The Beast: The new BMW X6 M60i xDrive launched in India.

Roaring performance with the most powerful V8 in the segment.

Unmistakable road presence: Bold front design and one of the most commanding silhouettes.

Engineered to dominate: M-Tuned Driving Dynamics with Adaptive M suspension, Integral Active Steering, Rear-biased xDrive and M Sport Differential.

0–100 km/h in just 4.3 seconds.

Gurugram. The new BMW X6 M60i xDrive was launched in India today. This performance Sports Activity Coupé (SAC) will be available in the country as a Completely Built-Up Unit (CBU) model from today onwards.

The new BMW X6 M60i xDrive is a bold expression of authority on the road, where uncompromised performance meets commanding luxury. Designed to indulge every journey, it surrounds its passengers with refined comfort, striking design, and intelligent functionality. Powered by a newly developed V8 petrol engine, the roaring 4.4-litre engine is a high-performance masterpiece.

Mr. Hardeep Singh Brar, President and CEO, BMW Group India said, " The new BMW X6 M60i xDrive is an absolute powerhouse engineered to command the road with an unmistakable, muscular stance. Positioned at the pinnacle of expressive luxury, this sports activity coupé is crafted for individuals who demand a distinct lifestyle. At its heart lies the legendary V8 engine, offering raw, emotional power. The X6 M60i is not just an automobile; it is a bold manifestation of exclusivity and engineering supremacy, designed to dominate the road and imagination of true driving connoisseurs."

The car is available at an ex-showroom price of INR 1,77,90,000.

*Price prevailing at time of invoicing will be applicable. Ex-showroom prices inclusive of GST as applicable but excludes Road Tax, Tax Collected at Source (TCS), RTO, statutory taxes/fees, other local tax/cess levies and insurance. Price and options are subject to change without prior notice. For information, please contact local MINI Dealer.

The new BMW X6 M60i is available in six exciting paintworks – Aventurine Red, Manhattan Metallic, Brooklyn Grey, Black Sapphire, Mineral White and Isle of Man Green. Upholstery is available in the standard Sensafin trim with an option of Silverstone, Tacora Red/Black, Black and Cognac.

With BMW India Financial Services, customers can experience unparalleled convenience with BMW SMART Finance. Customers can now own the new BMW X6 M60i through BMW Financial Services with an assured buyback of 60% after 3 years/10,000 km to ensure complete peace of mind. Further, the purchase can be enhanced and customized by financing the BMW Service Inclusive, BMW Secure Advance and Extended Warranty packages too.

The new BMW X6 M60i.

The new BMW X6 M60i enthralls with its distinctive **design** and coupé profile. The long, swooping roofline and crisply painted lines generate a dynamically stretched silhouette. The new BMW X6 features slim **Adaptive LED headlight** units with arrow-shaped daytime driving light elements, specified with M Shadowline lights. **Kidney grille** surrounded in matt black featuring vertical double ribs, and the M logo exude M style on the front of the new BMW X6 M60i. The Gloss black **M Exterior mirrors** adds to the aggressive look of the SAC. M-specific side skirts and **M High-gloss Shadowline extended trim** reflect the agile character of the new BMW X6. The athletically taut surfacing of the flanks and the car's muscular shoulders transition smoothly into its equally powerful rear end design. The rear apron has an insert in Dark Shadow, while the exhaust tailpipe trims are trapezoidal in shape. Another unmissable design feature of the Sports Activity Coupé is the **slim rear lights** that reach far into the tailgate. Their light signature is shaped by the familiar L shape of the rear light and brake light bars. The BMW X6 M60i xDrive leaves the factory as standard on **21-inch M light-alloy wheels** with runflat tyres.

The new BMW X6 M60i is fitted with the **M Sport package Pro** as standard which also includes an M Sport braking system with red brake callipers, a quad-pipe M Sport exhaust system, M seat belts and a rear spoiler in Black high-gloss, pointing to the standout performance attributes of the eight-cylinder model.

The new BMW X6 M60i will be available in **six striking colours** - Aventurine Red, Manhattan Metallic, Brooklyn Grey, Black Sapphire, Mineral White and Isle of Man Green. Inside, the cabin can be tailored with Sensafin upholstery available in Silverstone, Tacora Red/Black, Black and Cognac. For those seeking a truly bespoke finish, further individualisation is possible with around 40+ **BMW Individual special paintwork** shades (including metallic variants such as Atlantis and Velvet Blue, as well as solid or matt finishes) along with **BMW Individual extended leather trim 'Merino'** in Ivory white, coffee, tartufo and black ensure the vehicle is a unique reflection of your taste.

