## 1. New products at a glance.

### BMW Motorrad Rider Equipment Collection 2020.

In addition to numerous new versions of popular pieces, the BMW Motorrad Rider Equipment range also offers many attractive new additions for the 2020 season. Featuring premium workmanship, excellent materials and a functional design, every item delivers its signature impressive high quality.

The brand-new **XRide suit** is the ideal two-piece suit for long-distance riding. The jacket and trousers feature visually appealing cowhide inserts in areas that would be exposed in the event of a fall. The ergonomic concept of the suit allows plenty of freedom of movement due to the special material selection, recesses and a high stretch content. The new **Pure XCursion jacket** with wax finish and waterproof pockets and the **Cruise Comfort boots** made of water-repellent cowhide leather also demonstrate genuine talent in adverse weather conditions.

Another highlight of the 2020 rider equipment range is the **BMW Motorrad Heritage Collection**, which celebrated its world premiere at the Pure&Crafted Festival in Amsterdam on 28 September. Combining tradition and the very best in contemporary and authentic lifestyle motorcycle apparel, the Heritage Collection celebrates the history of BMW Motorrad and its never-ending passion for motorcycling. It elegantly combines the Heritage style on the bike with the appropriate functional features, ensuring a genuine vintage biker look both on and off the road.

The various helmets, suits, gloves and boots from the Ride Collection 2020 are perfectly complemented by the new Style Collection 2020. These include items inspired by motorsports, as well as the unique **BMW Motorrad Iconic Collection**. The new **BMW Motorrad Next 100 Years Kids Bike** is available for the very youngest biking enthusiasts.

The entire BMW Motorrad collection will be presented at **EICMA 2019** in Milan from 5 to 10 November 2019. Selected items of the Heritage Collection will also be available for purchase on site – well in advance of the regular market launch. All items of the BMW Motorrad Rider Equipment 2020 range will then be available as of spring 2020.

## 2. Helmets.

### GS Carbon Trophy 20 helmet, limited edition.

Inspired by the off-road scene, the **GS Carbon** Enduro helmet featuring the GS Trophy colour scheme is captivating due to its very sporty look and perfect touring suitability. The full carbon helmet shell made of 100% carbon fibre reinforced plastic is available in two sizes, guaranteeing the very highest level of shock absorption and safety performance.

The integrated neck straps also contribute to maximum safety for a secure hold. The aerodynamically optimised combination of helmet shield and spoiler in the wind tunnel ensures maximum riding comfort, while the highly effective ventilation system is another contributing factor here. The

Pinlock double visor is 3D-curved with anti-fog Pinlock inner and outer visor featuring scratch-resistant coating on both sides. In addition to the clear standard version, other versions are available with a tinted, silver-mirrored, blue-mirrored or orange plastic visor. When riding on hot days and for off-road use, the chin flap and dust filter can be removed for a free supply of air. The head and cheek pads are washable and replaceable.

The **GS Carbon helmet** is also prepared for use with BMW Motorrad communication systems. It weighs approx. 1,450 g with shield and double visor. and it is available in sizes 52/53 to 62/63.

### System 7 Carbon Option 719 helmet, limited edition.

Make two out of one: the **System 7 Carbon Option 719 helmet** can be transformed from a full visor helmet to a jet helmet and back again in a few simple steps. The chin section is opened by pressing the central button. Thanks to its four-joint mechanism, the flip-up helmet is very compact when opened. The chin section can also be dismantled quickly and easily without tools. Limited to 1,999 units, the helmet has a refined, visually impressive design inspired by the legendary Option 719. At the same time it ensures maximum comfort and safety.

The full carbon helmet shell, available in two sizes, combines excellent shock absorption and optimum stiffness with low weight. The inner shell is made of multi-segment expanded polystyrene. Thanks to the large spoiler, the helmet is also among the best on the market when it comes to

Media information

Date 5 November 2019

Topic BMW Motorrad Rider Equipment Ride & Style 2020.

Page 5

aerodynamics and aeroacoustics. The continuously adjustable sun visor can be adapted to the prevailing lighting conditions. Extremely good ventilation ensures a cool head, while the standard double glazing with anti-fog Pinlock 120 inside and scratch-resistant coating on both sides provides excellent visibility. The chinstrap with snap lock and integrated neck straps guarantee a secure and comfortable fit. The Alcantara and DuPont-Coolmax interior is removable and washable.

In addition to the clear standard visor, versions are also available with a tinted, silver-mirrored, blue-mirrored or orange plastic visor. The helmet is also prepared for use with BMW Motorrad communication systems and weighs just 1,580 kg with the small helmet shell.

The **System 7 Carbon Option 719** helmet is available in sizes 52/53 to 64/65.

### **Street X Comp, Comp neon, Ride, Grey Matt helmet.**

Whether motorway, country road or city: the **Street X helmet** was developed for versatile road use, combining comfort and safety with modern design. Optimised in the wind tunnel, the integral helmet guarantees optimum aerodynamics and aeroacoustics. Clever equipment details include a continuously adjustable sun visor, which is conveniently operated via a slider on the top of the helmet, the chinstrap with snap lock and a washable and exchangeable interior.

The effective ventilation for the chin and head area as well as for the visor also contributes to the high level of wear comfort. The double lens visor has an anti-fog Pinlock inner visor and an outer visor with scratch-resistant coating on both sides. The inner shell is made of multi-segment expanded polystyrene.

The **Street X helmet** is available in the versions Comp, Comp neon, Ride and Grey Matt. In addition to a clear visor, versions are also available with a tinted, silver-mirrored or blue-mirrored visor. In addition, it offers an impressively low weight of approx. 1,450 g with the small helmet shell.

The **Street X helmet** is available in sizes 53/54 to 61/62.

Page 6

## Race Circuit, Race Hyper helmet.

For full concentration on the essentials: consistently developed for race track suitability, the tightly fitting **Race helmet** guarantees that its wearer is able to concentrate fully on the ideal line and react at lightning speed. It also offers maximum comfort and safety, making it the perfect integral helmet for relaxed touring, too.

Having been partly developed in the high-speed BMW wind tunnel, the helmet guarantees maximum stability at speeds of over 300 km/h thanks to its large rear spoiler and the chin spoiler, which can be optionally large or small. For maximum comfort even in a more reclined sitting position, the **Race helmet** has an enlarged neck section and a visor with a wide field of vision. The latter has a lateral locking button, a scratch-resistant coating on both sides and is 2D-curved and therefore suitable for tear-off visors. Four of these tear-off visors are also included with the **Race helmet**, as is an anti-fog Pinlock insert.

