SA2TB	8-speed Sport Automatic transmission Steptronic with adaptive transmission control and gearshift paddles on the steering wheel (not in combination with SA2XL)	■	■	■	■
	8-speed Automatic transmission Steptronic with adaptive transmission control without gearshift paddles on the steering wheel (only in combination with SA2XL)	□	□	□	□
	Automatic Start/Stop function	■	■	■	■
	BMW TwinPower Turbo 8-cylinder petrol engine, with two turbo chargers, combined with Valvetronic, Double VANOS and High Precision Injection	–	–	■	■
	BMW TwinPower Turbo inline 6-cylinder diesel engine, with common rail direct injection and turbocharger with variable turbine geometry	■	–	–	–
	BMW TwinPower Turbo inline 6-cylinder petrol engine, with single turbo twin-scroll technology, combined with Valvetronic, Double VANOS and High Precision Injection	–	■	–	–
	Brake Energy Regeneration	■	■	■	■
	Brake pad wear indicator, single-stage wear measurement on one side, front and rear	■	■	■	■
	Driving Experience Control, with settings for 'Sport', 'Comfort', 'Eco Pro' and 'Adaptive' modes. Settings selectable via the driving experience control switch in the centre console. Adjusts suspension (Dynamic Damper Control), throttle response, steering assistance, gear changes and driver assistance systems settings. 'Adaptive' mode is an intelligent mode that automatically supports a more sporty or comfortable driving mode in accordance with the individual driving behaviour. With navigation assistance predictive adjustments can be made via the 'Adaptive' mode.	■	■	■	■
SA169	EU3 exhaust emissions standard	■	–	–	–
	EU6 exhaust emissions standard	–	■	■	■
SA2VS	Executive Drive Pro, combines high driving comfort with dynamic driving characteristics. With the electro-mechanical active roll stabilisation function the movement of the vehicle is reduced to a minimum. The system is based on active anti-roll bars at the front and rear axles. Driving comfort is further increased through a combination of the Dynamic Damper Control and the integration of additionally available information from the navigation system, driving style analysis and camera projection data.	38 400	38 400	■	■
SA2VH	Integral Active Steering, speed-dependent adaptation of the steering angle of both front and rear wheels combined with reduced effort applied to steering wheel for more agile handling.	18 900	18 900	■	■
	Oil sensor for level and grade, electronic assessment of oil quality and level	■	■	■	■
	Park brake with automatic hold function, electromechanical, activated or deactivated via park brake switch in centre console	■	■	■	■
	Adaptive 2-axle air suspension with automatic self-levelling, manual raising up to 35 km/h by 20 mm and automatic lowering from 120 km/h by 10 mm	■	■	■	■
	Servotronic steering system, servo assistance is optimised at all speed ranges (e.g. minimum steering effort required at parking speeds)	■	■	■	■
	Ventilated front and rear brake discs	■	■	■	■

SA5AZ	BMW Laserlight: LED low-beam headlights, LED high-beam headlights with laser module when speed is above 60 km/h (doubles the light intensity compared to Bi-LED as the light emitted from blue high-performance laser diodes is concentrated to white light with high intensity on a small phosphor plate), LED position lights, LED daytime driving lights, LED direction indicators and LED cornering lights. Including adaptive headlights function, specific design elements and exclusive BMW Laserlight designation	15 600	15 600	15 600	15 600
SA356	Climate comfort laminated glass, with infrared reflecting side windows and rear window. In combination with SA420 non laminated glass is used for the side windows from the B pillar back and for the rear window (only with SA358)	13 300	13 300	13 300	13 300
SA358	Climate comfort windscreen, with infrared reflecting properties	3 050	3 050	3 050	3 050
SA3DZ	Deletion of additional exterior designation: removal of "M" designation on the front side panels (only with SA337 or SA7S0)	□	□	□	□
	Exhaust tail pipes, left and right with rhombus-shaped chrome exhaust tail pipe finishers	■	■	■	■
	Exterior mirrors with automatic anti-dazzle and fold-in functions	■	■	■	■
	Exterior mirrors with floating design (visually integrated into side finisher) and mirror housing top in body colour	■	■	■	■
	Exterior mirrors, electrically adjustable with automatic anti-dazzle function	■	■	■	■
	Exterior parts in body colour: door handles and bumpers	■	■	■	■
	Fog lights, front and rear	■	■	■	■
	Front kidney grille with double struts in chrome and chrome surround. Including Active Air Stream for optimum aerodynamics: opens and closes the air flaps depending on the engine and conditioning air requirements	■	■	■	■
SA403	Glass sunroof, electric with sliding and vent function including electrical operation of headliner	■	■	■	■
	Headlight beam-throw control, automatic	■	■	■	■
SA502	Headlight washer system, high-pressure system for cleaning main headlights with automatically extending lifter jets	■	■	■	■
SA5A1	LED fog lights, integrated into the front bumper system with LED lights in a horizontal arrangement	■	■	■	■
SA2PA	Locking wheel bolts	■	■	■	■
SA320	Model designation, deletion	□	□	□	□
SA407	Panorama glass sunroof with Sky Lounge. Panorama glass sunroof with integrated LED light graphics provides a colourful light setting with 15000 illuminated graphic surfaces in the glass. Six predefined colour selections of the Ambient interior lighting are available. The graphic surfaces is barely visible in daylight.	–	–	–	27 300
SA402	Panorama glass sunroof. Two-panel panoramic glass sliding roof. Both glass roof and floating headliner with electrical operation. The front panel includes sliding and tilting function while the rear panel are fixed. With wind deflector for reduced wind buffeting and convenient opening and closing possible via the vehicle key	–	–	–	15 500
SA5DP	Park Assist, the system assists in both parallel and lateral parking manoeuvres. Parking space measurements are done via ultrasonic sensors and the parking space search is shown in the Control Display. Optimum calculation of the line to be followed for parking and control of the steering, braking and acceleration is done by the system. Including Active Park Distance Control for braking assistance when reversing into a space (function limit up to 5 km/h)	■	■	■	■
SA8SL	Preparation for trailer tow hitch	■	■	■	■
	Rain sensor and automatic headlight control, automatic activation of the wipe control for the windscreen wipers (including intermittent-wipe) and automatic activation of the driving lights in low light conditions	■	■	■	■
SA420	Sun protection glazing, reduces heat rise inside the passenger compartment when the car is in direct sunlight. More strongly tinted glass from the B pillar back means that the glass in the rear compartment absorbs more of the sun's rays	6 800	6 800	6 800	6 800
SA5DL	Surround View, optimum 360 degrees imaging of the area around the vehicle in Top View and 3D View by cameras integrated into the exterior mirrors, at the front and at the rear. Panorama Side View allows for an early view of intersecting traffic/junctions including display of positioning guidelines in situations where the vision to either side is restricted. A free selection of detailed views are also possible: Side View, Rear View and Top View.	■	■	■	■
	Third brake light using LED technology along the top of the rear window	■	■	■	■
SA3AC	Trailer tow hitch, fully electrically operated with operating switch in the luggage compartment. Includes trailer stabilisation monitoring	15 400	15 400	15 400	15 400
	Welcome lights (interior lighting and outer door handle area lighting are activated when unlocking)	■	■	■	■
	Window surrounds and window recess covers in chrome	■	■	■	■

