BMW R 1250 RT

The R 1250 RT is the perfect companion for your tour: Its legendary BMW ShiftCam boxer engine pulls just as powerfully over local country roads as it does over winding mountain passes. Its new front makes it look more dynamic and slimmer. On the other hand, the features are diverse, such as the extra-large 10.25" TFT display or the Active Cruise Control (ACC) - this ensures extra comfort on your journey. At the end of the day, you look back relaxed and you know: the next tour is always the best.
