POSTCARD STORY. THE MINI COOPER SE CONVERTIBLE.

P90508682

Electric and elegant, the MINI Cooper SE Convertible impresses in two colour variants: Enigmatic Black and White Silver.

With the top down, you can enjoy the open-air go-kart feeling in the MINI Cooper SE Convertible. The vehicle not only impresses on narrow coastal roads, but the performance of the all-electric convertible can also be tested on the mountainous roads of Mallorca. The 135 kW/184 hp electric motor favours agile and easily controllable handling. In combination with its unmistakable design and the 17" aluminium rims in Electric Power Spoke 2-tone design, the MINI Convertible SE convinces in all areas.

Fuel consumption, CO₂ emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment. For vehicles newly type-approved since 01.01.2021, the official specifications exist only according to WLTP. In addition, according to EU Regulation 2022/195, the NEDC values will no longer be included in the EC certificates of conformity as of 01.01.2023.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO₂ emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at www.bmw.de/wltp.

For further details of the official fuel consumption figures and official specific CO₂ emissions of new cars, please refer to the "Manual on the fuel consumption, CO₂ emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
