

**BMW
MOTORRAD**

THE BMW M 1000 R.

M 1000 R with rider on a helipad Pushes you to the limit: the M 1000 R.

In short, the M R. Superbike meets dynamic roadster. Its heritage stems from M racing developers and the race track. A stunning 210 hp with a top speed of 280 km/h and you're in control – on country roads or the race track. The bike is very forgiving, but it will never forgive you for not riding it. Maximum performance: a must. Your objective: exceed – dominate the road. M colours clearly signal this. Unmissable: the sound of the M R four-cylinder engine. Can you hear it calling you? Start the engine! #NeverStopChallenging.
