Style 725 Sport, 17-inch

Style 724 Luxury, 17-inch

Style 719 M Bicolour Jet Black, 18-inch

Style 719 M Jet Black, 18-inch

Four new wheel rim variants (options).

## THE NEW BMW 2 SERIES.

- The new edition of the sportiest coupe and convertible in the premium compact segment will be launched onto the market in July 2017. More than 140,000 units of the BMW 2 Series Coupe and BMW 2 Series Convertible have been sold since 2014. The largest markets are the USA, Great Britain and Germany.
- New front-end looks with broader air intakes and more prominent kidney grille accentuates the cars' sporty yet elegant appearance, as does the design of the lights (including standard bi-LED main headlights and LED rear lights). The main headlights can also be specified in adaptive full-LED form as an option, their eye-catching light graphic strengthening the dynamic and technical impression created by the front end. The familiar twin-circular-headlight look has a hexagonal interpretation, giving it an even more precise and modern appearance.
- Three new exterior colours – Sunset Orange, Seaside Blue and Mediterranean Blue – strengthen the presence of the BMW 2 Series Coupe and BMW 2 Series Convertible. Four new light-alloy wheel designs (17-inch and 18-inch) increase the scope for individualisation.
- Completely newly designed instrument panel with enhanced driver focus provides a more generous feeling of space. Exclusive materials and new seat covers in cloth and leather lend further class to the interior.

- Innovative operating concept with latest-generation iDrive system. Optional Navigation system Professional with 8.8-inch touchscreen, voice control and iDrive with touch-sensitive interface.
- BMW ConnectedDrive Services ensure an extremely high level of connectivity. Real Time Traffic Information (RTTI) with hazard preview is available, as are On-Street Parking Information, vehicle access via Remote Services and the integrated Microsoft Exchange function for sharing and editing emails, calendar entries and contact details. Apple CarPlay facilitates Smartphone integration, and the BMW 2 Series Coupe and BMW 2 Series Convertible also offer inductive charging for compatible mobile phones and a WiFi hotspot for up to ten devices.
- Wide range of powerful and efficient engines includes three-, four- and six-cylinder petrol units and cutting-edge four-cylinder diesel variants. Output of the BMW 2 Series Coupe and BMW 2 Series Convertible ranges from 100 kW/136 hp in the BMW 218i up to 250 kW/340 hp in the BMW M240i (fuel consumption combined: 8.3 – 3.8 l/100 km [34.0 – 74.3 mpg imp]; CO<sub>2</sub> emissions combined: 189 – 101 g/km)\*.
- Rear-wheel drive (not offered by any rival) delivers standout driving dynamics in the segment. BMW xDrive intelligent all-wheel-drive is available as an option.