A visor with tinted plastic screen is optionally available. The **Race helmet** is available in white and black matt as well as in the Circuit and Hyper designs. Effective visor and head ventilation contributes to the high level of wear comfort, while the chinstrap and neck straps with double-D closure ensure a secure fit. The lightweight carbon fibre reinforced plastic/carbon fibre shell of the **Race helmet** is available in two sizes. The inner shell is made of multi-segment expanded polystyrene, while the interior is completely washable.

The **Race helmet** is available in sizes 52/53 and 54/55 with a weight of 1,380 g  $\pm$  50 g and in sizes 60/61 and 62/63 with a weight of 1,490 g  $\pm$  50 g.

## Bowler Option 719 helmet, limited edition.

The limited-edition **Bowler Option 719 helmet** in trendy retro style appeals to fashion-conscious bikers with its elaborate design. This is reflected not just in its sophisticated appearance – reminiscent of the Option 719 fuel tank – but also in interesting details such as the exclusive leather appliqué and the high-quality lining with embossed BMW logo.

In addition, no **Bowler Option 719 helmet** is the same as any other – because every helmet is crafted by hand and therefore unique. The helmet's closing edge and goggle strap holder are

Media information

Date 5 November 2019

Topic BMW Motorrad Rider Equipment Ride & Style 2020.

Page 7

made of high-grade calfskin leather. Whatever the shells size, every helmet radiates a slim, elegant look.

The material used in the outer shell material is a composite made up of glass and carbon fibre reinforced plastic. The shock-absorbent inner shell is made of expanded polystyrene (EPS) and offers a perfect fit since it undergoes optimum adaptation for each individual size. The pleasant inside padding is made from an antibacterial and hypoallergenic material to ensure a highly pleasant wear sensation. This is further enhanced by the integrated head and cheek pads made of soft and smooth materials and the chin strap underlay. The chinstrap is infinitely adjustable with a double-D catch.

The excellent aeroacoustics are another comfort feature of this jet helmet, ensuring a low noise level during travel. The extensive range of accessories includes transparent, tinted or mirrored visors and shields.

In addition, the **Bowler Option 719 helmet** is impressive due to its low weight of just 785 g in size XS to 970 g in size XXL. It is available in sizes 53/54 to 62 (XS, S, M, L, XL, XXL).

## 3. Suits.

### **XRide suit.**

Sporty riding fun and long distance adventures: the **XRide suit** combines maximum wear comfort with comprehensive protection. This is ensured by the elastic polyamide upper material and a high proportion of stretch material. The **XRide jacket** is made of fall-resistant leather, and it also has NP3 and NP2 protectors that sit close to the body.

As part of the ergonomic concept, the leather of the jacket is backed on the shoulders and sleeves with elastic and abrasion-resistant polyamide. Ergonomic folds in the form of specially positioned leather recesses guarantee maximum freedom of movement. Meanwhile preset elastic straps on the upper sleeves and waist hold the jacket against the body, eliminating the need for tiresome width adjustment. The AirVent system at the front with double zip and the 3D spacer fabric in the back ensure optimum climate control. Four front pockets, one of them waterproof, one back pocket and two inside pockets safely hold those small items required for day-to-day motorcycling. Reflective

inserts on the upper sleeves and front of the jacket provide good visibility in traffic, while the NP Pro long back protector provides maximum protection.

The outsert jacket included with integrated waterproof storm hood in the collar offers protection from wind and moisture. In addition, the jacket has an impressively small pack size, a tight fit with a sporty design and excellent durability due to an abrasion-resistant print in sensitive areas.

The **XRide trousers** have NP2 protectors on the hips and knees. As part of the ergonomic concept, ergonomic folds in the form of specially positioned leather recesses and integrated accordion stretch at the knees and waistband guarantee maximum freedom of movement. Cowhide leather inserts are located in areas exposed in the event of a fall and on the inside of the trousers in order to provide additional protection.

Date 5 November 2019

Topic BMW Motorrad Rider Equipment Ride & Style 2020.

Page 9

The **XRide trousers** have a total of three pockets, one of which is a concealed internal pocket. The leg end can be extended by opening an additional zip. Reflective inserts on the knees and lower legs ensure good visibility in road traffic. The outsert trousers included offer protection from wind and moisture. The side long zips without irritating velcro makes them easy to slip on and off. In addition, they also offer an impressively small pack size, a tight fit with a sporty design and excellent durability due to an abrasion-resistant print in sensitive areas.

The **XRide suit** is available for men in sizes 46 to 66, 98 to 118 and 24 to 32 and for women in sizes 34 to 48.

## **XRide Pro jacket, men.**

The limited-edition **XRide Pro jacket** for men is a particular eye-catcher. With white cowhide leather on the sleeves, it is visually striking. The same applies to the additional shoulder sliders made of a plastic-steel combination with BMW Motorrad inscription. The **XRide Pro jacket** for men combines maximum wear comfort with comprehensive protection. This is ensured by the elastic upper material polyamide and the high proportion of stretch material as well as fall-resistant leather and close-fitting NP3 and NP2 protectors.

As part of the ergonomic concept, the leather of the jacket is backed on the shoulders and sleeves with elastic textile. Ergonomic folds in the form of specially positioned leather recesses guarantee maximum freedom of movement. Meanwhile preset elastic straps on the upper sleeves and waist hold the jacket against the body, eliminating the need for tiresome width adjustment. The AirVent system at the front with double zip and the 3D spacer fabric in the back ensure an excellent climate. Four front pockets, one of them waterproof, one back pocket and two inside pockets safely hold those small items required for day-to-day motorcycling. Reflective inserts on the upper sleeves and jacket front ensure good visibility in road traffic.

The outsert jacket included with integrated waterproof storm hood in the collar offers protection from wind and moisture. It also offers an impressively small pack size, a tight fit with a sporty design and excellent durability due to an abrasion-resistant print in sensitive areas. Limited to 1,500 items, the **XRide Pro jacket** with outsert jacket is available in sizes 46 to 60.

## ProRace suit.

With the **ProRace suit** for men, bikers demonstrate high sporting standards. This starts with the way the suit is put on: a long front zip makes it easy to slip on and off. For riding, the body-hugging one-piece suit made of 1.3 mm thick, highly abrasion-resistant cowhide nappa leather offers a comprehensive safety package despite its relatively low weight.

It includes permanently sewn-in protectors on shoulders, elbows and knees. The large hip and back protectors are removable. In addition, knee sliders and sliders on the forearms and shoulders provide protection even at extreme banking angles. The so-called rear hump optimises aerodynamics – especially when riding fast in a dynamic sitting position.

And because maximum freedom of movement is particularly important when riding superbikes in sporty style, the **ProRace suit** for men suit features multiple stretch inserts for maximum wear comfort and a perfect fit. Excellent ventilation is also ensured by the white perforated leather surfaces in combination with a 3D spacer fabric in the back area – a real boost in terms of active safety. The **ProRace suit** is available for men in sizes 46 to 60.

