## **BMW Group New Zealand bolsters X range with three dynamic new models**

- Two all-new BMW X5 models: X5 xDrive45e and X5 xDrive30d Edition
- xDrive45e marks first hybrid variant available for the new generation BMW X5 range
- Potent M50i variant added to the BMW X7 line-up
- Q4 arrivals for all models

BMW Group New Zealand will expand its renowned X model line-up with three new models set to arrive in the country by the fourth quarter of 2019.

The celebrated BMW X5 range will be bolstered by the all-new xDrive45e model, the first hybrid variant available for the new generation BMW X5 line-up, and the sharply positioned X5 xDrive30d Edition.

The X5 xDrive 45e now boasts a six-cylinder petrol engine, which replaces the four-cylinder power unit of the previous generation X5 xDrive40e.

It combines this with a powerful electric motor that provides an impressive combined total output of 290kW, helping the xDrive45e accelerate from 0-100km/h in 5.6 seconds.

The hybrid battery also benefits from vast improvements, aiding in considerable gains to performance, fuel efficiency and driving range.

The new BMW X5 xDrive30d Edition will provide an enticing entry point to the X5 range while still offering a six-cylinder engine and the highest level of specification relative to its price position in the luxury SAV segment.

The BMW X range family's luxury flagship, the X7, will now feature a mighty Twin Turbo V8 via the new M50i model. This propels the X7 M50i from 0-100km/h in just 4.7 seconds.

The supreme performance of this powertrain, combined with the X7's commanding presence, make this new model a highly compelling proposition.

The X7 M50i mirrors the specification of the X7 M50d and is priced at \$199,900.

### **New model line-up with pricing and specifications**

#### **The BMW X5 xDrive45e is priced from \$155,500\*.**

The following table shows the improvements over the previous model:

| <b>Element</b>      | <b>BMW X5 xDrive45e (G05)</b> | <b>BMW X5 xDrive40e (F15)</b> |
|---------------------|-------------------------------|-------------------------------|
| Petrol Engine Size  | 3.0l 6 cylinder               | 2.0l 4 cylinder               |
| Total System Output | 290kW/600Nm                   | 230kW/450Nm                   |
| Electric Motor      | 83kW                          | 83kW                          |
| eRange              | 60-65km                       | 31km                          |
| Battery Capacity    | 24kWh                         | 9kWh                          |
| 0-100 km/h          | 5.6 seconds                   | 6.8 seconds                   |

- Aluminium 'Mesheffect' dark trim
- Sensatec Upholstery
- Live Cockpit Professional incl. natural voice control, iDrive controller, touch operation on the Control Display and smartphone connectivity
- Parking Assistant
- Seat Heating
- Aluminium satinated window surrounds and roof rails
- Wireless Smartphone Charging

## **Condition Based Servicing**

All maintenance requirements for the BMW X5 and BMW X7 are controlled by the Condition Based Servicing (CBS) system.

With CBS, sensors and advanced algorithms monitor and calculate the conditions in which a vehicle is used, including mileage, time elapsed since its last service, fuel consumption and how a vehicle is driven. Based on the information captured, maintenance requirements are determined, identifying whether an annual vehicle inspection or oil service is due.

Selected BMW service and maintenance costs can be covered by a single, one-off advance payment with BMW Service Inclusive (BSI), which is available in two packages: Basic or Plus.

As with all New Zealand-new BMW vehicles, a five-year warranty, three-year service inclusive programme and five year roadside assist coverage is fully included.

## **The BMW Group**

With its four brands BMW, MINI, Rolls-Royce and BMW Motorrad, the BMW Group is the world's leading premium manufacturer of automobiles and motorcycles and also provides premium financial and mobility services. The BMW Group production network comprises 30 production and assembly facilities in 14 countries; the company has a global sales network in more than 140 countries.

In 2018, the BMW Group sold over 2,490,000 passenger vehicles and more than 165,000 motorcycles worldwide. The profit before tax in the financial year 2018 was € 9.815 billion on revenues amounting to € 97.480 billion. As of 31 December 2018, the BMW Group had a workforce of 134,682 employees.

The success of the BMW Group has always been based on long-term thinking and responsible action. The company has therefore established ecological and social sustainability throughout the value chain, comprehensive product responsibility and a clear commitment to conserving resources as an integral part of its strategy.
