## POSTCARD STORY. THE MINI COOPER SE COUNTRYMAN ALL4.

P90511579

**The MINI Cooper SE Countryman ALL4 combines style, adventurous and sustainability in one vehicle. With its reduced environmental footprint, the stylish all-rounder is the ideal choice for a trip to the Scottish mountains.**

As an all-rounder and spacious plug-in hybrid model, it is perfect for an adventure in nature. The MINI Untamed Edition combines smart technology with two motors and four driven wheels, offering a balanced combination of performance, driving pleasure and sustainability. The MINI Cooper SE Countryman ALL4 impresses with its sporty character and charm in the bodycolor Nanuq White.

Fuel consumption, CO<sub>2</sub> emission figures and power consumption were measured using the methods required according to Regulation VO (EC) 2007/715 as amended. They refer to vehicles on the German automotive market. For ranges, the NEDC figures take into account differences in the selected wheel and tyre size, while the WLTP figures take into account the effects of any optional equipment. For vehicles newly type-approved since 01.01.2021, the official specifications exist only according to WLTP. In addition, according to EU Regulation 2022/195, the NEDC values will no longer be included in the EC certificates of conformity as of 01.01.2023.

All figures have already been calculated based on the new WLTP test cycle. NEDC figures listed have been adjusted to the NEDC measurement method where applicable. WLTP values are used as a basis for the assessment of taxes and other vehicle-related duties which are (also) based on CO<sub>2</sub> emissions and, where applicable, for the purposes of vehicle-specific subsidies. Further information on the WLTP and NEDC measurement procedures is also available at [www.bmw.de/wltp](http://www.bmw.de/wltp).

For further details of the official fuel consumption figures and official specific CO<sub>2</sub> emissions of new cars, please refer to the "Manual on the fuel consumption, CO<sub>2</sub> emissions and power consumption of new cars", available at sales outlets free of charge, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen and at <https://www.dat.de/co2/>.