## ProRace Made-to-Measure suit.

If you would like a ProRace suit that reflects your individual preferences, the **ProRace Made-to-Measure** gives you the option of a custom-made garment, allowing you to choose even more comfortable yet also more resilient kangaroo leather as well as additional colour and design variants, including the inscription of a name or nickname at an extra charge. Using the online configurator or doing the configuration at an authorised dealership, the suit's design can be geared entirely towards personal needs and preferences.

There are various options for knee sliders (with/without) as well as elbow and shoulder sliders. On request, further equipment details are available (some at an extra charge), such as the optional TrinkPak in the hump, variants for perforation, breast protector (with/without),

Page 11

standard foam or Vibram VPOD thermal foam. Possible logo options include: colour with BMW Motorrad inscription, with or without Race inscription, BMW logo on hump, M logo or model inscription, e.g. RR. This will set you clearly apart from other bikers. Every suit is unique – as individual as the rider. Further information about the **ProRace Made-to-Measure** can be found at [bmw-motorrad.com/ProRace](http://bmw-motorrad.com/ProRace)

## Rallye Competition suit, limited 40 Years GS edition.

The robust and off-road **Rallye Competition suit** from the limited-edition 40 years GS Collection recalls the legendary BMW R 100 GS with its historical colour scheme. The windproof and waterproof jacket made of ProTechWool – a functional material mix of polyamide and technical wool – has multiple protection in areas exposed in the event of a fall and features additional ceramic dot prints. NP2 protectors on the back, shoulders and elbows as well as reflective material on the sleeves round off the safety features. A carbon finish increases the abrasion resistance of the fabric. The perforated eyelet lining is breathable and elastic.

Maximum comfort is provided by a total of seven pockets, a back pocket for the TrinkPak, width adjustment by means of velcro straps and sophisticated ventilation in the back area as well. Maximum freedom of movement and a comfortable feel-good climate are guaranteed – even under tough conditions and in changing weather conditions. The sewn-on sponsor patches and GS Trophy flags of all countries from 2008 to 2020 on the back also create an especially attractive effect. The jacket can be zipped together with the **Rallye Competition trousers**.

The **Rallye Competition suit** is designed in the colour combination black/grey/yellow – the same as those worn by the participants of the GS Trophy 2020. The suit is available in sizes 46 to 60 and with separate waterproof insert/outsert.

Page 12

## 4. Jackets.

### PureXcursion jacket, men

Thanks to a cotton-polyamide mix with wax finish, the **PureXcursion jacket** for men is as robust and hard-wearing as its adventurous look promises. It has two waterproof pockets at the front and a large pocket at the back, in which the separately available rain inner jacket can be perfectly stowed when not in use. Stretch material in the shoulder area and on the sleeves guarantees perfect freedom of movement, while various ventilation options in the back and chest area create a pleasant body climate. A high level of wear comfort is ensured not only by the adjustable cuffs, hem and sleeves with velcro and press studs but also by the particularly light, integrated NPL protectors. The **PureXcursion jacket** is available for men in sizes 46 to 60.

### Ride rain inner jacket.

The windproof and waterproof **Ride inner rain jacket** with stowable hood can be folded down to a very small size and is therefore instantly at hand for every shower. Best of all: the practical rain cover made of highly elastic nylon and PU membrane can be combined with all non-weatherproof BMW Motorrad jackets, ensuring that rider and passenger always remain dry on reaching their destination. The hood is designed so that it can even be worn under the helmet. The elasticated cuffs close tightly around the wrists.

The **Ride inner rain jacket** also serves its purpose as a fully-fledged rain jacket when the motorcycle is left in the garage to keep dry. It is available in grey for men in sizes 46 to 60 and for women in sizes 34 to 48.

Page 13

## 5. Boots.

### CruiseComfort boots.

The **CruiseComfort boots** are excellently equipped – the ideal entry-level all-year-round touring boots. They offer a range of practical details that are highly impressive. The upper material itself made of a textile-leather mix guarantees low weight, flexibility and a high level of wear comfort. The foot area is made of water-repellent cowhide leather, while the shaft is made of abrasion-resistant lightweight polyamide so as to improve ventilation. Thanks to the GORE-TEX® membrane, the boots are windproof, waterproof and highly breathable, making them suitable for all seasons.

The concealed long zip on the inside makes for easy slip-on, slip-off, while the wide velcro area on the calf allows individual width adjustment. The shaft end also features soft microfibre. The oil and petrol resistant rubber outsole provides a secure hold on the footrests as well as sufficient comfort when strolling through the city. Reflective material on the heel increases road safety. The anatomically shaped insole is removable and can be washed. The black **CruiseComfort boots** come in sizes 39 to 48.

### Gravel Evo boots.

The robust **Gravel Evo boots** made of full-grain cowhide leather are the ideal companions for touring cyclists who like to travel off-road. Waterproof, windproof and breathable thanks to the GORE-TEX® membrane, their high upper and strong sole offer a high level of wear comfort and a wide range of uses. Foam padding provides shin and ankle protection while heel caps and toe reinforcement relieve braking and shifting, as does the functionally moulded shift lever protection made of thermoplastic polyurethane on both sides. Velcro surfaces for continuously variable width adjustment make it easier to put the boots on. The suede leather on the upper provides a better grip on the motorcycle. The **Gravel Evo boots** come in sizes 38 to 48.

Page 14

## 6. Gloves.

### Two in One Tech gloves

Thanks to their 2-chamber technology, the **Two in One Tech gloves** can be adapted to varying weather conditions, thereby offering increased comfort when on tour. While the first chamber is not lined and offers excellent grip on the handlebars thanks to kangaroo leather, the waterproof second chamber with its breathable GORE-TEX® membrane provides perfect weather protection.

The shock-absorbing foam on the ball of the hand and the hard shell of the ankle as well as the double layer of leather on the edge of the hand contribute to a high level of wear comfort. The wiper lip on the left forefinger allows the helmet visor to be cleaned quickly and easily in the rain, while the forefinger and thumb tips enable touchscreen operation. Coloured markings ensure the gloves can be slipped on and off quickly and easily. The **Two in One Tech gloves** are designed in black/grey and are available in sizes 6/6.5 to 12/12.5.

### Summer gloves.

The light, well ventilated **Summer gloves** with very short cuff offer maximum wear comfort even on hot summer days. They are perforated on the back of the hand and between the fingers, lined only on the back of the hand and doubled in areas that are exposed in the event of a fall. The soft and shock-absorbing ankle shell covered with goatskin leather is lined with foam. Stretch leather folds at the finger bases allow easy and quick movements to be made when applying the clutch and brakes.

The gloves are also pre-curved for a perfect fit, while the cuff is short with a velcro strap. The BMW propeller stud provides an attractive visual accentuation. The **Summer gloves** are available in sizes 6/6.5 to 12/12.5 and in the colours black and light grey, so they are a perfect match for all BMW Motorrad suits.

