THE NEW BMW 4 SERIES GRAN COUPÉ.

The dynamic character of the new BMW 4 Series Gran Coupé is clear at first glance. The elegantly sweeping roof line and four frameless doors underscore the coupé aesthetic, while the kidney grille and standard LED headlights demonstrate the vehicle's athletic presence. The choice of SE, Sport or M Sport allows you to personalise your BMW 4 Series Gran Coupé in exactly the way you wish, with exterior and interior elements to complement the already extensive standard equipment.

To keep you connected with the outside world and enhance the functionality of your Ultimate Driving Machine; BMW Online Services and Real Time Traffic Information are now standard. Furthermore, with BMW Professional Navigation System standard on M Sport models, and BMW Navigation System standard on SE and Sport, you can be fully informed and entertained from within the comfort of the new BMW 4 Series Gran Coupé.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW and could lower your fuel and tax costs, as well as ensure a lower benefit-in-kind tax rating for company car drivers. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against any BMW 4 Series model at www.bmw.co.uk/EfficientDynamics

- Windscreen with grey shade band

4 Series Gran Coupé

RRP from £32,615 inc. VAT

The new BMW 4 Series Gran Coupé SE model shown above.

BMW INDIVIDUAL. THE EXPRESSION OF PERSONALITY.

The higher your standards, the less room there is for compromise. For drivers with the most exacting standards, BMW Individual offers a range of stunning and perfectly-crafted materials to ensure that the expression of personality has never felt so effortless.

A BMW Individual paint finish is more than just a colour, each has its own characteristic brilliance and complexity. Five layers deep, the depth of colour is more sophisticated than the regular paintworks thanks to a special pigmentation. A variety of metallic, Xirallic or Frozen finishes create numerous intense effects and a unique iridescence. Inside, the level of exclusivity can be continued with a variety of hand-picked interior trims which perfectly compliment the choice of supple BMW Individual Merino leather.

Meticulous selection of raw hides ensures this upholstery remains porous, breathable and soft, whilst the leather shades perfectly match the BMW Individual paints. Furthermore, for those customers with a desire for a truly made-to-measure vehicle, BMW Individual offers an exclusive service to enable customers to tailor their vehicle to a bespoke design by using a range of premium materials.

OPTIONAL EQUIPMENT HIGHLIGHTS.

M SPORT PLUS PACKAGE.

The new M Sport Plus package enhances driving dynamics with the combination of BMW advanced technology and M Sport performance options.

- 19" M Double-spoke style 704 M wheels, Bicolour Orbit Grey
- M Sport braking system with brake calipers painted in Blue with M badge
- Loudspeaker system – harman/kardon with 600W amplifier and sixteen loudspeakers for a unique sound experience
- Sun protection glass – dark tinted glass for rear side windows and rear windscreen
- High-beam assistant automatically switches between low and high-beam depending on traffic and light conditions

See page 19

MEDIA PACKAGE – BMW PROFESSIONAL PLUS.

This new media package combines the latest generation Professional Navigation system with the full range of ConnectedDrive Services, including Online Entertainment and Head-up Display.

- The most advanced Navigation system that BMW has ever offered includes a brand new operating system, faster loading and a higher resolution display
- Enjoy the full range of BMW ConnectedDrive Services with over the air map updates using 3G connectivity
- Benefit from full-colour Head-up Display and intuitive iDrive Touch Controller

See page 19

BMW ICON ADAPTIVE LED HEADLIGHTS.

Full white LED Headlights ensure the closest resemblance to day light and provide a unique and distinctive character. Includes automatic height adjustment and four white LED corona rings used for Daytime Driving Lights with a new hexagonal 'Icon' light design.

- BMW Icon Adaptive LED Headlights includes High-beam Assistant which automatically switches between low and high beam when there is oncoming traffic / changing light conditions
- Includes LED front indicators and Adaptive Headlights which improves visibility by following steering angle of the front wheels
- Fully autonomous system works at various speeds and light conditions so you can relax and focus on the road ahead

See page 21

DRIVER COMFORT PACKAGE.

Offers a more relaxed driving experience in all traffic conditions and includes day-to-day convenient features.

