POSTCARD STORY.

THE MINI JOHN COOPER WORKS CLUBMAN.

P90490083

An individual body concept and stylish understatement characterize the MINI John Cooper Works Clubman, which, with its 306 hp four-cylinder turbo engine, guarantees driving fun and go-kart feeling of its sportiest kind.

The MINI John Cooper Works Clubman symbolizes the modern interpretation of the classic shooting brake concept and brings its outstanding power to the road via an 8-speed Steptronic sport transmission and ALL4 all-wheel drive. In combination with its unmistakable two side-opening split doors at the rear and a boot volume of up to 1250 liters, the Individualist is perfect for extensive Christmas shopping. To give as many children as possible around the world a wonderful and carefree Christmas, MINI is once again supporting SOS Children's Villages and is calling on its worldwide community to donate:

MINI John Cooper Works Clubman (Fuel consumption combined in l/100km: 7,0-6,6 (NEDC); 7,9-7,4 (WLTP) / CO² emissions combined in g/km: 161-151 (NEDC); 180-168 (WLTP))

Fuel consumption, CO₂ emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO₂ emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at www.bmw.de/wltp. For further details of the official fuel consumption figures and official specific CO₂ emissions of new cars, please refer to the "Manual on the fuel consumption, CO₂ emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