	Active cruise control with Stop & Go function. A camera- and radar-based driver assistance system which enables the vehicle's speed to be set in the range from approx. 30 to 210 km/h and the speed dependent distance to be maintained from the vehicle ahead can then be set in any of 4 selectable stages. Approach control warning warns of potential collision with a vehicle ahead at approx. 15 km/h or higher speeds, preconditioning of the brakes for faster response and shorter braking distances. Including active full braking activation if there is an acute risk of collision. The Stop & Go function makes it possible to automatically maintain queue speed and distance in stop-and-go traffic and in traffic jams, right down to a complete standstill	■	■	■	■
SA453	Active seat ventilation in the front seats, with ventilation of seat base and seat backrest	■	■	■	■
SA454	Active seat ventilation in the rear seats, with ventilation of seat base and seat backrest (only with SA460 + SA453 + SA4HA / SA4HC)	14 100	14 100	14 100	■
SA4NM	Ambient Air Package. Air ionisation and scents for the vehicle interior. Intensity of the scents can be controlled in three stages via the iDrive controller or button in the air conditioning control panel. Two selectable scent cartridges can be fitted in the glove compartment with a durability of approx. six months with average use. Refills can be ordered via BMW accessories. The starter kit contains four scents: Blue Suite No. 1 (fresh water scents), Green Suite No. 1 (fresh plant scents), Golden Suite No. 2 (warm, rich scents) and Authentic Suite No. 2 (natural scents)	4 200	4 200	4 200	4 200
SA4UR	Ambient interior lighting, with mood lighting designs. Have six preconfigured selectable lighting designs with contour and mood lighting in the instrument panel and door upper-arm trim panels. Additional functional contents include lighting for front footwells, backrest lighting for front seats, map pockets, lighting for rear footwells, exiting lights and a Welcome Light Carpet that projects an ambient light design onto the left and right entering and exiting area	■	■	■	■
	Armrest front, with storage compartment	■	■	■	■
SA4NB	Automatic air conditioning with 4-zone control. Fully automatic temperature control with temperature stratification and air volume control. Controlled by means of separate displays for driver / front passenger and rear-seat occupants. Front air conditioning control panel with full-colour display and control through touch operation on the function buttons. Temperature stratification in the front centre outlets controlled by touch sensitive surface. Two extra outlets in the B pillars. Including Automatic Air Recirculation, residual heat utilisation, solar sensor and fogging sensor	■	■	■	■
SA3DS	BMW display key. With touch control LCD colour display for vehicle status information (e.g. fuel gauge, range, service information, vehicles locking status, etc.). Charging also possible within the vehicle via the phone wireless charging function. Key dimensions: approx. 90mm x 55mm x 15mm. Range for info update up to approx. 300m and for locking functions approx. 30m	■	■	■	■
SA6U8	BMW Gesture Control. Specifically defined functions can be controlled in the detection range above the front centre console using hand gestures. Functions that can be operated by gestures include volume control, accepting and rejecting an incoming telephone call, closing externally triggered popups (e.g. traffic news), confirmation of Check-Control messages, triggering of a personally configured function and Surround View	■	■	■	■
SA791	BMW Individual cool box, removable, integrated into the rear-seat backrest behind the centre armrest with a capacity of approx. 15 litres (luggage compartment capacity reduced by approx. 50 litres). With pullout and removable drawer and 2 cooling settings (not with SA300, therefore if SA300 is applicable to the vehicle it will be removed when SA791 is selected)	16 400	16 400	16 400	16 400
SA776	BMW Individual headliner, Alcantara anthracite. Headliner, sun visors, A, B and C pillars as well as rear parcel shelf in Alcantara anthracite	18 400	18 400	18 400	18 400
SA775	BMW Individual headliner, anthracite	6 100	6 100	6 100	6 100
SA4M8	BMW Individual rear-seat reading lights. Consists of two reading lights, adjustable by cardan joint, in the headliner (not with SA402 or SA407)	4 900	4 900	4 900	4 900
SA6U9	BMW Touch Command. Consists of a tablet with 7" display and touch function for operation of comfort, infotainment and communication functions. Free usability at all seats via wireless connection to the vehicle. The snap-in charging holder in the rear centre armrest serves as a safe and convenient location for the tablet	6 400	6 400	6 400	■
	Central locking with remote control, central locking for all doors, fuel filler flap and tailgate, convenient opening and closing of the windows, adjustable automatic locking after setting off by means of 'Personal Profile'	■	■	■	■
	Centre armrest in rear, foldable with storage compartment	■	■	■	■
SA4U1	Ceramic surround for controls. Details in ceramic: gear selection lever, surround for iDrive controller, Audio and A/C controls	7 500	7 500	7 500	7 500
SA4F5	Executive Lounge rear console. Continuous rear console with 2 seat configuration in the rear. Contents include: foldable and horizontally sliding table that folds out to the right, two integrated cupholders including a small storage compartment under a sliding cover, storage compartment under the armrest, high-pile floor mats in the rear and BMW Touch Command (not with SA465 or upholstery NAFZ or NARI) (planned availability from July 2016 production)	–	–	–	32 000

