THE BMW M5.

EFFORTLESS PRECISION, PURE PERFORMANCE. UNITED IN JOY.

Both the BMW M5 Saloon and the BMW M5 Touring deliver a performance that knows no limits. Enthralling dynamic power is provided by the characteristic M high-revving engine with 507hp and ten cylinders. Experience the BMW M5 Saloon's impressive fusion of exclusivity and sportiness, or the added flexibility of the BMW M5 Touring. In either case they deliver maximum driving pleasure.

V10 ENGINE.

A ten-cylinder, naturally aspirated 5.0-litre powerplant is what drives the M5 Saloon and Touring. The strength of the high-revving V10 engine lies in its cutting-edge technology and compact, lightweight construction. Maximum outputs of 507hp and 520Nm of torque mean exceptional 0-62mph times of just 4.7 seconds (Saloon) and 4.8 seconds (Touring). Ten individual throttle butterflies help the engine breathe and ensures it responds instantly to every demand.

SEQUENTIAL MANUAL GEARBOX.

With the BMW M5, an authentic sporting experience is as important as a comfortable drive. That's why BMW developed the Sequential Manual Gearbox. It allows you to shift gears in milliseconds, using the steering wheel-mounted paddles or the selector in the centre console, giving full and near-seamless control of the V10 engine. Whether you're looking for effortless cruising or F1-style immediacy, you'll always find the perfect set-up using DRIVELOGIC – eleven different gearshift programmes.

A PERSONALISED DRIVING EXPERIENCE.

The BMW M5 can be adjusted to suit your exact personal needs – from the suspension settings (EDC) and DRIVELOGIC mode, to the engine power and Dynamic Stability Control setting. Using the MDrive Manager (within iDrive), your preferred combination of settings can be configured and stored. These settings are then simply activated by pressing the MDrive button on the M Sport leather steering wheel.