Media information

Date 5 November 2019

Topic BMW Motorrad Rider Equipment Ride & Style 2020.

Page 15

## Rallye gloves, black

Everything under control – when riding off-road, too: the **Rallye gloves** are designed for on-road and off-road use at higher temperatures. For this reason, the gloves are fitted with an elastic textile backhand and an unlined underhand made of highly abrasion-resistant kangaroo leather. The material mix not only makes the glove light and breathable, it also ensures excellent grip, so the biker has the machine safely under control even during sweaty rides.

Double layers of special leather on the palm, leather details on the backhand, a hard shell lined with Temper foam and additional foam pads in the area of the fingers guarantee the necessary impact protection – both on rough terrain and on the road. Ventilation openings in the hard shell and between the fingers ensure carefree riding pleasure, especially at higher temperatures, while the short cuff and the velcro strap provide a firm fit.

The tips of the forefinger and thumb are made of a special leather that allows touchscreen operation with the black **Rallye gloves** in sizes 6/6.5 to 12/12.5.

Page 16

## 7. Functional clothing.

### Ride quilted jacket.

The functional **Ride quilted jacket** is thinly padded and can be worn under a BMW Motorrad jacket on cool days. Thanks to its fashionable, body-hugging cut and attractive quilting at the elbows and shoulders, the lightweight jacket can also be worn on its own. Its cool biker look makes the jacket a practical companion for a range of leisure activities – especially since the thin padding with PrimaLoft® keeps the wearer wonderfully warm during the transition period. Soft, cosy side panels made of close-fitting Softshell ensure a good fit, while the collar close to the neck provides particularly comfortable protection from draughts. When it rains, the water stop on the collar and lower hem prevents unpleasant suction effects.

Other practical features include the two zipped front pockets and the PackAway inner pocket, which allows the jacket to be folded down to a very small pack size when not in use. When the quilted jacket is worn as an inner jacket, the snap fastener and loop on the collar serve as a connection to the motorcycle jacket. One particularly practical feature is the integrated cross zip in the back section, which enables direct combination of motorcycle jacket and trousers via the relevant connecting zip, without the quilted jacket having to be inserted in the waistband of the trousers. To round off the look the **Ride quilted jacket** – available in sizes S to 4XL – has the BMW logo on the upper arm and the BMW wordmark on the back. The jacket is available in red for women and blue for men, as well as in black and now also in silver for both women and men.

### Adventure long-sleeve T-shirt.

With its attractive BMW enduro graphic print, the sports-style **Adventure long-sleeve shirt** is a real eye-catcher. It has fashionable raglan sleeves and a generous cut, also ensuring full freedom of movement under a motorcycle jacket. As a functional polyester shirt, it effectively transports moisture to the outside. This keeps the skin dry for longer and prevents the body from cooling down due to evaporation.

The airy shirt is comfortable to wear under a motorcycle jacket – even on hot days. Available in sizes S to 4XL, the shirt cuts a fine figure when worn for sporting activities too, of course.

Media information

Date 5 November 2019

Topic BMW Motorrad Rider Equipment Ride & Style 2020.

Page 17

## Tour T-shirt.

The highly functional **Tour T-shirt** is perfect as a basic layer under motorcycle clothing, so it really is a must for every biker. Thanks to durable functional fibres and antimicrobial material, the polyester shirt is odour-retardant and temperature-regulating. Moisture is quickly transported away from the body, which further increases wear comfort.

Thanks to its modern design, the **Tour T-shirt** provides optimum support for climate membranes. The shirt is also antistatic, quick-drying and easy-care. These excellent properties mean it can be used for other sports and leisure activities too, of course. Available in light grey melange with large "Make Life A Ride" print on the chest the **Tour T-shirt** comes in sizes XS to 4XL.

## TourWinter functional socks.

The knee-length **TourWinter functional socks** keep the feet pleasantly warm even in the cold season. The odour-inhibiting material mix regulates the temperature, offering excellent heat retention thanks to the high wool content. Anatomically adapted padding on the ankle, heel and in the gear lever zone as well as knitted ventilation channels on the underside of the foot ensure excellent wear comfort. The additional padding zone at the shins that prevents pressure points from forming as well as ensuring the socks don't slip into the boot.

The asymmetrical design and elastic rib knit also make for an excellent fit. The integrated, knitted BMW wordmark rounds off the design. The black-blue **TourWinter functional socks** are of course perfect for use in conjunction with modern motorcycle boots fitted with a climate membrane and are available in sizes 35 to 38, 39 to 41, 42 to 44 and 45 to 48.

## TourSummer functional socks.

The knee-length, lightweight **TourSummer functional socks** are very comfortable to wear, especially in summer temperatures. This is ensured by the modern material mix with Dry-Tex, an antibacterial fabric made of technical polyester with open cells. Dry-Tex is extremely light and highly breathable. Anatomically adapted padding on the

Media information

Page 18

ankle, heel and in the gear lever zone as well as knitted ventilation channels on the underside of the foot ensure excellent wear comfort.

Finally, the asymmetric design and elastic rib knit make for an excellent fit. The **TourSummer functional socks** in light grey melange and red are of course suitable for use in modern motorcycle boots with climate membrane. The design is rounded off with the integrated, knitted BMW wordmark. The stockings are available in sizes 35 to 38, 39 to 41, 42 to 44 and 45 to 48.

## **TourWindbreaker storm hood.**

The **TourWindbreaker storm hood** keeps the wearer wonderfully warm and is therefore particularly suitable for winter or during the transition period. The high-quality polyester soft shell with windbreaker membrane in a 3-layer laminate provides excellent wind protection at the neck and in the upper chest area. The thin Powerstretch in the upper head area and the flat seams also guarantee a perfect fit, ensuring pleasant wear comfort even over lengthier distances. The breathable and climate-regulating material mix also comes into its own here.

A further comfort feature is the pleasant Softshell mouthguard. Punched-out holes in the mouth and ears as well as highly functional lasered seams in the face area further increase wear comfort. The **TourWindbreaker storm hood** features a red printed BMW Motorrad wordmark at the lower hem. The easy-care and washable storm hood comes in sizes S, M and L.

## **TourSummer storm hood.**

The lightweight **TourSummer storm hood** is particularly suitable for use in summer and in the warmer months of the year. The thin, elastic material mix with antimicrobial effect is largely made of recycled polyester. The seamless workmanship and ultra-fresh finish with breathable and climate-regulating properties ensure very pleasant wear comfort – even at very high temperatures. The hood is also easy to clean and wash. The lower hem of the **TourSummer storm hood** in grey melange has an integrated, knitted BMW Motorrad wordmark all round. Available in sizes M and L.