Code	Interior Equipment continued	730d	740i	750i	750Li
SA4NF	Extended rear air-conditioning, independent, with 2 extra nozzles and control unit in the headliner above the outer rear seats. Reduces luggage compartment capacity (only with SA403) (not with SA300, therefore if SA300 is applicable to the vehicle it will be removed when SA4NF is selected)	–	–	–	19 800
	Cupholders, two in front centre console	■	■	■	■
	Cupholders, two integrated into rear armrest	■	■	■	■
SA460	Electrically adjustable rear comfort seats. Three seats in the rear with electrical adjustability of the two outer seats including backrest elements with up to 42,5° tilt angle. Control elements in rear centre armrest. Additional Gentleman function for adjusting the front passenger seat from the rear. Comfort headrests in the rear including comfort cushions (Alcantara and removable) with electrical adjustment of headrest height	28 600	28 600	28 600	■
SA456	Front comfort seats, electric adjustment with memory for driver and front passenger seats including lumbar support and adjustment of the upper backrest section, backrest width and thighrest. Comfort headrests with electric headrest height adjustment. Additional wooden inlay on the seat rear panel	■	■	■	■
	Gearshift paddles on the steering wheel (only with SA2TB) (not with SA2XL)	■	■	■	■
SA4HB	Heat Comfort package, front. Includes heated armrests in the front doors, heated front centre armrest, heated steering wheel and seat heating for the driver and front passenger seats (not with SA248, SA494 or SA4HC)	4 500	4 500	4 500	4 500
SA4HC	Heat Comfort package. Includes heated armrests in the front and rear doors, heated front and rear centre armrests, heated steering wheel and seat heating for front and rear seats (only with SA460) (not with SA248 or SA494)	11 100	11 100	11 100	5 200
	iDrive Touch Controller (touch-sensitive interface including writing recognition) with direct-selection buttons and 10.25" fixed high resolution full-colour touch display	■	■	■	■
	Instrument panel upper area and door upper trim panels front and rear in Leathertec soft-clad with double lapped seam	■	■	■	■
SA4ND	Instrument panel with leather finish. Instrument panel and door upper trim panels front and rear covered with Nappa leather and double lapped seam in contrasting colour	17 600	17 600	17 600	17 600
	Keyless engine start via Start/Stop button (key must be inside vehicle)	■	■	■	■
	Lashing eyes in luggage compartment (four)	■	■	■	■
SA2XL	Leather steering wheel with wooden inlays. Partial wooden inlays in the steering wheel rim. Centre section in Nappa leather with contrasting stitching (only with interior trim finishers SA4B7, SA4AX or SA4AS) (not with SA2TB, therefore if SA2TB is applicable to the vehicle it will be removed when SA2XL is selected)	2 600	2 600	2 600	2 600
SA5DS	Luggage compartment emergency release	■	■	■	■
SA4T7	Massage function for driver and passenger, with eight massage programmes, each with three intensity levels for muscle activation and relaxation	14 300	14 300	14 300	14 300
SA4T6	Massage function for rear seat passengers. Without SA6FR or SA6U9: full-body training in three intensity levels. With SA6FR or SA6U9: eight massage programmes, each with three intensity levels for muscle activation and relaxation. In combination with SA6FR it also includes a "well-being programme" which relaxes and regenerates the muscles on long journeys with a display option of the animated training programme on the rear seat entertainment monitor (only with SA460)	14 300	14 300	14 300	14 300
	Multifunction buttons for steering wheel, for operation of radio, cruise control and telephone functions. Buttons and embellishers in metal finish	■	■	■	■
SA6WB	Multifunctional instrument display. High-resolution 12.3" colour display using black-panel technology. Changes the visual and graphical appearance of information in the instrument display according to the driving mode set via the Driving Experience Control button	■	■	■	■
	Personal Profile, key-specific saving of settings for important control functions	■	■	■	■
	Power sockets (12V), in the storage compartment under the centre console, in the storage compartment below the front armrest and two in the rear centre console	■	■	■	■
SA415	Rear screen roller blind, electric	■	■	■	■
SA5DV	Remote parking. For parking spaces where it is difficult for the driver and occupants to access the vehicle, the vehicle can be automatically parked into and out of lateral parking spaces by activating the function "Remote Control Parking" on the BMW display key. The driver is outside the vehicle during the parking process. The position of the vehicle to the longitudinal axis of the parking space can deviate by up to 10° (in any direction). Activation of the function is possible up to max. 20% downhill / uphill gradients (planned availability from 03/2016 production)	7 200	7 200	7 200	7 200
SA416	Roller sun blinds for rear side windows, electric. Long wheelbase models: Including white Ambient highlight at the front of the rear doors. Light intensity can be controlled via capacitive touch sensor or via the light setting in the BMW Touch Command (BMW Touch Command not included as part of SA416)	■	■	■	■
SA494	Seat heating for driver and front passenger	■	■	■	–
SA4HA	Seat heating for front and rear seats (not with SA494 or SA4HC)	5 900	5 900	5 900	■
SA441	Smoker's package. Ashtray and cigarette lighter in the front centre console	■	■	■	■
SA323	Soft close automatic system for doors. Enables the doors to be closed conveniently and safely without much effort or noise nuisance in quiet surroundings. If a door is inadvertently left partly open (in 'first door catch position') it is automatically pulled to the fully closed position	■	■	■	■
	Soft close function for tailgate	■	■	■	■
SA255	Sport leather steering wheel, with airbag cover also finished in leather	■	■	■	■
	Start/Stop button for starting and turning off the engine, including Automatic Start/Stop 'OFF' button	■	■	■	■
	Steering wheel column adjustment in height and length, electrically with memory	■	■	■	■
SA248	Steering wheel heating. Brings the steering wheel rim up to a comfortable temperature within a very short time after switch-on (only with SA494 or SA4HA)	3 500	3 500	3 500	3 500
SA465	Through-loading system, consisting of load-through segment in rear seat backrest (dimensions approx. 30 x 20 cm) (not with SA791)	2 000	2 000	2 000	2 000
SA423	Velour floor mats, front and rear, colour co-ordinated with all standard carpet colours	■	■	■	■
SA8SM	VIN visible from exterior	■	■	■	■
	Window lifts front and rear, electrical	■	■	■	■

