## **BMW Motorrad International GS Trophy 2022 Southeast Europe.** **21 International teams ready to go on the ride of a lifetime.**

**Kavaje, Albania.** Here on the shores of the Adriatic Sea, near the town of Kavaje in the western lowlands of Albania, the teams have all arrived, the bikes are waiting, tents have been pitched, riding kit unpacked and everyone is ready for the start of the eighth BMW Motorrad International GS Trophy.

The riders have been working through the event registration, medical checks, fitting of their BMW communications systems to their helmets and not least taking possession of their brand-new BMW R 1250 GS motorcycles and making personal adjustments. After all the 'work', an evening welcoming party has brought all the competitors together as they contemplate the start of the competition – and the 6am call to breakfast!

This year there are 21 international teams, 15 of which are three-man male teams and 6 are two-man female teams – an all-new format for the International GS Trophy.

What lies ahead is seven days and 1230km of adventure riding as the GS riders ride from the sandy beaches to the highest mountains in this largely untouched off-road paradise in the southeast of Europe. That the route is one of the shortest yet is indicative of just how technical the riding will be, the riders can expect extremely narrow winding roads and a high percentage of off-road as they cross the country and encounter the mountains of the Dinaric Alps and the Pindus range. It's a region that has maintained its wilderness, allowing the likes of wolves and bears to roam freely.

Overall director of the Int. GS Trophy, Ralf Rodepeter, Head of marketing and product management at BMW Motorrad, is delighted with the venue and format of this year's competition:

"After Tunisia, South Africa, Patagonia, Canada, Thailand, Mongolia and most recently New Zealand, BMW Motorrad was once again on the lookout for a location that offered the perfect 'GS terrain'. Lots of legal off-road kilometres are required, with demanding route profiles and plenty of unknowns. Albania offers the ideal conditions.

"Varied landscapes with high mountains, plateaus, deep forests, beaches along the Adriatic coast, fantastic riverbeds to cross and deep mountain lakes provide the ideal backdrop for what we believe to be one of the most exciting GS Trophies ever stages."

Quote: "At 42 my husband started riding motorcycles, perhaps a midlife crisis, and I realized he was having a lot of fun and so I decided to join him – and never looked back. A friend, Morag Campbell, suggested that I part take in the GS Trophy and my husband encouraged me to get onto his R 1200 GS and give it a try. It was a daunting idea, but he said: 'You can'. I tried and here I am today... loving my GS, loving the adventure, and making life a ride!"
