Experience the ultimate “M Power” with new BMW Driving Experience Days.

- Experience the thrill of the racing line first-hand in the BMW M140i or M240i and M3 or M4.
- BMW M Experience offers guests more track time than ever before.
- Track skills can be critiqued and improved through analysis of Racelogic video data.
- Experience electric with the BMW i8 and test your skills off-road in the BMW X5 in the BMW Range Experience.

BMW has teamed up with Shell V-Power and MSV Track Days to create a new series of high adrenaline driver training and experience packages for 2017. Driving enthusiasts will be able to try their hand at some of the best motor racing circuits across the UK from Brands Hatch in Kent up to Oulton Park in Cheshire.

The new BMW M Experience offers guests more track time than ever before. Activities include, on-track driving where guests can learn how to reduce their track times in the latest models from the BMW M range. A wet handling activity where guests have the opportunity to learn dynamic driving in either the new BMW M140i or M240i and M3 or M4. And as well as hot laps with a professional racing driver, guests also have the opportunity to hone their track skills with Racelogic video data analysis allowing them to critique their drive and improve their technique.

For guests looking for more variation, the BMW Range Experience allows for a combination of track driving with a variety of models including the BMW i8 and off-roading in the BMW X5. Guests can take home their video footage from their laps in the M4 and can also experience the thrills of a high speed hot lap from a professional driver. For a sneak preview of what to expect, watch the 360 degree video here: <https://youtu.be/LK-3QrTMSyg>

Both packages include full BMW hospitality with lunch and breakfast or afternoon tea dependant on session.