- Comfort Access allows keyless access to the vehicle, as well as handle-area lighting in the outside door handles, front and rear
- Exterior mirrors – electrically folding with anti-dazzle combined with Comfort access allows folding of the exterior mirrors by holding the lock button on the remote key
- For greater convenience there is also electric seat adjustment in the front and extended storage features throughout your BMW

See page 17

The new BMW Connected App.

Your personal mobility assistant.

The BMW Connected app learns your mobility routines, reads your calendar and knows when you need to leave, providing customers with a personal experience that is integrated into their everyday life. The app will allow customers to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

Learned destinations

BMW Connected learns your most frequently travelled routes and provides them as 'learned destinations' for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

Amazon Echo

BMW Connected skill now available for the Amazon Echo. Lock your BMW by simply asking, check the status of your car or when to leave for your next meeting without lifting a finger.

amazon echo

Remote Services

Stay in touch with your BMW where ever you are. You can perform online searches powered by Google™, find your vehicle location and lock & unlock your doors.^{1,2,3}

Estimated time of arrival

Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

Door to door guidance

Get detailed walking directions from your parking spot to your destination. A map with a location pin also shows where you last parked once you're ready to head back to your car.

Time to leave

A notification on your Apple iPhone®, compatible Android phone, your Apple Watch® or Samsung Gear S3® watch will recommend a time to leave in order to arrive on time.

For more information, go to
www.bmw.co.uk/getconnected

BMW ConnectedDrive.

In touch with your world.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day – whenever you want.

Real Time Traffic Information (RTTI)

provides a precise account of current traffic in real time. The information is presented on the Navigation map using colourful visualisation of traffic status, with diversion recommendations based on the current traffic situation.⁴

Concierge Service is a personal telematic call service that connects you to a BMW operator, who will be able to quickly access the information you need 7 days a week, 24 hours a day.⁴

Apple CarPlay preparation

Enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®. Selected smartphone content can be displayed and operated via the user interface of the vehicle.

Emergency Call

is standard for every new BMW. With either the manual or the automatic emergency call, details of your vehicle and location will be sent directly to an Emergency Service Centre.¹

Online Entertainment uses a built-in vehicle SIM to access a library of over 40 million songs with either Deezer or Napster. Now includes 'Connected Music', assisting with song identification whilst listening to the radio. The option includes a 12 month subscription.^{3, 5}

Microsoft Office Exchange Mail

allows you to work productively in your BMW on your commute. Allowing emails, contacts and calendar entries to be constantly synced with other end devices and worked on directly.

Key

¹ = Available and active for the lifetime of the vehicle. ² = GPS Tracking in iDrive Settings menu must be activated. Not all features are available on all models. Please consult your local BMW Retailer for full details. ³ = Only available with ZIN / ZNO / ZNP. ⁴ = Active for 3 years, renewable thereafter. ⁵ = Screen display may vary on different models.

VED rates

Annual VED (second year onwards) is £450 for cars costing over £40,000 and is payable for five years.
VED rates for brand new cars are determined by their CO₂ emissions figure.
First year VED applies to the first year of ownership. Annual VED rates apply thereafter.
The new BMW 4 Series Gran Coupé models fall into one of the four categories listed below:

CO ₂ emissions (g/km)	Band F 101-110	Band G 111-120	Band H 121-130	Band I 131-140
First year VED	£140	£160	£200	£500
Annual VED (second year onwards)	£140	£140	£140	£140

On the road price

The recommended on the road price includes:

Delivery and BMW Emergency Service	£700
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

Key

Figures in () apply to cars with automatic transmission. Insurance group figures refer to 50 Group Rating System. ¹ = BIK tax rate and VED band dependent on chosen optional equipment.

BMW CONNECTED DRIVE SERVICES.

1. General information

Bayerische Motoren Werke Aktiengesellschaft, Petuelring 130, 80788 München, headquartered in Munich and registered in the Commercial Register at the local court of Munich under HRB 42243 (hereinafter referred to as "BMW") provides the customer with certain vehicle-related information and assistance functions (hereinafter called "Services") under the name of "BMW ConnectedDrive". BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the following description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle. Charges for the speech and data connections are included in the price for the Services.

