CW Motorcycles

Customer care and great service put CW on top

BMW dealers top the charts in three out of our eight regions - with Dorchester's CW Motorcycles best of all. Customers love them so much that we've even found one who is willing to travel from the Midlands to the South West just to have his bike serviced. That says something for the quality you can expect. CW Motorcycles, RIDER POWER salutes you!

YOU SAY

CW proves to me that it's not just about the bike, it's about the service. In a friendly environment, they are so good that I travel down to Dorset from the Midlands for each service, as well as for repairs and other events. I get great advice from all of the team and often get to speak to people who are into the mechanics, who keep me well informed as to the work that they are doing. The personal contact and advice is invaluable and something that I have never found elsewhere.

Robert D'Neale