The fully digital **BMW Curved Display** is at the heart of the **interior** redesign for the new BMW X6 M60i. It is made up of a 12.3-inch information display behind the steering wheel and a control display with a screen diagonal of 14.9 inches – both located behind a single glass surface. The newly designed instrument panel serves as the perfect stage for the BMW Curved Display. Its horizontal structure emphasises the width of the cabin, while the surfacing in leather-like Sensafin, with its aesthetic and haptic qualities, draws further attention to the optimised premium character of the interior. Adding an extra touch of elegance and quality is the broad, smoothly curving trim element in standard fine wood with high-gloss metal effect for the new BMW X6 M60i xDrive model. Another feature is the ambient light bar with crystalline surface structure and highly effective LED backlighting integrated below the trim element in the front passenger area. The model lettering – “///M” – is added to the light bar’s graphic. Exclusive glass applications as optional for toggle, iDrive controller and controls can be specified with the **Crafted Clarity option**.

The standard **comfort seats** in the new BMW X6 offer outstanding lateral support through dynamically taken corners. They are ventilated, feature lumbar support and offer electric adjustment options for the seat height, seat angle, backrest angle and backrest width – including a memory function on the driver’s side. Also available as an option for the driver and front passenger is massage function with eight massage programs, each with three intensity levels for muscle activation and relaxation. With its 16 speakers and 464-watt amplifier, the **Harman Kardon surround sound system** further enhances the on-board acoustic experience. The optional **Alcantara M headliner** adds to the cabin’s premiumness. Additionally, **Soft-close doors** enhance convenience and safety with smooth, effortless operation.

The new BMW X6 M60i xDrive model is powered by a newly developed **V8 petrol engine**. The 4.4-litre power unit can trace its genes back to engines used in renowned BMW M and racing machines. The engine produces an output of 530 hp and 750 Nm maximum torque. It is accompanied by a characteristic sound thanks to the M Sport exhaust unit. The 48V battery setup significantly improves performance as well as efficiency. The car completes the sprint from 0 to 100 km/hr in 4.3 seconds, and has a top speed of 250 km/h.

The **eight-speed Steptronic Sport automatic transmission** performs smooth, almost imperceptible gearshifts. At any time, in any gear, the transmission collaborates perfectly with the engine, enabling it to develop its full power and efficiency. For even greater driving pleasure, it is available with steering wheel paddle shifters and cruise control with braking function as standard. The **Integral Active Steering**, with rear-wheel steer, enhances agility at low speeds and stability at high speeds.

BMW xDrive, the intelligent all-wheel drive technology monitors the driving situation and is quick to respond to ensure maximum traction, agility and vehicle stability. The standard **M Sport differential** enhances driving engagement. The **Adaptive M suspension** fitted as standard results in a noticeably firmer connection to the body. Electronically controlled dampers are on hand to refine handling dynamics as well as primary ride comfort. **M Sport brakes** provide excellent braking performance and intuitive feel, whether negotiating city streets or driving around a circuit on a track day. The brake callipers are painted red and display the M logo.

BMW ConnectedDrive technology breaks the innovation barrier and turns the car into an interconnected digital device. Host of ConnectedDrive features include Digital Key Plus, Emergency Call, Real-time Traffic Information and Remote Services through MyBMW app. **BMW Live Cockpit Professional** includes the freestanding 14.9" BMW Curved Display with Navigation, a 12.3-inch digital information display behind the steering wheel and **BMW Head-up Display**.

The latest BMW iDrive with **Operating System 8.5**, offers all the possibilities for interaction between occupants and the vehicle – using touch or speech. It is complemented by the **BMW Intelligent Personal Assistant** system which has a self-learning intelligence that adopts a driver's individual habits, proactively provides useful tips on new driving functions and seamlessly integrates smartphone apps. Wireless smartphone integration and regular Remote Software Upgrades ensure that the car is always up to date.

My BMW App keeps an eye on vehicle status and includes 'Learning Navigation' which offers destination suggestions and traffic information based on driving habits. **BMW Digital Key Plus** turns a smartphone into a vehicle key enabling remote locking / unlocking and driving the car.

The spread of driver assistance systems is more extensive than ever. Parking Assistant Professional with 360 surround view makes parking in tight spots easier. The Reversing Assistant provides unmatched support in reversing out of a parking spot or through narrow driveways. It keeps a record of the last 200 metres driven and assists by taking over the steering.

BMW EfficientDynamics includes features such as Auto Start-Stop, Brake-Energy Regeneration, Electronic Power Steering, ECO PRO mode in Driving Experience Control. An Adaptive M suspension tuned with Bespoke chassis technology for a sporty driving experience offers excellent body rigidity for a sportiness and comfortable ride. Intelligent lightweight design, 50: 50 weight distribution and optimized aerodynamic properties provide an ideal basis for endowing the new BMW X6 M60i with remarkably agile and dynamic handling abilities.
