Standard Equipment

5 Series Saloon

520d SE 520d xDrive SE 520d SE ED 525d SE

Common-rail technology

Variable turbine geometry Single TwinScroll turbocharge Selective catalytic reduction (SCR) with AdBlue

Diesel Particulate Filter (DPF) Engine cover with 'TwinPower Turbo' designation

Oil sensor for level and grade

Transmission

Eight-speed Sport automatic transmission with electronic gear selector and Steptronic (525d only) xDrive (xDrive models only)

Wheels and chassis

18" light alloy wheels multi-spoke style 619 (520d SE ED Only)

Drive Performance Control with ECO PRO, Comfort, and Sport

Electro-mechanical parking brake with automatic drive-away release and auto-hold function Electric Power Steering (EPS) with Servotronic

Safety and technology

Airbags comprising:

Head airbags for first and second row seats

Driver, front passenger, rear and side Impact-dependent airbag system

Passenger seat airbag deactivation, front Alarm system (Thatcham 1) with remote control and engine immobilise

Anti-roll bars, front and rear

Brake Energy Regeneration Brake Force Display

Brake lights with LED technology, Dynamic

Cruise control with brake function crash sensor activating central locking release, nazarα warning lights, τuel cut-oπ and interior

Daytime running lights, LED

Deformation zones - front and rear with door reinforcements and humners that regenerate

to their original shape in impacts of up to 2.5 mph

Dynamic Stability Control (DSC) comprising: Anti-lock Braking System (ABS)

Automatic Stability Control (ASC)

Brake Assist function Cornering Brake Control (CBC)

Dynamic Brake Control (DBC)

Dynamic Traction Control (DTC) Electronic Brake-force Distribution (EBD)

Engine Drag Torque Control (MSR)

First Aid kit and warning triangle

Follow-me-home headlight function Head restraints - front, anti-whiplash

LED Headlights

Locking wheel bolts (Thatcham approved) Mobility kit (Not included when run-flat tyres are specified)

On-Board Diagnosis (OBD)

Park Distance Control (PDC), front and rear

Rain sensor with automatic headlight activation Seat belts - front, inertia reel with pyrotechnical belt latch tensioner, belt force limiter & belt

raetroinar Seat belts - rear, three with inertia reel Side impact protection

Windscreen washer jets, heated

Speed limiting function Two-tone horn Tyre pressure monitoring

Front and rear, intergrated in door trim

Centre console, includes storage compartment

Rear centre, includes 2 cupholders Child seat ISOFIX attachment, rear outer seats (inloudes top tether)

Seat adjustment - front, partially electric

Seat heating, front

Interior equipment

ir conditioning, automatic with two-zone control

Ambient interior lighting - 6 selectable light designs; white, blue, orange, yellow, lilac and green.

Battery in luggage compartment with jump start facility in engine bay

Cup holders (2 front & 2 rear)

Door sill finishers with BMW designation

Electric windows - front and rear, with open/close fingertip control, anti-trap facility and comfort closing function all round Floor mats, velour

Footwell lights, front and rear

Interior trim, Aluminium fine cutting with highlight trim finisher in Pearl Chrome

Lockable glove compartment with light Multi-function controls for leather steering wheel

Multifunctional instrument panel

Reading lights, front and rear

Exterior equipment

Door handle illumination

Active Air Stream kidney grille

All round anti-corrosion system

Pear-view mirror automatically dimmino

Sport leather steering wheel, three-spoke

Steering column with adjustable in height and length: activation via lateral lever on the steering column

uipment in addition / replacement to 520d SE / 520d xDrive SE / 525d SE

BMW TwinPower Turbo four-cylinder petrol engine VALVETRONIC with Double-VANOS Single TwinScroll turbocharger

ent to 520d SE/520d xDrive SE quipment in addition / replac

18" light alloy wheels Multi-spoke style 619

BMW TwinPower Turbo inline six-cylinder diesel engine Common-rail technology

Variable vane geometry

Single TwinScroll turbocharger

Eight-speed Sport automatic transmission with electronic gear selector and Steptronic

Run-flat tyres with Tyre Puncture Warning System (TPWS)