Code	Safety	730d	740i	750i	750Li
	3-point seat belts on all seats, including pyrotechnic belt tensioners at front and belt force limiters for the front and outer rear seats	■	■	■	■
	Active headrests for front seats. Automatic triggering of the headrests if the car is rear-ended to reduce the risk of whiplash injury by reduction of the distance between the back of an occupants head and the headrest. Reactivation of the active headrests is possible via BMW Service	■	■	■	■
	Active Protection including Attentiveness Assist. This safety package initiates protective measures for the occupants if an accident situation is imminent (seat belts tensioned, windows are closed, sliding sunroof is closed and seat backrests are positioned). Attentiveness Assist recognises tiredness and increasing lapses in concentration by monitoring driving behaviour	■	■	■	■
	Airbags, front for driver and front passenger	■	■	■	■
	Airbags, head for front and rear seats (curtain airbag that opens from the headliner)	■	■	■	■
	Airbags, side for driver and front passenger. Airbags deploy from the seat backrests of the driver and front passenger seats	■	■	■	■
SA302	Alarm system with radio remote control. Doors, engine compartment lid and tailgate are monitored. Including interior movement sensor, tilt sensor, emergency power siren and antitheft electronic vehicle immobiliser security system (EWS IV)	■	■	■	■
	Antilock Braking System (ABS), incl. Cornering Brake Control (CBC). Maintains the steerability of the vehicle irrespective of road surface conditions. Prevents the wheels from locking by regulating the braking pressure for each individual wheel	■	■	■	■
SA8S3	Automatic door locking when driving away	■	■	■	■
	BMW Mobility kit, for emergency puncture repairing. Only applicable when the vehicle is not equipped with an emergency spare wheel (SA300)	■	■	■	■
SA6UK	BMW Night Vision with person recognition. Camera based system employing infrared technology to enable people and animals to be seen more readily in poor visibility situations. In potentially dangerous situations, a yellow pre-alert appears and in very critical situations an acute approach warning with red warning symbol will appear, an acoustic warning will sound and the brakes will be preconditioned. Includes Dynamic Marker Lights that illuminates the endangered objects through the main headlights	28 800	28 800	■	■
	Brake assist, maximum braking force assistance to shorten stopping distance on abrupt brake application	■	■	■	■
	Bumper system with replaceable deformation elements at front and rear for impacts up to 15 km/h, capable of withstanding impacts up to 4 km/h undamaged	■	■	■	■
	Carbon Core innovative lightweight construction with highly rigid and light carbon elements in the passenger cell area	■	■	■	■
	Check control, provides information on vehicle condition (oil level, coolant temperature, etc.)	■	■	■	■
	Child proof locks on rear doors, mechanical	■	■	■	■
	Child seat ISOFIX attachments for the two outer rear seats. ISOFIX child seats are available from BMW Accessories (not included)	■	■	■	■
SA322	Comfort access, "keyless" opening and locking of the vehicle including contactless opening and closing of the tailgate	■	■	■	■
	Crash sensor, controls activation of the airbags, hazard warning flashers, interior lights, unlocking of the doors, activation of the safety battery terminal and deactivation of the fuel pump in the event of an accident	■	■	■	■
	DataDot	■	■	■	■
SA8TN	Daytime driving lights selectable by Lights menu	■	■	■	■
	Door-integrated side impact protection	■	■	■	■
SA5AT	Driving Assist Plus, camera and radar based driver assistance system consisting of the following systems: Active cruise control with Stop & Go function: Camera and radar based system enabling the driver to select a speed dependent distance to vehicles ahead. Steering and lane control assist: Supports the driver in keeping to the middle of the lane by means of comfortable corrective steering interventions in the speed range up to 210 km/h and also in monotonous situations (traffic jam assist). The driver can override this function at any time. Lane keeping assist with active side collision protection: Assists the driver in keeping in lane and actively preventing potential side collisions by means of comfortable corrective steering interventions in the speed range of 70 km/h to 210 km/h (Restricted function in the speed range of 30 km/h to 70 km/h: Warning via a single steering impulse in the opposite direction) Crossing traffic warning, front: Supports the driver when entering intersecting traffic and warns of potential collisions in traffic situations where it is difficult to see approaching traffic	■	■	■	■
	Driving Assist, camera based driver assistance system consisting of: Lane Departure Warning: Detects lane markings at speeds above approx. 70 km/h and helps prevent inadvertent departure from the lane by transmitting perceptible vibrations via the steering wheel as a warning. When an indicator is on or the indicator stalk is held in the 'short on' position (desired lane change) the function is suppressed. With display in the instrument cluster. Lane Change Warning: Permanently monitors the zones to each side of the vehicle. Detects vehicles in the 'blind spot' when above approx. 10 km/h for desired lane change. Haptic warning by transmitting perceptible vibrations via the steering wheel and flashing symbol in the exterior mirror. Person Warning and Approach control warning with light city braking function: Warns and brakes in a speed range from approx. 10 km/h to 60 km/h. If an accident cannot be avoided, the city braking function helps to reduce the impact speed. Approach control warning also warns of the potential collision with a vehicle ahead at higher speeds, with preconditioning of the brakes for faster brake response and shorter braking distances. Crossing traffic warning, rear: Supports the driver, for example, when reversing out of parking spaces and warns of potential collisions with intersecting traffic in situations where it is difficult to see approaching traffic. The Crossing traffic warning rear is extended by an additional real image display. Rear Collision prevention: Detects the threat of rear collisions via rear sensors and warns the traffic behind via the hazard warning lights (flashing in double frequency)	■	■	■	■
	Dynamic Brake Lights, different light functions depending on how brakes are applied: under normal braking the brake lights show in the normal way; under severe braking (brake application to avoid hazard) the brake lights initially flash, when the vehicle has slowed to an appropriate speed the hazard warning flashers are activated and the brake lights show normally without flashing	■	■	■	■
	Dynamic Stability Control (DSC) with extended content, including pull away assist, braking readiness, dry braking and fading compensation	■	■	■	■
	Dynamic Traction Control (DTC), switchable function of Dynamic Stability Control (DSC) for improved traction	■	■	■	■