Page 19

## Adventure neck warmer.

The functional **Adventure neck warmer** ensures that the neck, nape and chest area are well protected from the wind and are kept warm even in colder temperatures. The tight fit ensures that the neck warmer prevents draughts, especially in the critical area between the jacket collar and helmet. A helmet can also be put on without the neck warmer slipping down. The high-quality choice of materials with windbreaker membrane also guarantees very pleasant wear comfort. The **Adventure neck warmer** is breathable, climate-regulating and extremely easy-care. It is easy to wash using a mild or functional detergent and is available in sizes S to L.

## Easy Tube Adventure.

The functional **Easy Tube Adventure** in classic black with knitted-in Enduro jaquard pattern is highly versatile. Whether scarf, face protector, cap, pirate headwrap, headband or collar – there are no limits to how it can be worn. Made of easy-care polyester and with a recess in the mouth, it offers a high level of wear comfort and is also ideal for spectacle wearers.

## Easy Tube Tour.

The functional **Easy Tube Tour** in classic black with integrated, knitted BMW Motorrad symbol is versatile. Whether scarf, face protector, cap, pirate headwrap, headband or collar – there are no limits to how it can be worn. Made of easy-care polyester and with a recess in the mouth, it offers a high level of wear comfort and is also ideal for spectacle wearers.

## 8. BMW Motorrad Heritage Collection 2020.

### BMW Motorrad Heritage Ride Collection 2020.

#### PureBoxer leather jacket, men.

This is where memories of the early years of motoring are awakened. The classic **PureBoxer leather jacket** has the kind of discreet design that was common in the early years of the last century. At the same time, it features an outstanding level of functionality that makes motorcycling not only comfortable but safe, too.

The exclusive 1.2 mm thick horse leather is characterised by a very smooth surface, low grain and fine sheen. When worn regularly, this leather takes on an attractive patina, lending it a vintage appearance that grows over time. Additional high-quality copper details, such as the metal zip fastener

with underlying windbreaker and the classic press stud fasteners, along with the three pockets with zip and stud fasteners on the outside and two more on the inside, and also the removable quilted thermal padding, ensure practical quality combined with a maximum level of wear comfort.

The new ultra-thin NP Flex protectors are almost invisible and virtually undetectable: they offer a contemporary level of protection (with certification according to EN 1621-1:2012) without impairing the classic style. An NPL back protector can be retrofitted.

One other special characteristic of the **PureBoxer leather jacket** is its unique, rich copper-coloured inside padding that perfectly matches the copper details and coverings on the main front zip and zip-up pockets. The thermal padding is removable, making this highly durable horse leather jacket the perfect companion on both cooler and warmer days. Reflecting great attention to detail, the BMW logo on the upper sleeve provides a stylish final flourish to the overall classic design. The three BMW logos, which also include the historic BMW logo, are exchangeable, enabling the wearer to customise the jacket as they prefer.

Using the 40-centimetre connecting zip, the leather jacket can easily be attached to a pair of motorcycle trousers.

The high-quality black leather jacket is available in regular fit in the sizes S to 3XL for men and in slim fit in the sizes XS to M for women.

Page 21

## **TwinStripes leather jacket.**

The **TwinStripes leather jacket** for men and women has a classic but sporty design that brings bygone years back to life. Its typical white trim lines on the sleeves set a visual contrast that is also to be found on many BMW motorcycles.

The black jacket is made of approx. 1.2 mm thick cowhide leather and offers a high level of wear comfort combined with a sporty appearance. Its equipment features include a continuous metal zip with a windbreaker underneath, a ventilator zip on the back, high-quality padding, four zip-up outside pockets with three more zip-up pockets on the inside; this is a casual motorcycle jacket that is also suitable for everyday wear.

With a total of seven pockets, the **TwinStripes leather jacket** has plenty of space for stowing all kinds of items. For enhanced safety, modern NP Flex protectors (certified in accordance with EN 1621-1:2012) have been integrated beneath the leather on the shoulders and elbows without resulting in any undue thickness, ensuring maximum wear comfort and good shock absorption. A retrofit NPL back protector is also available. Using the 40-centimetre connecting zip, the leather jacket can easily be attached to a pair of motorcycle trousers.

The striking look of the **TwinStripes leather jacket** is created by the unique and rich copper-coloured padding, which perfectly matches the copper details of the main front zip and the zip-up pockets.

This leather jacket is available for women in sizes XS to 2XL and for men in regular fit in sizes S to 3XL, in the slim fit option in sizes XS to M, and in comfort fit in sizes XL to 3XL.

## **RoadCrafted denim jacket.**

The **RoadCrafted denim jacket** is made of elastic and abrasion-resistant denim fabric with inconspicuously integrated protection features that offer a maximum degree of safety and functionality combined with a classic denim look. The use of elastic fibres in the upper fabric ensures a more precise fit. The jacket has four outside pockets and two inside pockets with zip and stud fasteners. Safety features include NP Flex protectors (certified according to EN 1621-1:2012) on the

Media information

Page 22

shoulders and elbows and an optional retrofit NPL back protector.

Beneath the front zip there is an additional zip underlay that acts as a windbreaker. The 40-centimetre connecting zip makes it possible to join the **RoadCrafted denim jacket** to the matching **RoadCrafted jeans**.

The denim jacket is available in black for women, in sizes XS to 2XL, and in blue for men, in sizes S to 3XL (regular fit option), XS to M (slim fit option) and XL to 3XL (comfort fit option).

## **Bowler Heritage helmet.**

The retro design of the **Bowler Heritage helmet** will appeal to the more fashion-conscious biker. The design is apparent not only from its chic, classic look that harks back to the historic BMW Motorrad design but also from interesting details such as the exclusive leather appliqués and high-quality padding with the BMW logo.

The helmet's closing edge and goggle strap holder are made of high-grade calfskin leather. The material used in the outer shell material is a composite made up of glass and carbon fibre reinforced plastic. The shock-absorbent inner shell is made of expanded polystyrene (EPS) and offers a perfect fit since it undergoes optimum adaptation for each individual size.

The **Bowler Heritage helmet** makes no compromises when it comes to comfort. The pleasant inside padding is made from an antibacterial and hypoallergenic material to ensure a highly pleasant wear sensation. This is further enhanced by the integrated head and cheek pads made of soft and smooth materials and the chin strap underlay. The **Bowler Heritage helmet** is fitted with the popular, continuously adjustable double-D fastener for secure closure. The excellent aeroacoustics are another comfort feature of this jet helmet, ensuring a low noise level during travel. The extensive range of accessories include transparent, tinted or mirrored visors and shields.

Whatever the shells size, every helmet radiates a slim, elegant look. The **Bowler Heritage helmet** is available in sizes XS (53/54) to 2XL (62) and has a low weight of between 785 g (XS) and 970 g (2XL).

