## THE NEW BMW X5 M AND BMW X6 M.

### NO COMPROMISE.

With the new BMW X5 M and BMW X6 M, you can experience M fascination for the first time in four-wheel-drive BMW X models. Innovative technologies including a newly developed high-efficiency M TwinPower Turbo engine with 555hp, a fast-shifting M Sport automatic transmission, M specific chassis and Drive Performance Control system deliver an unprecedented driving experience.

#### M VALUES SET STANDARDS BEYOND COMPARE.

It is one of the most coveted car badges of all: the M logo. Every vehicle that carries it represents a pure expression of our values: seemingly never-ending acceleration across the entire rev range, thrilling agility and outstanding tracking stability through every bend. The BMW X5 M and the BMW X6 M champion the classic M characteristic driving dynamics, introducing M tuning into a new model range. M now sets the benchmark in this class too.

#### THE M TWIN POWER TURBO ENGINE.

A world premiere sits under the bonnet of the BMW X5 M and BMW X6 M. For the first time, the M typical linear power curve meets the formidable thrust of twin turbocharging – in BMW's most powerful production engine, the M TwinPower Turbo. This high-performance V8 engine delivers maximum torque of 680Nm and an output of 555hp to power both vehicles from 0-62mph in only 4.7 seconds.