Code	Safety continued	730d	740i	750i	750Li
SA300	Emergency spare wheel, incl. car jack and wheel brace (not with SA4NF or SA791). Reduces luggage compartment capacity by approx. 130 litres. The complete emergency spare wheel kit including storage facility is removable (no tools required) should a larger storage capacity be required	■	■	■	■
	Follow-me-home function. If the headlight flasher is activated after the ignition has been shut off, the low-beam headlights continue to shine for a period of time. The duration can be set via the iDrive controller	■	■	■	■
	Front passenger airbag deactivation, through keyswitch on front passenger's side	■	■	■	■
SA610	Head-up display. Full-colour projection onto the windscreen of information relevant to driving and specific to the situation, with automatic brightness control and 3D graphics for junction view (realistic display of turns and junctions). User-friendly display adjustments possible by means of the iDrive Controller. The following can be display: navigation information, speed, Speed Limit Info, warning information from the driver assistance systems, situational display of entertainment and communication lists, Driving Experience Control modes, BMW EfficientDynamics functional contents and check control messages with 3D graphics	■	■	■	■
SA5AC	High Beam Assist with anti glare function. Automatic switching on and off of the high-beam headlights depending on the traffic situation including BMW Selective Beam that controls the no-dazzle high-beam headlights. Control is via a sensor on the front side of the interior mirror	■	■	■	■
	Park Distance Control (PDC), front and rear. With acoustic and visual distance warning of obstacles to the front and rear of the vehicle. Function can also be manually activated/deactivated	■	■	■	■
	Rear fog lights with LED technology and reflectors, left and right, integrated in the rear bumper segment	■	■	■	■
SA3AG	Rear view camera. Assists with reverse parking and reverse manoeuvring by imaging the zone behind the vehicle on the Control Display. Activation when transmission position "R" is selected. Located in the tailgate	■	■	■	■
	Runflat tyres. Reinforced sidewalls mean tyres do not totally collapse and remain on the rim, even if they have lost all tyre pressure. Depending on the extent of tyre damage, can be driven at reduced speed - max. 80 km/h - for approx. 80 km	■	■	■	■
SA2VB	Tyre Pressure Monitoring. Sensors on all four wheels facilitate an exact and individual monitoring of the pressure in each individual tyre. A warning indicator is automatically activated should the tyre pressure loss be 20% or more	■	■	■	■
SA428	Warning triangle and first aid kit	■	■	■	■

Code	Entertainment and communication	730d	740i	750i	750Li
SA698	Area code 2 for DVD	■	■	■	■
SA6F1	Bowers & Wilkins Diamond surround sound system. Featuring a fully active 10-channel amplifier with 1400W and 16 loudspeakers: 1 centre midrange speaker in the middle of the instrument panel with illuminated Bowers & Wilkins designation, 1 centre diamond tweeter in the middle of the instrument panel featuring Nautilus™ spiral technology, 2 illuminated midrange speakers in the front door trims featuring Kevlar® technology, 2 illuminated diamond tweeters in the mirror triangles featuring Nautilus™ spiral technology, 2 illuminated midrange speakers in the rear door trims featuring Kevlar® technology, 2 tweeters in the rear door trims, 2 midrange speakers in rear parcel shelf, 2 tweeters in rear parcel shelf and 2 central bass speakers underneath the front seats featuring Rohacell® technology. Including Quantum Logic Surround with 7-band equaliser (Dynamic Sound Equalising) and three analogue crossover networks for a constant sound quality in all seats. Stainless steel finishers with Fibonacci hole pattern design ensure an optimum degree of efficiency for a pure sound experience	73 500	73 500	57 900	57 900
SA6NW	Comfort telephony with wireless charging. Wireless connection for compatible Bluetooth® mobile phone with extended functionality including handsfree operation. Wireless connection for audio streaming possible with the vehicle via Wi-Fi. Smartphone holder at the side of the centre console with inductive charging according to Qi standard for suitable mobile telephones (including LED charge level indicator and forgotten mobile phone warning) and connection to the external aerial possible (max. device size 150 x 91 x 20 mm). For ensuring the charging function and external aerial connection, the smartphone must be positioned with its back to the charging surface. For selected smartphones without an inductive charging function according to Qi standard, special charging cases are available via BMW Parts and Accessories. Extended functionality (also dependant on the features of the Bluetooth® / USB device) include: improved hands-free capability for front passenger by provision of a second microphone, 2 x USB connections with 2.1A charging current for shorter charging times of smartphones and tablets, Bluetooth® / Wi-Fi audio streaming (possibility of playing compressed videos via the USB interface), at any given time 2 mobile phones and one audio player can be paired via Bluetooth®, display of organiser data from the customer's telephone on the Control Display by selecting 'Office' or 'Communication' from the menu, display of contact photos from the address book of the customer's telephone on the Control Display, display of album covers and software update for multimedia and telephony via the USB interface (for information on compatible devices, see www.bmw.co.za/bluetooth)	■	■	■	■
SA688	harman kardon Surround Sound system. Featuring a 9-channel digital amplifier with individually adjustable equalising, 600W and 16 loudspeakers: 1 centre tweeter in the middle of the instrument panel, 1 centre midrange speaker in the middle of the instrument panel, 2 tweeters in the mirror triangles (with 'harman/kardon' designation), 2 midrange speakers in the front door trims (with 'harman kardon' designation), 2 central bass speakers underneath the front seats, 2 tweeters and 2 midrange speakers in the rear door trims (with 'harman/kardon' designation), 2 tweeters in the rear parcel shelf and 2 midrange speakers in the rear parcel shelf	15 600	15 600	■	■
SA676	Hi-Fi loudspeaker system. Featuring a digital amplifier with 205W and 12 loudspeakers: 1 centre tweeter in the instrument panel, 1 centre midrange speaker in the instrument panel, 2 tweeters in the mirror triangles, 2 midrange speakers in the front door trims, 2 central bass speakers underneath the front seats, 2 tweeters in the rear door trims and 2 midrange speakers in rear door trims	■	■	—	—
SA609	Navigation System, Professional. Fixed 10.25" high-resolution (1440 x 540 pixels) touch display. 3D map display (incl. digital terrain modelling, land marks, city modelling, satellite imagery and detailed street view). iDrive Touch Controller (touch-sensitive interface including writing recognition) with direct access buttons and 7 programmable favourites buttons. Hard drive supported system including 20 GB memory for music storage (incl. Gracenote® file). Large split-screen display with onboard Digital map storage and MP3 compatible DVD drive. Including 3-year free map update (1 map update per year). Operation of items of equipment such as telephone or navigation system can also be done via natural voice control	■	■	■	■
	On-board computer, informs about average speed, average consumption, range, outside temperature, time and date	■	■	■	■
	Radio BMW Professional incl. front-loading DVD drive (MP3 compatible) and integrated Owner's Handbook with operation via the iDrive controller and readout on the Control Display	■	■	■	■

