

Press release
01 August 2011

Further BMW Motorrad special models and BMW F 800 ST touring package extension. BMW F 800 GS Triple Black and special model BMW F 650 GS.

Special model BMW F 800 GS Triple Black.

The two large flat twin models R 1200 GS and R 1200 GS Adventure are now followed by the third special model from the popular Triple Black series:

The BMW F 800 GS Triple Black is a particularly distinctive manifestation of the dynamic two cylinder enduro. Its three different black hues give it that deliberately masculine touch.

The power inherent in the F 800 GS Triple Black is underscored by a deep black paint finish and decor elements of black matt and Granite grey metallic matt. A fascinating contrast is provided by the robust tubular space frame of Granite grey metallic matt and the double-strut swing arm coated in Nürburg silver metallic. In conjunction with the sliding tubes of the upside down fork coated in black and the standard spoked wheels in the classical enduro size 90/90-21 for the front and the size 150/70-17 for the rear, the F 800 GS Triple Black promises on- and offroad performance in equal measure.

The sporty seat in black and Rallye grey blends smoothly into the uncompromising look of this dynamic two cylinder enduro.

The price in Germany is €10,300.00 incl VAT, and the launch is scheduled for 1 September 2011.

The highlights of the BMW F 800 GS Triple Black.

- Body features finished in deep black.

Special model BMW F 650 GS.

The special model F 650 GS presents a particularly youthful and dynamic impression as the ideal machine for new riders and switchers and as an allround motorcycle for every day. Although it has lent its technology from its big sister F 800 GS, its cast wheels and smaller ground clearance make it clear from the outset that it prefers onroad use.

A high level of riding fun is immediately apparent from its striking paint finish of Sun yellow and Black satin gloss with an exclusive decor.

This special model is given that special touch by its wheels and main frame of Granite grey metallic matt in conjunction with the double-strut swing arm coated in Nürburg silver metallic and the sliding tubes of the fork coated in black.

Packing 52 kW (71 hp), the F 650 GS special model is equipped with the front wheel cover and high windscreen as used on the BMW F 800 GS.

The price in Germany is €8,300.00 incl VAT, and the launch is scheduled for 1 September 2011.

The highlights of the special model BMW F 650 GS.

- Body features finished in Sun yellow/Black satin gloss.
- Main frame coated in Granite grey metallic matt.
- Special decor.
- Double-strut swing arm coated in Nürburg silver metallic.
- Sliding tubes of the fork coated in black.
- Front wheel cover like BMW F 800 GS.
- High windscreen like BMW F 800 GS.

BMW F 800 ST touring package extension.

The touring package for the BMW F 800 ST (pannier mountings, sport panniers with single key locking system, heated grips and onboard computer) has now been expanded with the option ABS.