Equipment in addition / replacement to 530d SE/530d xDrive SE

RMW TwinPower Turbo four-cylinder netrol engin High-precision direct injection

VALVETRONIC with Double-VANOS

Single TwinScroll turbocharger

540i xDrive SE

Equipment in addition / replacement to 530i SE

BMW TwinPower Turbo six-cylinder in-line petrol engin

High-precision direct injection VALVETRONIC with Double-VANOS

Single TwinScroll turbocharge

Exhaust tailpipes - single, left and right, chrome, quadrilatera

νDrive

Audio and communication 20GB hard disc drive (HDD) memory

Access to BMW Connected+ for 12 months from vehicle production (subscription required)

BMW ConnectedDrive Services comprising:

Exterior mirrors - electrically adjustable and heated, includes integrated direction indicators

BMW Emergency Call

Exhaust tailpipes - single, left and right, chrome

BMW Online Services

BMW TeleServices Real Time Traffic Information

BMW Professional radio with single CD player (with MP3 and DVD playback capability)

Bluetooth Hands-free facility with USB audio interface and Voice Control Control Display - 10.25" colour touch sensitive display screen

DAB digital radio

Digital Cockpit

i Drive Touch Controller with shortcut buttons

Navigation System - BMW Professional Multimedia

On-Board Computer (OBC) comprising: Average speed

Fuel consumption and range Information display - analogue instruments combined with liquid crystal display

Journey computer Outside temperature display Personal Profile functions

uipment in addition / replacement to SE models

18" M light alloy wheels Double-spoke style 662 M with run-flat tyres (520i / 520d / 520d xDrive / 525d M Sport only) 19" M light alloy wheels Double-spoke style 664 M with run-flat tyres (530d M Sport / 530d xDrive M Sport / 530i M Sport / 540i xDrive M Sport only)

Door sill inlays with illuminated BMW M designation

Exhaust tailpipes - single, left and right, chrome, quadrilaters Exterior trim, High-gloss Shadowline

Instrument panel in Sensatec (artificial leather)

Interior trim, Aluminium Rhombicle with highlight trim finishers in Pearl Chrome LED fog lights

M aerodynamic bodystyling M designation on front side panels, left and right M specific floor mats

M specific key

M specific pedals M specific steering wheel M Sport braking system (525d/530d/530d xDrive/530l/540i xDrive only)

M Sport suspension (not available on 530e)

530e Equipment in addition / replacement to petrol and diesel models

Variable vane geometry

Li-lon Battery 9kwh

Li-Ion Battery, 9.2kWh gross / 8kWh available

Nominal voltage: 351V

Storage Management Electronic ast charging AC capability: Max. power (grid side): 3.7 kW (16 A)

AC plug: type 2 Radiator, aluminium

eDrive Services

Drive designation on C-pillar, left and right.

oor sill finishers with eDrive designat rive button to select between ALITO eDrive, MAX eDrive and SAVE Battery settings

tandard charge cable 5 metres in length "i" designation on front side panels, left and right (Replaced by 'M' designation on M Sport models)

