Less emissions. More driving pleasure.

THE NEW BMW X1.

JOY IS LIFE FULL OF POSSIBILITIES.

The new BMW X1 formula. At first glance a compact X model, on second glance the challenge of getting to know something new. It starts with the design: rising lateral lines lend the new BMW X1 a dynamic shape, while short overhangs and a sloping rear windscreen create a sporty, elegant silhouette. From the front, the contoured bonnet and distinctive BMW headlights make for a striking impact, while L-shaped taillights and horizontal lines visually broaden the rear. All told, the design of the new BMW X1 has a very simple message: it's joy in material form.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and fuel economy, without compromising on performance and driving dynamics. These technologies are standard on every new BMW and could lower your fuel and tax costs, as well as ensure a lower BIK percentage rate for company car drivers. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against any BMW X1 at www.bmw.co.uk/efficientdynamics.
