BMW Sauber F1 Team Collection 2007.

Munich. The challenge continues. The BMW Sauber F1 Team is starting its second season with a full dose of energy and passion. The new BMW Sauber F1 Team Collection is also lining up for the new season, with fashion for male and female F1 racing fans, high-quality leisure clothing and a wide range of accessories in the team's typical white, blue and red colours.

The men's and women's sports **jackets** show how the new BMW Sauber F1 Team Collection is leading the fashion field. The **Highlight Jacket**, a lavish limited edition leather jacket, of which only 350 will be available, is particularly appealing. This tailored jacket is characterised by a dynamically shaped zip and subtle shoulder panels. The white women's version and the dark blue and white men's variants both display this design.

All fashion conscious Grand Prix fans will love the tailored white **Pit Crew Jacket** and its wealth of sporty details. Just like the original used in the pit lane, the fashion jacket is waterproof and is embroidered with the team logo, the sponsors' logos and the words 'The essence of racing'.

The fashionable **Long Jacket** is ideal for bad weather. The dark blue version for men and the white variant for women are both windproof and waterproof and have waterproof zips and heat-sealed seams.

The next piece is even designed to withstand the wind tunnel. The sporty, dark blue **Wind Jacket** offers 100% protection from the wind and rain – the very best protection from rain clouds and stiff breezes for outdoor types.

Sporty men's fashion

The **BMW Sauber F1 Team Collection** is entering high-quality, sporty, versatile **men's** fashion into the race. For example, there's the sporty, dark blue **Men's Graphic T-Shirt** with white sleeves and collar, printed with the team logo and a large graphic of the BMW Sauber F1 Team's car. The line-up on the start line also features the **Men's Sweater**, a white knitted pullover with sporty details, dark blue panels on the collar and sleeves and with the team logo stitched across the chest. The slim cut of the sporty white **Men's Polo Shirt** with V-neck and handy breast pocket means it's cut out for the race track.

Pole position for ladies' fashion

The **Ladies' Fashion** range from the new BMW Sauber F1 Team Collection is a guaranteed pole position thanks to its stylish performance in qualifying. Cut with style for the racing line: the flattering dark blue **Ladies' Top** with white panel and integrated bustier. The adjustable dark blue and red straps ensure the perfect fit while the tailoring and team logo make for an attractive look.

Other favourites include the fashionable, dark blue **Ladies' Long Sleeve** with white collar and cuffs and the sporty white **Ladies' Polo Shirt** with a two-layered collar (red and dark blue) and low V-neck, printed with the team logo and large graphics.

No true fan will want to miss the original white **BMW Sauber F1 Team Cap** with blue stripes or the dark blue cap with white stripes. The team logo is stitched onto the front of both versions.

Versatile bags

The versatile **bags** from the current BMW Sauber F1 Team Collection offer perfect handling in every situation. The **Replica Travel Bag** with a large main compartment, front pocket, two side pockets, a convenient telescopic handle and wheels is just right for short trips and flights.

The **Replica Shoulder Bag** has a large main compartment, separate laptop compartment and plenty of small inner compartments for important items like mobiles or organisers. The outside pocket can also be opened from below, allowing the telescopic handle of the Replica travel bag to be fitted to the shoulder bag. The collection of bags also features a spacious **Replica Rucksack** and **Replica Sports Bag** with practical carrier and shoulder straps.

High quality products for tiny tots

Even the youngest racing drivers can discover the world of F1 with the fantastic **Kids' products** on offer from the BMW Sauber F1 Team Collection. The **Formula Junior Baby Racer** can easily handle all those bends outdoors and indoors without leaving any skid marks on parquet flooring. The Baby Racer featuring all the sponsors' logos has been tested by TÜV.

Young drivers are tucked away just like the real ones in the monocoque of a Formula 1 heavyweight. The **Junior Seat I-II** offers outstanding protection to children weighing 9 – 25 kg (aged between approx. nine months and seven years). The children's seat in the unmistakeable BMW Sauber F1 Team design is authorised to be fitted in all makes of car. A backrest offering height and angle adjustment, a special air conditioning system and the breathable and washable cover ensure the level of comfort needed. Junior Seat I-II can be easily fitted using ISOFIX and the 'BMW Interlock System' or a 3-point safety belt. Guaranteed easy handling with central release system.

Older children weighing 15-36 kg (aged approx. 3 - 12 years) are best seated in the **Junior Seat II-III**. Junior Seat I-III is also approved for all types of vehicles. The child's seat is very easy to operate thanks to the combined height and side adjustment feature. It can be attached using a 3-point belt. Fashion in the fast lane.

The BMW Sauber F1 Team Driver's Collection 2007.

Munich. With old pro Nick Heidfeld and up-and-coming star Robert Kubica – both first-class Formula 1 drivers – the 2007 season is off to an excellent start for the BMW Sauber F1 Team. As well as nail-biting races, the two drivers' ever-growing fan community can also look forward to the new BMW Sauber F1 Team Collection featuring outfits with a truly sporty design.

The Nick Heidfeld Collection

The dark-blue **Men's T-Shirt Nick** and the white **Ladies' T-Shirt Nick** look as slick as one of "Quick"-Nick Heidfeld's overtaking manoeuvres. The typical "Q" logo, derived from Heidfeld's nickname "Quick Nick", and his signature on the front make these sporty shirts truly distinctive. The stitched shoulders and coloured inserts, start numbers and the team logo give the shirts that extra-special look.

The sophisticated shoulder design also gives the **Men's Windbreaker Nick** an authentic racing look. The dark-blue windbreaker is printed with the "Q" logo, the "Nick Heidfeld" insignia, the team logo and the driver's signature. Handy for on the move, the jacket is made of ultra-light material and can be folded up into a small pouch.

The Robert Kubica Collection

Very popular among the men is the **Men's Poloshirt Robert** with its dark-blue sleeves and collar. The sporty design of this versatile shirt is accentuated by the white inserts with red piping on the sleeves, the embroidered team logo, start number and the printed-on name. The shirt also features the new Robert Kubica logo which is being used for the first time this season next to his signature.

The fitted **Ladies Top Robert** is a surefire winner among female fans. Red, dynamic inserts on the straps and dark-blue edging on the neckline and sleeves give the white top a fantastic racing look.

BMW Sauber F1 Team

The popular **Driver Caps** allow BMW Sauber F1 Team fans to show which of the three racing drivers they particularly support: Nick Heidfeld, Robert Kubica or rising star and test driver Sebastian Vettel. The blue caps with red and white embroidered stripes bear the driver's signature on the front, while the driver's personal logo is superimposed on the back.

On the **Ladies' Track Jacket**, the dark-blue cuffs, red eyelets under the sleeves and fashionable gathered fabric at the front and along the back highlight the white jacket's lifestyle character.

Men's fashion

The narrow-cut, dark-blue **Men's Fashion Shirt**, with its asymmetric red-white stripe on the front, shoulders and back, holds pole position in the fashion stakes. With its feminine grace and style, the **ladies' fashion** from the PUMA for BMW Sauber F1 Team Collection 2007 take first place on the winner's podium.

Sophisticated details such as contrast seams on the sleeves, as well as red cords for gathering the collar and hem make the dark-blue **Ladies' Logo**