2. BMW ConnectedDrive basic Services

The BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) are activated at the point of vehicle production.

a. TeleServices (6AE)

The "TeleServices" Service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle's technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data shall be forwarded to the responsible service partner, BMW Mobile Care or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. On occasion technical data shall be transferred from the vehicle to BMW where it shall be evaluated to aid the further development of BMW products. This is known as the "TeleService Report". This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the "TeleService Report". The "TeleService Battery Guard" continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by SMS message or email, for example if the parking lights, side lights or hazards are left on.

b. BMW Emergency Call (6AC)

The vehicle's identification and location is required for the use of the "BMW Emergency Call", and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user's request and the data required may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. Additionally, for the purpose of warning other road users, certain completely anonymous environment-related information are being used for traffic information and therefore forwarded to a service provider. No additional transfer of the data to third parties takes place.

c. BMW Roadside Assistance

The Service "BMW Roadside Assistance" can be triggered manually by the customer in the event of a technical fault. In addition to the current position of the vehicle, the vehicle identification number, colour and model of the vehicle are also transferred to the Mobile Service of BMW during this process.

The data is transmitted to the service provider commissioned by BMW to perform the Services, who uses this data for the purposes of managing the service provision and stores this until the operations have been duly processed. No additional transfer of the data to third parties takes place.

Additionally, for the purpose of warning in order to other road users, certain completely anonymous environment-related information are being used for traffic information and therefore forwarded to a service provider. No additional transfer of the data to third parties takes place.

d. BMW Customer Hotline

The Service "BMW Customer Hotline" connects the customer with an employee of BMW customer service. No vehicle or customer data is transmitted during this process.

e. Automatic Map Update (depending on the vehicle equipment)

The "Automatic Map Update" service automatically updates the map data stored in the BMW navigation system of the home country up to four times a year. The service runs for a period of three years from the initial registration of the vehicle. The customer may terminate the service by giving six weeks' notice in writing to bmwconnecteddrive@bmwfin.com. Via "My BMW ConnectedDrive" at www.bmw-connecteddrive.co.uk the customer can renew the service at a charge after they have expired. In order to use the service "Automatic Map Update" the vehicle's identification and localization during the update process are prerequisite.

f. Interconnection of the vehicle with portals and apps (depending on the vehicle equipment)

The Service "Interconnection of the vehicle with portals and apps" transmits vehicle data (e.g. vehicle position, service information, range etc.) upon relevant changes of the vehicle's state (e.g. start of drive, end of drive, locking etc.) from the vehicle to BMW. This data serves to display the geographic vehicle position, the route to the vehicle and further vehicle condition information in BMW apps and BMW customer portals. The BMW apps are available for iPhone® in the Apple App Store™ and for Android™ in Google Play™. Further information – including that on data processing – can be viewed prior to installation of the app.

g. Anonymous evaluation of sensor data and usage information for data quality enhancements and product development

Sensors in the vehicle are used to collect information from within the vehicle and the surrounding environment such as traffic information, road signs and mapping information for the purpose of creating anonymous usage statistics, enhancing the quality of information services and product development. For example information on localised hazards such as fog are being used to enhance data quality of traffic information and to avoid accidents.

This vehicle sensor data includes information about traffic signs, traffic lights, roadworks, local hazards, traffic flow, road characteristics, parking locations, or onboard vehicle system errors. This information is supplemented where required with additional information such as time and location references, and the vehicle status. This information is evaluated within the vehicle, then transferred to BMW. This information is anonymised immediately when received by BMW. This data is also used

The transmission of vehicle sensor data to BMW is activated by default. However, a customer can freely configure the categories of information (e.g., information about the traffic infrastructure) in the data privacy menu of a vehicle for which the transmission to BMW shall be allowed. The transmission of vehicle sensor data can also be deactivated completely by a customer. Additionally, the data privacy menu of a vehicle provides detailed information about what the categories of vehicle sensor data are evaluated and what information is being transferred. The submission of usage information is deactivated by default, but the user can activate and configure the submission of usage information in the data privacy menu of the vehicle. Users who activate the submission of usage information are helping BMW to further enhance the quality of its products and services.

3. BMW Online Services (6AK)

The "BMW Online" (6AK) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The vehicle's identification is required for the use of the Service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

The "Interconnection of the vehicle with portals and apps" is extended with vehicle status related information (e.g. information on charging events that are transmitted additionally upon relevant changes of the vehicle's state such as start of charging, end of charging, charging interruption, charging error) as well as fuel level etc.