Code	Entertainment and communication continued	730d	740i	750i	750Li
SA6FR	Rear-seat entertainment Experience. Including 2 high resolution tiltable 10" screens with a Blu-Ray drive. Operation via a 7" tablet (Touch Command). Separate connection options such as HDMI for game consoles or Apple TV, MHL for mobile devices (smartphone or tablet) and USB for MP3 players are available. Connectivity for wireless headphones possible (headphones not included in scope of supply). Also allows access to the vehicle's entertainment functions (e.g. radio and DVD player), navigation system (driver independent navigation), online functions and telephone	40 300	40 300	40 300	■
SA6NB	Rear-seat telephone unit with cordless handset. Separate telephone with HD voice quality in the rear located under the centre armrest, allowing for 'Strictly private calls' to be made	10 800	10 800	10 800	■
	Speed Limit Info	■	■	■	■
SA601	TV-function, analog. With integrated roof aerial. Operation via iDrive Touch Controller or optional BMW Touch Command (SA6U9)	16 100	16 100	16 100	16 100

Code	BMW ConnectedDrive Services and Apps**	730d	740i	750i	750Li
SA6AN	Concierge Services, personal 24/7 in-car concierge service provided by BMW. Person-to-person assistance for finding points of interest (e.g. restaurants, hotels, nearest pharmacy, ATMs, etc.), selecting destinations and planning a journey. Address data for the Navigation system can be transmitted directly from the BMW Call Centre to the vehicle and then accepted by the driver via the iDrive system (Concierge Service only supported in South Africa)	■	■	■	■
SA7S9	ConnectedDrive services package (package content consists of SA6AK, SA6AM, SA6AN and SA6AP)	■	■	■	■
SA6AK	ConnectedDrive Services, provides the services and functionalities of BMW Online and BMW Apps. BMW Online: in-car online portal that offers news, weather forecasts, online-search and Office functions. BMW Apps: permits the integration of certain smartphone applications (Apple and Android devices) such as the free BMW Connected App. This enables access to functions such as Twitter, Wiki Local, news and web radio via the iDrive system and Control Display (BMW ConnectedDrive Services only supported in South Africa)	■	■	■	■
SA6AC	Intelligent emergency calling, telematics service with manual emergency calling via SOS button and automatic emergency calling in case of an accident (based on a complex algorithm analysis of different sensor data). Transmitted data to the BMW Call Centre include information like vehicle location, severity of accident and status of the front airbags and seat belts (Manual and Automatic Emergency Call - without data transmission - supported in Namibia, Botswana and Swaziland)	■	■	■	■
SA6AR	Internet, on-board viewing in the high-resolution Control Display with the vehicle stationary. Operation via the iDrive controller, which works like a conventional mouse (unlimited data usage via an integrated SIM card – for the duration of the service offer). Video streaming not supported (Internet only supported in South Africa)	■	■	■	■
SA6AM	Real Time Traffic Information, supplies real-time traffic information on highways and national roads (extended coverage of urban main and secondary roads; excludes residential areas) with detailed information about the traffic situation and alternative route suggestions (consideration is also given to historical data such as rush hour traffic) (RTTI only supported in South Africa)	■	■	■	■
SA6AP	Remote Services, enables usage of remote functions (e.g. door lock and unlock, horn blow, flash lights and vehicle finder – displays the current position of the vehicle on a map on your compatible Smartphone in order to find your parked vehicle) by means of the My BMW Remote App (Remote Services only supported in South Africa)	■	■	■	■
SA6AE	TeleServices, telematics service for automatic and manual service need transmission and for initiation of breakdown assistance (BMW Teleservice Call, BMW Teleservice Breakdown Call and BMW Teleservice Battery Guard). Depending on the situation, service information is transmitted on an as-needed basis to the customer's preferred BMW Dealership (TeleServices only supported in South Africa)	■	■	■	■

Code	Service	730d	740i	750i	750Li

Please note that not all options are listed. For a comprehensive list of additional options, visit your nearest BMW dealer.
Prices and specifications are subject to change without prior notice. All prices include 14% value added tax. Prices exclude licence and registration fees.