Page 23

## RoadCrafted jeans.

The **RoadCrafted jeans** are made of elastic and abrasion-proof denim fabric, combining safety and functionality with a classic denim look and inconspicuous protection features. The integrated elastic fibres in the upper material ensure pleasant wear comfort. The removable NP Flex protectors on the knee and hips add to wearer safety (certified according to EN 1621-1:2012).

These comfortable trousers are available in black for women. The men's version is in blue. The 40-centimetre connection zip provides a simple way of joining the **RoadCrafted jeans** to the matching **RoadCrafted denim jacket**.

The women's sizes are W26/L32 to W36/L32 and W29/L34 to W36/L34.

The sizes available for men are W28/L30 to W36/L30, W28/L32 to W42/L32, W30/L34 to W42/L34 and W32/L36 to W40/L36.

## PureShifter boots.

Besides their classic look, these robust **PureShifter lace-up boots** for men and women also feature a number of impressive design details that enhance their overall appearance. These half-height black cowhide leather boots have a hand-welted sole construction.

They also offer plenty of safety features. In addition to NP Flex ankle protectors, these lace-up boots include sturdy toe and heel caps and are also fitted with gear shift protectors. The special inner padding plays an important role in balancing out temperature fluctuations. An integrated pull loop at the top of the boot shaft aids entry of the foot into the boot. The profiled Vibram outsole ensures a perfect grip on the footrests. The boots are oil and petrol resistant and also provide plenty of comfort and grip when walking.

The classic finish of the **PureShifter lace-up boots** means that they not only look good on a bike but are also great in combination with jeans and a leather jacket.

Lace-up boots for women are available in the sizes 36 to 40 and for men in the sizes 41 to 48.

## PureBoxer gloves, men.

The **PureBoxer gloves** not only excel with their classic and simple design, they also display excellent wear features with their high-quality and pleasantly soft-to-the-touch deerskin. The material is also extremely hard-wearing.

The press stud fasteners in the wrists are width-adjustable to provide the necessary level of safety. This prevents unintentional slipping. The gloves can be conveniently fastened to the belt when not in use, with the aid of the integrated snap hook. It is still possible to operate the touchscreen with the forefinger even when wearing the **PureBoxer gloves**.

The gloves come in black and are available in sizes S to 3XL.

## BoxerTorque gloves.

A sportier variation of the classic motorcycle glove design, the **BoxerTorque gloves** are made of high-quality cowhide leather. Maximum wear comfort is ensured by the adjustable wrist width feature and knuckle pads. The touchscreen can still be operated with the forefinger when wearing the **BoxerTorque gloves**.

**BoxerTorque gloves** are available in black in sizes XS to 2XL for women and S to 3XL for men.

## PureBoxer kidney belt.

The **PureBoxer kidney belt** is made of black leather with a classic design that will appeal to style-conscious riders. Its ergonomic form ensures a high degree of wear comfort and support. With all due regard to style, the width is adjusted by way of two metal buckles. Available in five different lengths to ensure a perfect fit. The small front bag with press-stud fastening offers space for small items, coins, etc.

The **PureBoxer kidney belt** is available in black in the sizes S to 2XL (80, 90, 100, 110, 120 cm).

## BMW Motorrad Heritage Style Collection 2020.

### FlatTwin leather jacket.

The asymmetrical front zip and distinctive lapels of the **FlatTwin leather jacket** are reminiscent of the characteristic motorcycle jackets of the 1950s. This black leather jacket is made of 1.2 mm thick cowhide leather.

It has three outer pockets with striking metal zips. The classic styling also includes metal press studs on the collar. The version for men also has a small pocket on the lower arm. The women's jacket is waisted and has a cut that emphasises the figure.

The **FlatTwin leather jacket** for men is available in sizes S to 5XL and in the special waisted women's cut in sizes XS to 2XL.

### Engineer leather jacket.

The line design of the **Engineer leather jacket** makes a clear statement, making it a must-have for anyone wishing to look good both on and off the motorcycle. The black jacket is made of 1.2 mm thick cowhide leather and resembles the original classic bomber jackets of the 1940s.

The waisted version for women enables lady bikers to maintain an appropriate style. With two side pockets for warming the hands and two inside pockets with zip and stud fasteners, the women's jacket is slimmer and offers a more precise fit. The men's version has two large front pockets, offering more storage space. The collar is fixed with press studs, which rounds off the overall appearance of the jacket.

The **Engineer leather jacket** is available for women in sizes XS to 2XL and for men in sizes XS to 3XL.

## Club college jacket.

The grey **Club college jacket** is made of waxed cotton-blend fabric with quilted inside padding and contrasting black knitted cuffs with trim lines, ensuring maximum wear comfort. The bomber jacket has two inside pockets with stud fasteners for stowing small objects such as a wallet or smartphone.

The **Club college jacket** is available for women in sizes 2XS to 2XL and for men in sizes XS to 3XL.

## Boxer Troyer, men.

The warm and comfortable **Boxer Troyer** knitted sweater is made of a high-quality blend of worsted wool and acrylic, in a casual sailor's style. It is reminiscent of a time when two-wheelers were mostly black and their riders wore leather jackets.

For motorcycle riders, a black knitted sweater is a fundamental garment. The practical and high-closing zipped collar in troyer style and the close-fitting cuffs provide protection from the cold and the wind.

The classic decorative trim on the upper arm and the BMW logo on the chest convey the Heritage look. The pullover is extremely soft and if looked after properly, it will remain in perfect condition and retain its timeless unique quality for years to come. The **Boxer Troyer** is available for men in sizes XS to 3XL.

## Mechaniker zip hoodie.

A perfect basic item for people who like tinkering around with their motorcycle. An ideal companion, the **Mechaniker zip hoodie** keeps you nice and warm on cool days and has plenty of space in its front pockets to warm your hands. This universal hoodie for men and women is made of cotton jersey fabric that is brushed on the inside. It has a printed impression of a Boxer engine on the chest and the wording 'Mechaniker' or 'Mechanikerin' on the back. The cosy, grey-coloured **Mechaniker zip hoodie** is available in sizes 2XS to 2XL for women and XS to 3XL for men.

## Worker long-sleeve shirt, men.

The **Worker long-sleeve shirt** for men in 'Iconic Black' is a comfortable companion in a classic cut with a style that offers a perfect match for a black motorcycle and much else besides. The high-quality upper garment made from heavy cotton has two breast pockets and is an ideal accompaniment to any look. Available for men in sizes XS to 3XL.

## Denim shirt.

The **Denim shirt** for men and women is made of pure cotton with a light stripe design reminiscent of the traditional work clothes of 19th century America. The **Denim shirt** is available in blue in sizes XS to 2XL for women and sizes XS to 3XL for men.

