

Debrecen foundation received a donation of twenty-five thousand euros with the help of BMW Group Plant Debrecen

Hans-Peter Kemser, CEO of BMW Group Plant Debrecen, presented a donation of €25,000 on behalf of the Karl Monz Foundation to the Women for Children with Cancer, Disabilities and Chronic Diseases Foundation at the Children's Clinic of Debrecen.

BMW Group Plant Debrecen, which already has more than a thousand employees and is expected to add around five hundred more by the time production starts in 2025, pays particular attention to protecting and preserving the health of its workers and also supports a number of social and health initiatives for the local population.

It was the Health Centre team of BMW Group Plant Debrecen that recommended the Women for Children with Cancer, Disabilities and Chronic Diseases Foundation to the attention of the Munich-based Karl Monz Foundation, which manages charitable and social projects, and which is administered by BMW AG.

The €25,000 awarded may help the Hungarian Foundation achieve its goals of improving the quality of life, care, as well as the physical and mental well-being of children with cancer, type I diabetes, endocrine diseases and other chronic illnesses, and to support the families of ill children.

Dr. Enikő Felszeghy, member of the board of trustees of the Women for Children with Cancer, Disabilities and Chronic Diseases Foundation, took receipt of the donation from Hans-Peter Kemser, with László Papp, mayor of Debrecen, Johannes Trauth, HR Manager of BMW Group Plant Debrecen, Dr. Hajnalka Szabóné-Tamás, head of the Health Centre of BMW Group Plant Debrecen, and Réka Jenei, Communications Director of BMW Group Plant Debrecen also in attendance at the event.

The Karl Monz Foundation was established by Karl Monz, former member of the Board of Management of BMW AG, who donated his fortune to the Foundation. The foundation supports, among other things, public health and welfare initiatives within and outside Germany. The Foundation's board of trustees includes Ilka Horstmeier (president), Ernst Baumann (vice president) and Heike Schneeweis. Decisions on the support for projects are made by the Foundation's council. Since its establishment in 1996, the Karl Monz Foundation has supported approximately 45 different projects and donated more than €1 million. Beneficiaries have included a community centre for people living with HIV/AIDS in South Africa and a centre for autistic people in Germany.

BMW Group Plant Debrecen

On an area of more than 400 hectares in Debrecen, located in the north-eastern part of Hungary, the BMW Group is building a complete vehicle factory with a press shop, body shop, paint shop, assembly and battery module assembly. The company is investing more than €2 billion (HUF 820 billion) in the site, which will manufacture all-electric vehicles only, starting from 2025. The plant will produce approximately 150,000 cars per year. The model manufactured in Debrecen will form the basis of the NEUE KLASSE, a new vehicle architecture for all-electric vehicles.

The BMW Group

With its four brands BMW, MINI, Rolls-Royce and BMW Motorrad, the BMW Group is the world's leading premium manufacturer of automobiles and motorcycles and also provides premium financial and mobility services. The BMW Group production network comprises 30 production and assembly facilities around the world, and the company has a global sales network in more than 140 countries.

In 2022, the BMW Group sold nearly 2.4 million passenger vehicles and more than 202,000 motorcycles worldwide. The profit before tax in the financial year 2022 was € 23.5 billion on revenues amounting to € 142.6 billion. As of 31 December 2022, the BMW Group had a workforce of 149,475 employees.

The success of the BMW Group has always been based on long-term thinking and responsible action. The company has therefore established ecological and social sustainability throughout the value chain, comprehensive product responsibility and a clear commitment to conserving resources as an integral part of its strategy.