****BMW CONNECTED DRIVE SERVICES & APPS – INFORMATION.**

1. General information.

BMW (South Africa) (Pty) Ltd. (hereafter referred to as “BMW”) provides the customer with vehicle-specific information and support services under the name “BMW ConnectedDrive”. Services are provided by means of a SIM card installed in the vehicle. Call and data-connection costs are included in the price of the services. Insofar as it is necessary for the substantive organisation and utilisation of the services, BMW collects, stores and processes vehicle-related data and data relating to the customer’s use of the services within the legal stipulations. This information should be read in conjunction with the General Terms and Conditions of Service for ConnectedDrive, as updated or amended from time to time. The latest version of the General Terms and Conditions of Service for ConnectedDrive are also available at <https://www.bmw-connecteddrive.co.za/cdp/release/internet/servlet/legalnote>.

2. BMW ConnectedDrive basic services.

The BMW ConnectedDrive basic services “TeleServices” (SA6AE) and “Intelligent Emergency Call” (SA6AC) have already been activated at the point of vehicle transfer. In the case of BMW i vehicles, the basic services will include “Remote Services” (SA6AP) as an additional basic service.

a. TeleServices (SA6AE).

The “TeleServices” service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle’s technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data together with the name and the customer e-mail address that the customer has provided to BMW shall be forwarded to the responsible service partner, BMW Mobile Care/BMW On Call or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. Technical data shall be transferred from the vehicle to BMW at regular intervals where it shall be evaluated to aid the further development of BMW products. This is known as the “Teleservice Report”. This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the “Teleservice Report”.

The “TeleService Battery Guard” continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by text message.

b. For BMW i vehicles only:

By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by text message, push mail or by means of illuminated side or parking lights. Additional vehicle status information includes information about the location of the vehicle and information about the charging status, data about every begin, end, interruption and errors during charging as well as turning on and off the vehicle is sent from the vehicle to BMW and received by the BMW Car IT GmbH. This data is used for verification and quality assessment of charging stations.

The “Efficiency” service uses vehicle status information, that every time the vehicle is turned off is sent from the vehicle to BMW. This data is calculated from driving performance measures, and can be viewed in the BMW Remote App and in the BMW ConnectedDrive Customer Portal.

The driving performance measures are statistically processed within the “Community” function with other BMW i drivers and shown as anonymous within the BMW Remote App and the BMW ConnectedDrive Customer Portal. The service “Community” first requires the consent of the customer within the customer portal or in the BMW Remote App.

The service “Range Map”, “Route to Vehicle” and “Vehicle Position” uses vehicle status information as well as information about the location of the vehicle, that every time the vehicle is turned off is sent from the vehicle to BMW. This data is used to represent the geographical position of the vehicle, which is display in the BMW Remote App and in the ConnectedDrive Customer Portal.

c. Intelligent Emergency Call (SA6AC).

The vehicle’s identification and location is required for the use of the “Intelligent Emergency Call”, and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user’s request and the data required may be transmitted to service providers commissioned by BMW to provide the service – in that case, these items of data shall only be used to help provide the service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties.

3. ConnectedDrive Services (SA6AK). BMW Online.

The “ConnectedDrive Services” (SA6AK) service is activated for 36 months after first registration. The customer can extend the service for an additional charge beyond the initial period via the BMW ConnectedDrive Customer Portal.

The vehicle’s identification is required for the use of the service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the service – in that case, these items of data shall only be used to help provide the service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

4. Concierge Services (SA6AN).

The “Concierge Services” (SA6AN) service is activated for 36 months after first registration. The customer can extend the service for an additional charge beyond the initial period via the BMW ConnectedDrive Customer Portal.

To use the service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle’s identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the service – in that case, this data shall only be used to help process the provision of the service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

5. Real Time Traffic Information (SA6AM).

The “Real Time Traffic Information” (“RTTI” - SA6AM) service is activated for 36 months after first registration. The customer can extend the service for an additional charge beyond the initial period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a “mobile traffic reporter” (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

6. Internet (SA6AR).

The “Internet” (SA6AR) service runs for a period of 12 months after the vehicle’s first registration. The customer can extend the service for an additional charge beyond the initial period via the BMW ConnectedDrive Customer Portal.

****BMW CONNECTED DRIVE SERVICES & APPS – INFORMATION.**

7. Remote Services (SA6AP).

The “Remote Services” (SA6AP) service requires registration in the BMW ConnectedDrive Customer Portal.

The service can help if a customer has accidentally locked themselves out of their vehicle, for example, via the BMW Operator with the remote telephone function. Alternatively, the customer can use a smartphone as a remote control. Using the “My BMW Remote App” (available for iPhone in the Apple App Store and Android in Google Play) customers can find their BMW amongst other vehicles by simply actuating the headlight flasher via the app on their smartphone. For BMW i vehicles, the customer can also adjust the temperature inside the vehicle before getting in.

8. Availability of the service.

The complete range of services is only available for customers whose vehicles are approved in South Africa, and only within South Africa except for “Intelligent Emergency Call” which is available in Namibia, Botswana and Swaziland. However, in these countries the Intelligent Emergency Call will be limited to only the dialling of the local emergency number and no data will be transmitted.

“TeleServices” (SA6AE), “Concierge Services” (SA6AN), “Remote Services” (SA6AP), “BMW Online” (SA6AK), “RTTI” (SA6AM) and the “Internet” (SA6AR) service can be accessed on the Vodacom network in South Africa only and these services will not work or be available in other countries.

In order to reduce driver distraction, certain services will not be available while the car is moving.

