## POSTCARD STORY. THE MINI COOPER S CLUBMAN ALL4.

**With its body color Rooftop Grey and its black bonnet stripes, the MINI Cooper S Clubman ALL4 blends perfectly with the contrasting and breathtaking landscape of Mallorca, which is characterized by a varied panorama.**

P90478988

The MINI Cooper S Clubman ALL4 combines all-wheel drive with a sporty engine and ample storage space, making it ideally equipped for a wide range of adventures. With a maximum torque of 280 Nm and the 178 hp 2.0 liter 4-cylinder turbo engine, the MINI Cooper S Clubman ALL4 skillfully winds its way through the rugged cliffs of the island. After a drive in the unique nature of Mallorca, the trunk with a maximum volume of 1250 liters and the model-specific split doors also offers the best conditions to pack the surfboard and savor the energy of the Mediterranean Sea.

MINI Cooper S Clubman ALL4 (combined fuel consumption: 6.3 — 6.2 l/100 km (NEDC); 7.2 – 6,8 l/100 km (WLTP); combined CO2 emissions: 145 — 141 g/km according to NEDC; 163 – 154 g/km according to WLTP).

Fuel consumption, CO<sub>2</sub> emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO<sub>2</sub> emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at [www.bmw.de/wltp](http://www.bmw.de/wltp).

For further details of the official fuel consumption figures and official specific CO<sub>2</sub> emissions of new cars, please refer to the "Manual on the fuel consumption, CO<sub>2</sub> emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
