet stripes. The design features of the Edition are atmospherically showcased by the lighting package, with LED units that provide targeted interior illumination, as well as by the Ambient Light, which additionally includes such features as a laser-engraved ring for the central instrument and also light piping in the doors and cockpit area, as well as illuminated door handles and door entry areas. The MINI Driving Modes likewise form part of the equipment package for the MINI Cooper 3-door in the Resolute Edition. A toggle switch can be used to activate more strikingly sporty characteristics in the vehicle's drive and suspension systems.

Fuel consumption, CO<sub>2</sub> emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO<sub>2</sub> emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at [www.bmw.de/wltp](http://www.bmw.de/wltp).

For further details of the official fuel consumption figures and official specific CO<sub>2</sub> emissions of new cars, please refer to the "Manual on the fuel consumption, CO<sub>2</sub> emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