luminated charging socket with visual display of charge status

Reversing Assist camera Activated automatically with PDC when reverse gear is engaged. Shows an image in the Control Display of the area behind the car.	0	0	£375.
Not with 5DM/5DN Headlight wash	0	0	£225.
High-pressure system for cleaning main headlights with an automatically extending lifter jet.			
Park Distance Control (PDC) - Acoustic and visual distance warning of obstacles in front of and behind the car	•	•	S
- Can be switched off manually - Including Auto PDC: automatically activated when the vehicle starts to drive forwards towards a different vehicle (< 3 km/h)			
Adaptive Headlights Offers improved visibility by following steering angle of the front wheels, providing better illumination of the road ahead through corners. Not active when reversing, or in situations which would dazzle oncoming traffic. Additional LED cornering lights improve vision at close range, operated with activation of the direction indicator or with corresponding steering wheel input at a speed up to approximately 35mph.	0	0	£490.
Not with 552 BMW Icon adaptive LED headlights	0	0	£1,195.
Full 'white' LED headlights for both low and high beam, offering a greater resemblance to daylight. Includes automatic height adjustment, 'white' LED BMW Icon light design used for Daytime Driving Lights and LED front indicators. Featuring Adaptive Headlights, which improve visibility by following the steering angle of the front wheels, providing better illumination of the road ahead through corners. Adaptive Headlights not active when car is reversing or when car is stationary and steering turned to offside, to avoid dazzling oncoming traffic. Additional LED cornering lights improve vision at close range, operated with activation of the direction indicator or with corresponding steering wheel input at a speed up to approximately 35mph.			
BMW Selective Beam functionality is supported in combination with High-beam Assistant (option 5AC) to provide an intelligent anti-glare system that provides autonomous control of the left and right headlights and high-beam distribution to optimise illumination of the road ahead without glaring other road users. BMW Selective Beam can vary high and low beam simultaneously to direct the light distribution around other vehicles according to the traffic situation, ensuring unparalleled levels of illumination. For further information please refer to the Technology Hub on LaunchPad.			
Not with 524 Only with 5AC			
LED foolights Integrated into the bumper system, with LEDs aligned horizontally.	0	•	£175.
High-beam Assistant	0	0	£95.
Automatic switching on and off of the high-beam headlights depending on the traffic situation, controlled via a sensor on the front side of the interior mirror. In combination with 552	0	0	20.0
Dynamic Safety Safety package for initiating protective measures for the occupants if an accident situation is imminent. Includes: attentiveness assistant, seat belt tensioning, closure of any open windows, closure of	0	0	£280.
sliding sunroof (if fitted), repositioning of passenger seat backrests, automatic braking after impact. Includes Attentiveness Assistant. Driving Assistant	0	0	£895.
A range of camera-based driver assistance systems that enhance safety and reduce the risk of potential collisions, at both high and low speeds. Systems included in this option are:			
- Lane Departure Warning for detecting lane markings at speeds above approximately 45mph. If the car deviates from the lane of travel without the use of indicators, the steering wheel vibrates as an alert. If the indicators are used to signal, the system recognises this as an intentional lane change and the steering wheel will not vibrate.			
- Lane Change Warning permanently monitors the zones to each side of the vehicle. Detects vehicles in the 'blind spot' when above approx. 6 mph for desired lane change (indicator is activated or stalk is held in 'short on' position), warning via the steering wheel (vibration) and flashing symbol in the exterior mirror. Approach control wereing and process version with bits beginning the process of the proce			
- Approach control warning and person warning with city braking function: gives warning and brakes within a speed range from approx. 6 mph to 37mph (for persons) and up to 50 mph (for vehicles). If an accident cannot be avoided completely, the city braking function helps to reduce the impact speed and hence, the severity of the accident. Approach control warning also warns of potential collision with a vehicle ahead at higher speeds, with preconditioning of the brakes for faster brake response and shorter braking distances. Operation by means of a button in the control unit for driver assistance systems.			
- Crossing-traffic warning rear: supports the driver, for example, when reversing out of parking spaces and warns of potential collisions with intersecting traffic in situations where it is difficult to see everything around them. In combination with option code 3AG 'Rear view camera', the Crossing-traffic warning rear is extended by an additional real-image display.			
- Prevention of rear collision: detects the threat of rear collisions via rear sensors and warns the traffic behind via the hazard warning lights (flashing in double frequency). Preventive measures will also be taken in unavoidable accident situations (e.g. belt tensioning, closing windows, etc.).			
- Speed Limit Info and no-overtaking indicator			
Please note: the system scopes contained in the option code only provide assistance within defined system limits. It remains the responsibility of the respective driver to react to the actual traffic situation.

