BMW BENEFITS.

BMW EfficientDynamics.

There are many reasons why BMWs are so appealing and exciting to drive. At the heart of this appeal is a range of cutting-edge technologies called BMW EfficientDynamics. Together, these innovative technologies deliver a significant reduction in fuel consumption and emissions, as well as a more rewarding driving experience. Our work in this area has been acknowledged by numerous awards including the "WHAT CAR? Green Award" 2008 and the prestigious Paul Pietsch Prize for outstanding innovative developments in the automotive sector. What drives our research into new BMW EfficientDynamics technologies is the desire to achieve even more driving pleasure with continued reduction in fuel consumption and emissions.

Included in the selling price of all new BMWs is a standard 5 year or 100 000 km Motorplan maintenance contract. As with any maintenance agreement, there are certain exceptions which are clearly specified in the Motorplan agreement. Repairs resulting from negligence or an accident are not covered. For all BMW models the contract can be extended up to 7 years or 200 000 km, dependant on your individual needs.