4. Concierge service (6AN)

The "Concierge service" (also referred to as "Information Plus") (6AN) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

To use the Service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle's identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the Service – in that case, this data shall only be used to help process the provision of the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

5. Real Time Traffic Information (6AM)

The "Real Time Traffic Information" (6AM) Service is activated for 36 months from the completion of the vehicle construction plus an additional 30 days for transport (or plus 90 days for X3, X4, X5 and X6 models which are built in the United States). The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the Service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a "mobile traffic reporter" (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

6. Remote Services (6AP)

Use of the "Remote Services" (6AP) via the "My BMW Remote" smartphone application requires registration in the BMW ConnectedDrive Customer Portal www.bmw-connecteddrive.co.uk.

Using this Service, the customer can lock or unlock his/her vehicle from a distance via smartphone and, in the case of selected vehicles, flash the lights. On request of the customer, vehicle condition information such as the geographic vehicle position are transmitted from the vehicle to BMW. Furthermore, with the special equipment option of auxiliary heating, the customer can also programme the heating periods. The "My Remote App" app is available for iPhone® in the Apple App Store™ and for Android™ in Google Play™. Further information – including that on data processing – can be viewed prior to installation of the app.

7. Online Entertainment (6FV)

The "Online Entertainment" (6FV) Service is valid for a period of one year from activation in the vehicle. Upon purchase of this Service, a voucher is provided which is redeemable within three years of the vehicle's first registration and enables a 12 month subscription with a chosen BMW music provider. During the subscription period no data quantity restrictions apply and the subscription is accessible on third party applications which are supported by the music provider. From point of production there are 36 months in which to redeem the 12 month subscription with the chosen provider.

Renewal of the annual subscription must be done via www.bmw-connecteddrive.co.uk.

8. eDrive Services (6AG) – BMW iPerformance models only

"eDrive Services" comprises functions that are displayed to the driver in the vehicle, in BMW Apps and in the BMW customer portals. The service supports the driver with information relevant to electro-mobility.

The "Interconnection of the vehicle with portals and apps" [1.f] mentioned in this document will be extended with electromobility-related information (e.g. information on charging events that are transmitted additionally upon relevant changes of the vehicle's state such as start of charging, end of charging, charging interruption, charging error).

The service serves among others to verify and evaluate the quality of the charging stations. For this purpose, location information as well as charging process information is sent to BMW. Verified and evaluated charging stations are displayed to the customer in the navigation system, BMW Online, BMW Apps and BMW customer portals. Furthermore, possible locations for new charging stations or locations can be identified.

The "Efficiency" service utilises vehicle condition information to calculate driving performance indices which are displayed in BMW Apps and in BMW customer portals.

9. Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

"BMW Emergency Call" (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, San Marino, Vatican, France, Monaco, Switzerland, Liechtenstein, Belgium, Luxembourg, the Netherlands, Ireland, Spain, Andorra, Portugal, Sweden, Norway, Czech Republic, Poland, Turkey and Russia "TeleServices" (6AE), "Concierge service" (6AN), "Remote Services" (6AP) and "BMW Online" (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. "Real Time Traffic Information" (6AM) is available in United Kingdom, Germany, Austria, Italy, France, the Netherlands, Switzerland, Belgium, Republic of Ireland, Spain, Portugal, Sweden and Norway. The "Internet" (6AR) service is only available in United Kingdom. "Online Entertainment" (6FV) is available in United Kingdom, Germany, France, Italy, Spain and the Netherlands.

10. Deactivation

The customer may have the BMW ConnectedDrive basic Services "TeleServices" (6AE) and "BMW Emergency Call" (6AC) deactivated at any time at an authorised BMW Centre, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. **This results in the Emergency Call in the vehicle also not functioning.** The other Services can also be deactivated by the customer (from August 2014) via the BMW ConnectedDrive Customer Portal ("My BMW ConnectedDrive").

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see: www.bmw.co.uk/connecteddrive-information.

The BMW ConnectedDrive Hotline is available on: +44 (0) 800 561 0555 from Monday to Sunday, 9:00 – 18:00.