Optional Equipment

BMW 530e iPerformance =optionally available =standard equipment - =not available price (incl. VAT at 20%) 530e SE iPerformance 530e M Sport iPerformance tail **Driving Assistant Plus** £2,250.00 mera and radar-based driver assistance system consisting of: Active cruise control with Stop&Go function: see contents of option code 5DF 'Active cruise control with Stop & Go function'. Steering and lane control assistant: Supports the driver in keeping to the middle of the lane by means of comfortable corrective steering interventions in the speed range up to 130 mph and also in nonotonous situations (Traffic jam assistant). The function can be overridden by the driver at any time. Lane change assistant: assistance for comfortable and automatic lane changing in a speed range of between 43-80 mph via a long press of the indicator Only available for cars built from WK 27, July 2017 - Lane keeping assistant with active side collision protection: assists the driver in keeping in lane and actively preventing potential side collisions by means of comfortable corrective steering interventions in the speed range of 43 mph to 130 mph. (Restricted function in the speed range of 18 mph to 43 mph: warning via a single steering impulse in the opposite direction). Crossing traffic warning front: supports the driver when entering intersecting traffic and warns of potential collisions in traffic situations where It is difficult for them to see everything around them. - Evasion aid: Assistance in critical approach situations when evading is still possible. At the request of the driver, steering assistance is activated when driving past other vehicles. - Crossroads warning: comprises two partial functions: warning in priority situations and at stop signs. Additional steering warning of crossing traffic in a speed range of up to 52 mph (visual advance warning and acoustic warning). Wrong-way warning: detection of "no entry" signs with visual and acoustic driver warning. Please note: the system scopes contained in the option code only provide assistance within defined system limits. It remains the responsibility of the respective driver to react to the actual traffic situation. Not with 5DF £965.00 Active cruise control with Stop&Go function - Camera- and radar-based driver assistance system which enables the vehicle's speed to be set in the range from approx. 18 mph to 130 mph and the speed-dependent distance to be maintained from the vehicle shead can then be set in any of 4 selectable stages.

- Approach control warning warns of collision with a vehicle shead at approx. 15 km/h or higher speeds, preconditioning of the brakes for faster response and shorter braking distances.

- In addition to vehicles driving shead, stopped vehicles can also be detected, with automatic light braking of the vehicle if there is a risk of collision,

- The stop & go function makes it possible to automatically maintain queue speed and distance in stop-and-go traffic and in traffic jams, right down to complete standstill.

- Speed Limit flor and no-overtaking indicator

- Speed Limit Assist: predictive detection of speed limits. - 3AG - Rear view camera
- Parking assistant: calculation of the optimum line to be followed for parking and automatic parking (steering, acceleration, braking and gear selection in the case of vehicles with automatic transmission) into parallel and lateral parking spaces. Parking sspace size measurement via ultrasonic sensors. Activation in selector lever position "R" or manually via button at speeds below 21 mph.
The parking space search is shown on the Control Display. The function can be overridden by the driver at any time to the park bistance Control for braking assistance when reversing into a parking space (up to 3 mph). Including lateral parking aid: the system takes note of obstructions when driving past and takes these into account when parking (additionally: display of lateral obstructions in the Control Display). Please note: the system scopes contained in the option code only provide assistance within defined system limits. It remains the responsibility of the respective driver to react to the actual traffic Source Tearing Assistant
Surround View, offers the camera-based functions Top View, Panorama View and 3D View. Cameras at the front and in the exterior mirrors provide a 360° view around the vehicle. Panorama View ont and rear makes it more safe to approach junctions and exits. It shows the situation to the right and left of the vehicle on the Control Display. Automatic activation is possible via the storage of Remote 3D View: transfer of static images from 3D View to mobile terminal devices via the mobile phone network (only in combination with 6AP 'Remote Services'). Please note: the system scopes contained in the option code only provide assistance within defined system limits. It remains the responsibility of the respective driver to react to the actual traffic In combination with ZGM
Only with 4T8
Remote Control Parking £800.00 £395.00 For use in parking spaces where the vehicle is difficult for the driver and occupants to access. The vehicle can be automatically parked into and out of lateral parking spaces by activating the function "Remote Control Parking" on the BMW display key. The driver is outside the vehicle during the parking process. The position of the vehicle to the longitudinal axis of the parking space can deviate very slightly. Activation of the function is possible up to max. 5 % downhill / uphill gradients. Only with 322, 3DS, 5DN Head-Up Display £995.00 Full-colour projection of information relevant to driving and specific to the situation onto the windscreen, with automatic brightness control, 3D graphics for junction view (realistic display of turns and junctions). User-friendly adjustment possible via the iDrive Controller. Large-scale display with 7" x 3" opening angle and a throw of approx 2.3m. Navigation information in different display modes Country-specific display of traffic signs in the relevant colours (subject to optional equipment) Information from BMW Night Vision and driver assistance systems (subject to optional equipment)
Situational display of entertainment and communication lists (two-line list display)
Display of Driving Experience Control modes (via coloured highlighting) Display of BMW EfficientDynamics functional contents Check control messages with 3D graphics Note - Display of full content is dependent on optional equipment ordered £1,595.00 An infra-red night vision system that enables pedestrians to be seen more readily in poor-visibility situations. Images of objects identified as pedestrians are highlighted by a yellow warning symbol on the control display and optional Head-up Display. In critical situations an acute-approach warning with red warning symbol will appear and an acoustic warning will sound, including a warning without an image and preconditioning of the brakes. Seats entilation of driver and front passenger seat bse and backrest via perforated leather Not with 481 Comfort seats, front £1,705.00 electrical adjustment of fore & aft position, height, tilt, recline and head restraints' heigh Adjustment of back-rest width, thigh-rest, head section of back-rest and Comfort headrests with manual side adjustmen Includes lumbar support and two programmable memory positions for driver's and front passenger's seat, steering wheel and position of door mirrors. Includes automatic dipping of passenger door mirror upon selecting reverse gear, for kerbside parking. £1,000.00 Seat adjustment, electric, with memory Electric adjustment of all seat parameters, and electric adjustment of steering column. Memory function for driver's seat includes the setting of the exterior door mirrors. Includes automatic dipping of passenger door mirror upon selecting reverse gear, for kerbside parking. Included in 456 £335.00 Through-loading system 40/20/40 backrest solit (all indications viewed in direction of travel): Right 40% seat section individually foldable - right 40% seat section individually foldable - Middle 20% seat section individually foldable - Left 40% seat section and middle 20% section only foldable together 40/20/40 backrest split (all indications viewed in direction of travel) Middle 20% seat section individually foldable Left 40% seat section and middle 20% section only foldable together Additional side supports help ensure optimum lateral support when cornering. Seats feature electric adjustment for seat height, backrest angle adjustment and seat tilt. Manual adjustment for fore-aft position, thinh support and headrest. Not with 4T7, LCCY