## Berlin Built shirt, men.

A perfect combination: The **Berlin Built shirt** makes a clear statement as to where BMW motorcycles roll off the assembly line. The white and blue colours are a reference the creative powerhouse in Munich, Bavaria. The twin-colour raglan shirt with long sleeves and round collar is made of pure cotton. The chest is decorated with striking lettering and adorned with a BMW logo in the middle. The **Berlin Built shirt** is available in sizes XS to 3XL.

## Berlin Built T-shirt.

You can have any colour so long as it's black: the **Berlin Built T-shirt** bears the appropriate lettering on the chest, a BMW logo in the middle and traditional white trim lines on the sleeves.

The attractive and versatile T-shirt is also available in a slightly waisted cut with a V neck for women. The **Berlin Built T-shirt** is black and made of cotton; it is available for women in sizes XS to 2XL and for men in sizes XS to 3XL.

## Bergkönig/Bergkönigin T-shirt.

The winner of a classic mountain race is dubbed the 'Mountain King' – 'Bergkönig' in German. The **Bergkönig/Bergkönigin T-shirt** follows in this tradition and bears the 'Bayerische Motoren Werke' lettering along with a large motif showing a BMW racing car on its way to the summit.

The grey cotton T-shirt for men has a round neck and is available in sizes XS to 3XL. The waisted T-shirt with a round neck for women is available in sizes 2XS to 2XL.

## Mechaniker T-shirt.

The **Mechaniker/Mechanikerin T-shirt** is an absolute essential for all BMW Motorrad fans who like to work on their motorcycles themselves. The T-shirt is made of pure cotton and is very pleasant to wear. It has a printed motif on the front with the wording 'Mechaniker' or 'Mechanikerin' on the back.

The black pure cotton T-shirt for men with a classic round neck is available in sizes XS to 3XL. The slightly waisted T-shirt with V-neck for women is available in black in sizes 2XS to 2XL.

## Boxer T-shirt, men.

A clear statement: the **Boxer T-shirt** in black and white allows fans to declare their allegiance to the classic BMW two-cylinder concept. Just one look at the large boxer motif makes it perfectly clear: this is how things have to be – nothing else will do. The **Boxer T-shirt** is made of cotton with a typical round neck and is available in sizes XS to 3XL.

## Boxer Striped T-shirt, women.

The classic **Boxer Striped T-shirt** is a real eye-catcher with its characteristic pattern. The slightly waisted cut, the plain colour sleeves with the number '23' – a reference to the year in which BMW Motorrad was founded – and the edged neckline accentuate its design. Made of pure wool, the T-shirt is the ideal leisure garment for female BMW boxer fans. It is available in black and white in sizes 2XS to 2XL.

## Boxer long-sleeve shirt.

The unique look of the **Boxer long-sleeve shirt** is reminiscent of the early years of motor racing. Its asymmetrical design, classic logo on the chest and the large '23' on the back – referring to the year in which BMW Motorrad was founded – are a real eye-catcher. This classically styled long-sleeve cotton sweatshirt is also great to wear on cool days.

The sweatshirt is available in black and white for women in sizes 2XS to 2XL and for men in sizes XS to 3XL.

## Mechanikerin tank top, women.

The grey **Mechanikerin tank top** for female BMW Motorrad fans is made of a cotton-elastane mixture that combines a high level of ventilation with a perfect fit. The slightly waisted, slim cut and striking 'Mechanikerin' motif on the front add an extra touch.

The **Mechanikerin tank top** is available in sizes 2XS to 2XL.

## Boxer belt.

The **Boxer belt** is made of extra-thick leather with a double pin buckle to ensure it is as robust and hard-wearing as the engine of the same name.

The leather belt is a timeless accessory which goes perfectly with jeans. It is made of attractive leather and has a simple but elegant metal buckle.

The **Boxer belt** is available in black in the sizes S to 2XL.

## Mechaniker cap.

The prominent wording of the **Mechaniker cap** emphasises the wearer's love of tinkering. The casual cap with curved visor in black is embroidered with the wording 'Mechaniker' and comes in a single size.

## Boxer cap.

The Boxer cap is a unique expression of the wearer's fascination for the legendary engine design.

The cap features an 'old school' design and its width is adjusted by means of a clip fastener. The black, air-cooled **Boxer cap** with Boxer motif comes in a single size.

## Luftgekühlt beanie.

The **Luftgekühlt beanie** protects the wearer's head from the cold, and its design quotes the BMW motorcycle fuel tank lines.

The new woollen beanie from the Heritage Style Collection is warm and light. The **Luftgekühlt beanie** has classic white trim lines on a black background and comes in a single size.

## Mechaniker bandana.

The **Mechaniker bandana** is made of pure cotton and is a highly versatile item, depicting a racing motorcyclist beneath classic lettering. The bandana is a cool item for tradition-conscious riders – both men and women. Bearing the wording 'Bayerische Motoren Werke' in white on red, it is available in a square shape with a standard size of 53 x 53 cm.

## Berlin Built bandana.

The indigo-coloured **Berlin Built bandana** is made of pure cotton and shows a custom bike in front of the classic BMW logo. This versatile lifestyle product is a real nostalgia trip for traditional riders. It is available in a square shape with a standard size of 53 x 53 cm.

## Boxer bandana.

The **Boxer bandana** is made of pure cotton and is highly versatile in use. It underlines the wearer's fascination for the legendary engine concept. The bandana bears a white boxer motif against a black background and comes as a square in the standard size of 53 x 53 cm.

## 9. BMW Motorrad Style Collection 2020.

### BMW Motorrad Style Motorsport.

In the classic **BMW motorsport colours of white, red and blue**, the Motorsport collection instantly displays where its wearer's passions lie. The BMW logo and lettering such as "BMW Motorrad Motorsport", "High Performance Parts", "ADVANTEC" and "3ASY RIDE" also make a clear statement.

The **BMW Motorrad Style Motorsport Collection 2020** has a full range of varied jackets to suit every taste, long-sleeved and short-sleeved shirts and diverse stylish T-shirt variants for men and women. A cap and beanie provide the matching headgear, while rucksack and helmet bags ensure practical transport facilities – adding that special touch of style. Also included is a lanyard that keeps the small but important things in place.

The collection's design items convey that genuine motorcycle feeling away from the motorcycle, too. What is more, the wide range of options allows a selection to suit one's own individual style.

#### 2-in-1 Motorsport jacket, unisex.

Ready for change: with the wind-resistant and water-repellent **2-in-1 Motorsport jacket**, the constantly changing conditions at the beginning and end of the motorcycle season become more pleasant. The sporty stand-up collar contains a hood, and there are two stud fasteners on the collar to keep it closed for wrapping up warm, also preventing the zip from flapping in the wind. Two zip pockets on the flanks and an inside pocket safely hold numerous articles required by motorcyclists in their day-to-day lives.

