## POSTCARD STORY. MINI COOPER S CONVERTIBLE.

P90497464

**The MINI Cooper S Convertible owes its sporty, elegant appearance to the refreshing bodycolor Zesty Yellow, the black hood stripes and the Piano Black exterior. The exclusive surround of the radiator grille and of the front and rear lights emphasizes the dynamic charisma of the convertible.**

The interior consisting of a fabric and leatherette combination in Black Pearl Light Chequered perfectly reflects the exterior color and skillfully picks up the characteristic appearance in the interior. Together with the 17" tires in Pedal Spoke Black Design, the Nappa sports leather steering wheel completes the youthful look of the MINI Cooper S Convertible.

With its 178 hp, the MINI accelerates from 0 to 100 km/h in 6.9 seconds, reaching a top speed of 230 km/h. What's more, the Cooper S engine and sports automatic transmission add to the go-kart feeling and unforgettable open-air driving fun. Even on a steep mountain pass, this guarantees an unrestricted feeling of freedom.

Fuel consumption, CO<sub>2</sub> emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment. For vehicles newly type-approved since 01.01.2021, the official specifications exist only according to WLTP. In addition, according to EU Regulation 2022/195, the NEDC values will no longer be included in the EC certificates of conformity as of 01.01.2023.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO<sub>2</sub> emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at [www.bmw.de/wltp](http://www.bmw.de/wltp).

For further details of the official fuel consumption figures and official specific CO<sub>2</sub> emissions of new cars, please refer to the "Manual on the fuel consumption, CO<sub>2</sub> emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