Allows for reception of Digital TV (DVB-T) function to Control Display.			
The latest generation of high-end multi-media interface (MMI) utilises a new Intel processor for 'fast start' processing speeds, screen loads and page transitions. Operation by choice of direct-selection short cut keys, 8 programmable Favourite buttons, Touch Control, Voice Control or iDrive. Available in conjunction with BMW Gesture Control (6U8). The new Professional media system includes a new interface with a 3D and touch based control concept allowing different inputs to suit different menu functions and driver preferences. The home screen can now be tailored with three live tities shown on the screen that can be moved left and right to personalise the menu structure, the remaining three tiles are shown on a second screen accessed with a swipe left or right between the tiles. Live information from the Navigation, Communication, Vehicle Status, Media and other menus is displayed within the relevant tile on the homescreen. This system includes the latest generation iDrive Touch Controller with a touch sensitive pad located on the rotary dial which allows written character entry that includes telephone numbers and address information. Fixed 10.25" widescreen display with 1440 x 540-pixel resolution. Hard disc drive (HDD) system with integrated Owner's Handbook, electronic service booklet and BMW Service history as well as 20 GB memory available for uploading and storing data such as audio flines. Split-screen viewing allows parallel display of information with extended contents available including BMW Online 'widgets' such as a digital clock, weather and news. New split screen functionality allows several tems to be placed in the split screen at the same time and it is possible to switch between these. Includes functionality of BMW Professional Radio with single CD player (with MP3 and DVD playback capability) and double tuner supporting RDS/TMC data. Route planning by individually defined criteria including ECO PRO route and Online Route calculations. Intelligent Route-shead Assistance informs the driv	•	•	Std
Integrated toolbars and pie menus allow access to various functions without having to deviate from the map screen. On-board computer adds extended functionality including distance from destination and estimated time of arrival. This latest version of the BMW Professional media system now features Micro City mapping with detailed visualisations including realistic road widths, 3D bridges and tunnels, a consistent 3D city visualisation. Quick access toolbar organises frequently used applications automatically based on recent use in the vehicle to allow quick access to comonly used menus.and features. Additional information: - Navigation data is loaded into the navigation unit when the vehicle is delivered. - Update for the navigation map data 3 years licence free worldwide from BMW Retailer. - Update for maygation map data Over the Air (OtA): 3 years automatic map update free of charge for up to 4x per year for a single selected country. - Predictive shift strategy uses navigation information to look to the road ahead to select the correct gear and avoid unnecessary changes in gear through a series of corners. - Features 4G connectivity