Thanks to the velcro straps on the wrist and the drawcord on the hem of the jacket, it can easily adapt to the respective body shape. The inner jacket can also be removed and worn separately. The numerous insignia from the diverse and fast-paced world of BMW Motorsport also leave little doubt as to the wearer's racing enthusiasm. The **2-in-1 Motorsport jacket** made of polyester in black with appliqués in the BMW Motorsport colours of white, red and blue also bears a BMW logo and the lettering: "BMW Motorrad Motorsport", "High Performance Parts", "ADVANTEC" and "3ASY RIDE".

The **2-in-1 Motorsport jacket** is available in the unisex sizes XS to 3XL, while the XS and S sizes have a slightly waisted cut.

## Motorsport softshell jacket, unisex.

With the functional **Motorsport softshell jacket** you are excellently equipped to ride on the racetracks of this world. Made of a breathable, three-layer soft shell material, the jacket is not only windproof and water-repellent, it also keeps you pleasantly warm thanks to the roughened inside. Details such as the high stand-up collar, the detachable hood with drawcord, the stretch cuffs with velcro at the wrists, the side zipped pockets and the inside pocket make the jacket a versatile and practical companion.

In addition, there is the attractive motorsports branding with the BMW logo and the lettering “BMW Motorrad Motorsport”, “High Performance Parts”, “ADVANTEC” and “3ASY RIDE”. A real must-have in black with details in the typical BMW Motorsport colour scheme of white, red and blue. The **Motorsport soft shell jacket** is available in the unisex sizes XS to 3XL, whereby the sizes XS and S have a slightly waisted cut.

## Motorsport hooded jacket, unisex.

Casual and extremely comfortable: the **Motorsport hooded jacket** in black with appliqués in white, red and blue is particularly impressive due to its roughened lining offering pleasantly warm wear comfort. The design – inspired by BMW Motorsport – underlines the racing affinity of its wearer by means of a BMW logo and BMW M logo along with prints such as “BMW Motorrad Motorsport”, “High Performance Parts”, “ADVANTEC” and “3ASY RIDE”. The continuous front zip bears a BMW Motorrad inscription and is flanked by two kangaroo pockets in the lower section. The **Motorsport hooded jacket** made of polyester and cotton is available in unisex sizes from XS to 3XL.

## Motorsport rucksack.

The **Motorsport rucksack** offers a wide range of storage options and with a volume of 20 litres, it is exactly the right size for a day trip, a visit to racing events or a stroll through the city. The sporty leisure rucksack offers two separate main compartments with a zip opening. The rear compartment is carefully padded and offers space for a laptop of up to 17 inches. The front pocket also closes with a zip and has various pockets.

A practical zip-up pocket is integrated at the top, holding small items such as a wallet or key ring. At the sides there are also two lateral pockets made of mesh material in which drinking bottles can easily be transported. The carry handle, padded back, padded shoulder straps and hip belt round off the rucksack's features, guaranteeing maximum carry comfort even on long days. The sporty design with the BMW M logo, the "RACE" and "BMW Motorrad" lettering as well as the hallmark BMW Motorsport colours of white, red and blue make this a perfect piece of team outfit.

## Motorsport helmet bag.

Everything in its place: the **Motorsport helmet bag** made of polyester in black with appliqués in the BMW Motorsport colours of white, red and blue is ideal for transporting and storing a helmet. The dimensionally stable base protects the helmet even when it is stowed away, while air holes ensure perfect air circulation. The soft fleece lining protects the helmet from scratches. There are three additional pockets that offer space for spare visors. With two handles on the outside and a removable shoulder strap, the bag has a volume of approx. 23 litres and is convenient to carry.

## BMW Motorrad Iconic Collection

The varied selection of T-shirts and key rings from the Iconic collection make it easy for the wearer to show their biking enthusiasm – even when not on the road. There are a variety of motifs and designs, so everyone will find their very own look here. With the new Kids Bike this year, there is also something very special for the very youngest motorcycle fans.

### R 1250 RS T-shirt.

The **R 1250 RS T-shirt** is printed on the front as well as on the back. The large back motif is echoed as a miniature on the chest. The black single-jersey shirt with round neckline is made of 100% cotton and available in sizes XS to 4XL.

### Roadster R 1250 R T-shirt.

With small lettering on the chest and large motorcycle motif print including “BMW Motorrad” lettering on the back, the **Roadster T-shirt** is both simple and expressive at the same time. The white single-jersey shirt with round neckline is made of 100% cotton and available in sizes XS to 4XL.

### R 1250 GS T-shirt.

This T-shirt stands for pure adventure. The large motif print with the lettering “RALLYE GS” and a dynamic motorcycle print makes for a particularly casual look. The grey single-jersey shirt with round neckline is made of 100% cotton. It is available in sizes XS to 4XL.

### S 1000 RR T-shirt.

The front print with “Motorrad” lettering and various technical bike elements is perfect for all those who love tinkering with motorcycles. The yellow single-jersey shirt with round neckline is made of 100% cotton and available in sizes XS to 4XL.

### S 1000 RR key holder.

The key holder in black, grey and white bears the lettering “S 1000 RR”. It is made of rubber. Dimensions: 10 x 2.5 cm

## BMW Motorrad Next 100 Years Kids Bike.

The **Next 100 Years Kids Bike** is fully in keeping with the tradition of the VISION NEXT 100 YEARS concept bike introduced by BMW Motorrad in 2016. As a symbol of the ultimate riding experience, the VISION NEXT 100 YEARS promises absolute freedom on two wheels – and this is exactly what younger BMW Motorrad fans can experience at first hand on this high-quality Kids Bike made of birch wood.

With its bags shaped like the boxer engine, it quotes the tradition-steeped history of BMW Motorrad entirely in the style of its great role model. Thanks to its four-level adjustable saddle height, the **Kids Bike** is suitable for children from age 3, up to a carrying weight of 30 kg. The 12-inch wheels have puncture-proof rubber tyres.

### The BMW Group

With its four brands BMW, MINI, Rolls-Royce and BMW Motorrad, the BMW Group is the world's leading premium manufacturer of automobiles and motorcycles and also provides premium financial and mobility services. The BMW Group production network comprises 31 production and assembly facilities in 15 countries; the company has a global sales network in more than 140 countries.

In 2018, the BMW Group sold over 2,490,000 passenger vehicles and more than 165,000 motorcycles worldwide. The profit before tax in the financial year 2018 was € 9,815 billion on revenues amounting to € 97,480 billion. As of 31 December 2018, the BMW Group had a workforce of 134,682 employees.

The success of the BMW Group has always been based on long-term thinking and responsible action. The company has therefore established ecological and social sustainability throughout the value chain, comprehensive product responsibility and a clear commitment to conserving resources as an integral part of its strategy.