9. Deactivation.

The customer can deactivate the BMW ConnectedDrive basic services “TeleServices” (SA6AE) and “Intelligent Emergency Call” (SA6AC) (and “Remote Services” (SA6AP), in the case of BMW i vehicles) at any time at an authorised BMW dealer, a regional BMW branch or an authorised BMW workshop. Deactivation of this service will also deactivate the SIM card installed in the vehicle. This results in the Emergency Call in the vehicle also not functioning. The other services can also be deactivated by the customer (from July 2014 via the BMW ConnectedDrive Customer Portal (“My BMW ConnectedDrive”), although the agreement between the customer and BMW in respect of those services will remain in operation and will not be suspended by the deactivation.

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see:

www.bmw-connecteddrive.co.za. The BMW ConnectedDrive Hotline is available on: +27 (0) 800 627771 from Monday to Friday, 8.00 am – 5.00 pm.

BMW BENEFITS.

BMW Service Concept: always up to date. When you buy a BMW, you can look forward to superb service and comprehensive customer care, with over 3 300 BMW Service Dealerships in more than 150 countries ready to assist you at any time. Thanks to the vehicle's integrated on-board diagnostics system, you will always know exactly when the next service is due, and what work will be required. **Condition-Based Service** measures the condition of key parts subject to wear, tracks fluid levels and monitors your BMW's time- and mileage dependent service requirements. Then simply get in touch with your BMW Dealership, who will provide expert care for you and your car. Staffed by highly trained personnel, your BMW Dealership is also equipped with the latest computer-aided information and diagnostic tools. Important data such as your chassis number, mileage and current service requirements are also stored on your car key, ensuring a quick assessment of your car's status. Meaning that staff have more time to assist you. And naturally, your BMW Service Dealership will have **Original BMW Parts** available for any work to be done. In short - quality and safety are at the heart of BMW Service.

BMW Motorplan. All new BMWs sold in South Africa include a 5 year/100 000 km Motorplan maintenance contract. This covers all service, maintenance and repairs resulting from normal wear and tear, excluding tyres and fuel. As with any maintenance agreement, there are certain exceptions which are clearly specified in the Motorplan agreement. Repairs resulting from negligence or accident damage are not covered. For all BMW models the contract distance can be extended up to 200 000 km, dependent on individual needs.

BMW On Call. In the event of a breakdown, BMW On Call is available 24 hours a day, 365 days a year at 0800 600 777. Specifically trained BMW technicians will do everything necessary to get your BMW back on the road, with telephone or on-site assistance as required. Car rental and/or towing of your car can be arranged if necessary.

BMW Accident Management. BMW Accident Management provides a managed response to an accidental vehicle immobilisation. The service includes using the BMW Approved Repair Centre network and overall coordination by the BMW Customer Service Centre, who will select and approve the best service suppliers in the industry. Call 0800 600 555 for more information.

Original BMW Accessories and BMW Lifestyle Accessories. The comprehensive range of high quality Original BMW Accessories covers every aspect from the exterior to the interior and from mobile communication to transport and safety accessories. BMW Lifestyle Accessories mean that even when you're not driving your BMW, you can still enjoy the unique fascination of the BMW experience with exclusive products from BMW Lifestyle. Your BMW Dealership will be able to assist you with a catalogue of accessories specially suited to your BMW model and you can explore the range of quality BMW Lifestyle products at the same time.

BMW Financial Services. There's only one more thing you could wish for: the perfect financing solution. One that leaves enough scope for all your other wishes. BMW Financial Services offers tailor-made solutions in the areas of leasing, financing and insurance individually developed to suit you and your budget. Leasing through BMW Financial Services lets you realise your dream of driving an exceptional BMW. And you yourself can decide on deposit, duration and the extent of your monthly instalments. A wide range of financing plans from BMW Financial Services meets your every requirement. Your local BMW Dealership will assist you to put together your own individual plan. And if you opt for insurance from BMW Financial Services, you'll be prepared for all eventualities. The comprehensive spectrum of options reflects the safety and quality you'd expect from BMW. For more information, go to **www.bmwfinance.co.za** or call us on 0861 269 346. Your BMW Dealership can also provide you with more details on BMW Financial Services.

BMW Magazine: Information and entertainment. The BMW Magazine is a competent source for the latest, comprehensive news from the world of BMW. You receive a complimentary subscription when you purchase a new BMW.

Internet. Apart from the international website, www.bmw.com, BMW maintains websites in many countries around the world. Visit the South African website at **www.bmw.co.za** to find out more about options available and to locate dealerships in your vicinity.

BMW Owner's Circle. The BMW Owner's Circle website is a personalised customer website that offers BMW drivers the opportunity to interact with BMW within a secure web environment. Each BMW driver is already a member of this online community, and can activate their membership by registering at **www.bmw.co.za/ownerscircle**. The internet site offers information and functionality specifically relevant to their personal and vehicle profile. A member can:

- Update personal and vehicle information;
- Review Motorplan details and extend their contract;
- View BMW Financial Services statements and apply for credit;
- See the service history on their BMW and submit online service booking requests;
- Contact BMW via a priority email service;
- View their owner's manual online;
- Book a BMW Driver Training course or Plant tour;
- Track a vehicle that has been ordered as it passes through various production and distribution processes.

Register by visiting **www.bmw.co.za/ownerscircle**.

BMW Driving Experience. BMW Driving Experience is the only driver training programme which offers you the opportunity to expand your driving knowledge and learn to keep your vehicle superbly under control, in a variety of situations, using an exclusive BMW vehicle. You will have an expert companion at your side while you push your driving skills to their very limits in a wide range of driving situations. By passing on their expertise in practical driving situations, our highly skilled instructors will ensure that participants learn as much as possible in the time allotted, as well as having a memorably enjoyable time. Courses covered are:

- Collision Avoidance and Skid Control.
- High Performance Driving.
- Defensive Driving.
- Hijack Prevention.