BMW Emergency Call Provides a direct link to the 999 emergency services. A manual or automatic call can be deployed from the vehicle to establish a voice call connection to the UK based emergency services centre and sends additional data including the vehicle's current location. All calls are sent via the built-in vehicle telematics system (PSIM) and require no pairing of a mobile phone.	•	•	Std
Available and active for the lifetime of the vehicle. BMW TeleServices Offers a range of telematic services that provide support and notification of the technical condition of the vehicle. Services include Automatic Service Call (ASC), TeleServices Breakdown Call (B-call), TeleServices Report (TSR), TeleServices Battery Guard (TSBG) and Teleservices Update (TSU). For specific information on these services please contact your Aftersales Service centre	•	•	Std
Available and active for the lifetime of the vehicle. eDrive Services Enables the use of eDrive services that are exclusively offered to plug-in hybrid vehicles. This includes the search and display of charging stations, the display of range and charging status' both in the head unit and on the BMW ConnectedDrive app and the ConnectedDrive portal. The charging timer and charge preconditioning is also included. Also features the full functionality of BMW Remote Services (see option 6AP) for the lifetime of the vehicle – includes remote lock/unlock, headlight flash, vehicle finder and destination send to car. The eDrive services have a runtime of five years.	•	•	Std

BMW Online Services Access to a WAP based BMW Online portal to view a wide range of general and location-based information services. These include the latest news and sports headlines, a five-day weather forecast	•	•	Std
and live POI searches via Online Search. The in-vehicle BMW Application store offers a choice of apps that can be managed individually to build a personalised portfolio including Wiki Local, BMW Routes and Qype. Further personalised content includes My News and Online Office for access to a personal email account in the vehicle (these require configuration in the ConnectedDrive portal). Also includes BMW Apps interface in combination with option 609 – BMW Navigation system Professional. BMW Apps enables Apple device applications to be seamlessly integrated into the vehicle Control Display including Twitter, Web Radio and an ECO PRO Analyser tool. Note: a specific snap-in-adaptor is required to use BMW Apps; please check EPC (Electronic Parts Catalogue) for more information. BMW Online Services are initially available for three years and can then be extended or renewed. BMW Apps is available and active for the lifetime of the vehicle and requires the free BMW Connected app to be installed on the Apple device.			
Real Time Traffic Information	•	•	Std
RTTI provides enhanced traffic data over TMC by combining information from a significant number of sources and broadcasting over the GSM network via the embedded telematic system (PSIM), to accurately present the current traffic situation in real time. Traffic flows are displayed on the Navigation map using a colour coding scheme and the data is automatically updated every three minutes. Intelligent route guidance actively monitors time efficient alternatives and recommends for or against potential detours. Real Time Traffic Information is initially available for three years and can then be extended or renewed.			
Concierge service	0	0	£200.00
A telematic call service that provides access to the BMW Customer Information Centre 24 hours a day, 7 days a week. A trained team of agents can discuss a variety of enquiries and provide location-based information, POI information, addresses and telephone numbers can be sent to the vehicle which can be transferred into the Navigation system. All calls and data transfer is via the embedded telematic system (PSIM) and do not require a Bluetooth paired device. Concierge service is initially available for three years and can then be extended or renewed.			
Remote Services	-	-	260.00
Remote control of specific vehicle functions. Services can be performed upon request to the BMW Customer Information Centre or actioned via a smartphone with the My BMW Remote app - Remote lock/unlock Vehicle Finder (within a 1500m radius of the vehicle) Remote headlight flash Google Local Search and send to car. Available and active for the lifetime of the vehicle but requires configuration in the user's ConnectedDrive portal.			
Microsoft Exchange email	0	0	£150.00
Support for Office 365 email accounts. Available with a three year subscription from date of production and enables access to Microsoft Office 365 emails via Microsoft Exchange. Access to emails will depend upon the security settings of the company, this can be checked on the following website and should be checked prior to ordering. Apple CarPlay preparation	0	0	£235.00
- Enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay® - Smartphone content such as music, messages / SMS, telephony, selected third-party apps and navigation from your iPhone® can be therefore be displayed and operated via the user interface of the vehicle. Please note that functions using a data connection will use the SIM card in the iPhone® and additional data charges may be applied by the mobile network operator. - The compatibility and functional scope of your iPhone® with Apple CarPlay® depends on the model year of the iPhone® and the version of software installed on it and must be enquired about with the mobile phone manufacturer. - If you use Apple CarPlay ® preparation, selected vehicle data is transferred to your iPhone. Further data processing is the responsibility of the mobile phone manufacturer or 3rd party app provider. - The mobile phone manufacturer is responsible for all contents and functions displayed in the vehicle via Apple CarPlay® preparation. For details on the available apps that can be used via Apple CarPlay® preparation please visit http://www.apple.com/ios/carplay/ Connect your compatible device to use Apple CarPlay® go to the 'Manage mobile devices' menu on the iDrive and then connect to 'Apple CarPlay'. On your iPhone® go to the 'Settings' menu, 'Ceneral' and then into 'CarPlay'.			2000
Bowers & Wilkins Diamond surround sound system	0	0	£3,750.00
Fully active 10-channel amplifier with 1400W output and 16 speakers. 16-speaker system comprising: - 1 centre midrange speaker in the middle of the instrument panel (illuminated Bowers & Wilkins designation) - 1 centre diamond tweeter in the middle of the instrument panel (Nautillus ^{1M} spiral technology) - 2 midrange speakers in the front door trims (illuminated, Kevlar® technology) - 2 diamond tweeters in the mirror triangles (illuminated, Nautillus ^{1M} spiral technology) - 2 midrange speakers in the rear door trims (illuminated, Kevlar® technology) - 2 tweeters in the rear door trims - 2 midrange speakers in rear parcel shelf G30 / in headliner G31 - 2 tweeters in rear parcel shelf G30 / in headliner G31 - 2 tweeters in rear parcel shelf G30 / in headliner G31 - 2 central bass speakers underneath the front seats (Rohacell® technology) Quantum Logic Surround with 7-band equaliser (Dynamic Sound Equalising) and three analogue crossover networks for a constant sound quality in all seats. Choice of five sound settings: - "Studio": undistorted, like the original recording in the sound studio - "Concert": impressive sound setting, like the music experience in a large concert hall "On Stage": extended surround sound, like on the stage amid the music "Cinema": optimised for movie playback, sound distribution like at the cinema - "Lounge": optimised for rear passengers, direct sound at the rear seats			
Stainless steel finishers with 'Fibonacci' hole pattern design with an optimum degree of efficiency for a pure sound experience. In combination with ZMS		0	£2,855.00
Rear-seat entertainment Experience	0	0	£1,995.00
2 tiltable independent high resolution 10.2" screens in the rear, with Blu-Ray drive. Operation via remote control. Separate connection options, such as HDMI for games consoles or Apple TV, MHL (Wired Mobile High-Definition Link) for mobile devices (smartphone, tablet), USB for MP3 players and for wireless headphones. Rear screens provide access to the vehicle's entertainment functions (e.g. TV, radio, DVD, Blu-Ray), navigation (driver-independent navigation), online (free internet, portal) and telephone. Displays: 1280 x 720 x 24 @ 60 Hz. Price includes two sets of wireless headphones which Retailers must order separately. Please ensure two sets of headphones are ordered under part number 65.12.2.411.282. Only with 575			
Online Entertainment Music on Demand functionality that utilises the built-in vehicle SIM to access the music database of either Deezer or Napster (provider is subject to change without notice). Provides direct and	0	0	£160.00
unlimited access to millions of music tracks without the need for a mobile or MP3 device in the vehicle. Includes subscription to a chosen music partner for one year. An unlimited flat rate data allowance in the vehicle supports the streaming of music as well the ability to download to the vehicle hard drive for use offline. The cloud-based services of the music partners also allow for convenient access to the music library via external internet-enabled devices so music playback is not restricted to the vehicle. The subscription redeemed with this option can be used on a limited number of devices (including the vehicle), allowing the customer to create a playlist at home and have this same playlist available to stream in the vehicle.			
Includes Connected Music, assisting with song identification whilst listening to the radio.			
For more information on each of the current music providers please see www.deezer.com/features or www.napster.co.uk. Hands-free facility with USB interface	•	•	Std
-Wireless telephony / audio streaming connection for compatible Bluetooth mobile phones (see www.bmw.com/bluetooth) with the vehicle, including hands-free facility Enables connection via the USB interface of an MP3 player, Apple iPod / iPhone or memory stick for audio file playback on the in-car audio system, operation by equipment-dependent controls
