

THE ALL NEW BMW X3.

X3

BMW (UK) Limited. November 2017.

THE ALL NEW BMW X3.

NOW IN IT'S THIRD GENERATION.

**First Gen
2003 - 2010**

615,000 units

**Second Gen
2010 - 2017**

936,000 units

**Third Gen
2017 onwards**

1,600,000 units

- X3 will be around 12% of total BMW volume in 2019.

THE ALL NEW BMW X3.

PART OF AN EXPANDING CHOICE OF BMW X VEHICLES.

CONCEPT

THE ALL NEW BMW X3.
EXTERIOR DESIGN.

- Introduction of **Active Air Stream**. Best in class aerodynamics at $C_x=0.29$ (drag coefficient).
- More bold and expressive kidney grills.
- **Horizontal LED fog lights** standard xLine upwards.

- **Short front overhang** and **long wheelbase** for dynamic proportions.
- Introduction of **Air Breather** on the side.
- Strong **horizontal shoulder line**.
- Subtle **hexagonal wheel arches**.
- Muscular flared **rear haunch**.
- Increased wheel diameter means that the wheels fill the arches more clearly.
- Optional 21" wheels (Individual or M40i upgrade).

- “Pulled down” **roof spoiler**.
- **Wider rear window** with tucked-in greenhouse.
- Expressive three-dimensional **LED rear taillights**.
- Now with **split rear tail pipes** which grow with the engine size.

THE ALL NEW BMW X3.

EXTERIOR DESIGN.

- Driver oriented cockpit.
- Smaller **centre console** increases front cabin space.
- **Wireless charging** plate located in front of gear selector – latest **iPhones** now have this technology.
- New steering wheels (**Sport Steering wheel** even on the SE) with improved leather quality and optional galvanic elements.
- Availability of more modern **open pored wood trims**.
- Larger cup holders and now storage for 1L bottles in door pockets.
- **Digital Cockpit** shown in this image – semi digital cluster standard on the M Sport.

- **Vernasca Leather** and a **newly designed sport seat**.
- **Climate Seats** are now available.
- **Galvanized elements** in the door trims.
- **High gloss black trim** as standard on SE raises the interior quality.

- Leathers include **cross stitching** on all xLine and M Sport seats.
- SE limited to Black or Canberra Beige.

THE ALL NEW BMW X3.
BLACK AND FIONA RED MERINO LEATHER.

- Panoramic Sunroof now 25cm longer than F25.
- Acoustic Glazing – windscreen as standard, optional for front side windows.

- Boot volume remains at 550L, identical to the outgoing model.
- Optional **seat back adjustment** allows the rear seats to be angled to maximise space.

- Boot cover now has space to be stored **underneath the folding floor.**
- **Gas spring support** for boot floor.
- **Auto tailgate standard** as with out going F25.

- With seats folded flat, boot capacity increases to 1,600 litres.
- **Seat back release** at the rear of the boot space.
- **40:20:40** rear seat split as standard.

- Can tow up to 2000kg with a braked trailer / caravan.
- Limited to 750kg for an unbraked trailer.
- Fully electric towbar with 13 pin euro socket - £765.

THE ALL NEW BMW X3. DIMENSIONS.

G01 Size – no significant changes vs. F25.

■ BMW G01
■ BMW F25

- Proportions: orientation towards predecessor
- Improved wheel diameter
- Bold and expressive SAV appearance

	F25 LCI	G01
Luggage compartment	550 Litres	550 Litres
Wheel diameter	702	727

THE ALL NEW BMW X3. DIMENSIONS.

X-family proportions.
G01 Size - perfectly sits within X1 and X5.

■ BMW F48 X1
■ BMW G01 X3
■ BMW F15 X5

		▲ 61	▲ 62
Width:	1.820	1.881	1.943

THE ALL NEW BMW X3.

SUSPENSION OPTIONS.

Standard Suspension
M Sport Suspension
Variable Damper Control
Adaptive M Suspension (M40i)

- 50:50 Weight Distribution Maintained.
- Perfect balance between on road and off road capabilities.
- More precise steering and handling.
- M Sport Models (and all 30d) have **Performance Control** – varies torque across rear wheels to reduce under/over steer.
- **M Sport Suspension and steering** modified on M40i to enhance on road driving characteristic.

THE ALL NEW BMW X3.

xDRIVE.

THE ALL NEW BMW X3.

ENHANCED STANDARD SPECIFICATION.

- **Full LED headlights** include adaptive functionality.
- **Ambient Lighting** includes Light Carpet.
- **Active Guard Plus** standard on all cars – AEB (city braking).

THE ALL NEW BMW X3.

ENHANCED STANDARD SPECIFICATION – M40i.

- **Icon headlights** include an eyebrow indicator. This allows the headlights to be moved further to the outside of the car.
- **Sport exhaust** included for the first time.
- Availability of **Performance tyres** for maximum road grip.

THE ALL NEW BMW X3.

NEW AND UPDATED TECHNOLOGY.

- Largest full colour HUD in segment.
- Up to 6 functions available with **Gesture Control** (one programmable)
- **Driving Assistant Plus** includes BMW Copilot – traffic jam assist, cross road assist, lane keeping assist with side collision protection.

5AS Driving Assistant A range of camera-based driver assistance systems that enhance safety and reduce the risk of potential collisions, at both high and low speeds. Systems included in this option are:

- **Lane Departure Warning** for detecting lane markings at speeds above approximately 45mph. If

the car deviates from the lane of travel without the use of indicators, the steering wheel vibrates as an alert. If the indicators are used to signal, the system recognises this as an intentional lane change and the steering wheel will not vibrate.

- **Lane Change Warning** permanently monitors the zones to each side of the vehicle. Detects vehicles in the 'blind spot' when above approx. 6 mph for desired lane change (indicator is activated or stalk is held in 'short on' position), warning via the steering wheel (vibration) and flashing symbol in the exterior mirror.

- **Approach control warning and person warning with city braking function:** gives warning and brakes within a speed range from approx. 6 mph to 37mph (for persons) and up to 50 mph (for vehicles). If an accident cannot be avoided completely, the city braking function helps to reduce the impact speed and hence, the severity of the accident. Approach control warning also warns of potential collision with a vehicle ahead at higher speeds, with preconditioning of the brakes for faster brake response and shorter braking distances. Operation by means of a button in the control unit for driver assistance systems.

- **Crossing-traffic warning rear:** supports the driver, for example, when reversing out of parking spaces and warns of potential collisions with intersecting traffic in situations where it is difficult to see everything around them. In combination

with option code 3AG 'Rear view camera', the Crossing-traffic warning rear is extended by an additional real-image display.

- **Prevention of rear collision:** detects the threat of rear collisions via rear sensors and warns the traffic behind via the hazard warning lights (flashing in double frequency). Preventive measures will also be taken in unavoidable accident situations (e.g. belt tensioning, closing windows, etc.).
- **Speed Limit Info** and no-overtaking indicator

5AT Driving Assistant Plus

Camera and radar-based driver assistance system consisting of:

- **Driving Assistant:** see contents of option code 5AS 'Driving Assistant'.
- **Active cruise control with Stop&Go function:** see contents of option code 5DF 'Active cruise control with Stop & Go function'.
- **Steering and lane control assistant:** Supports the driver in keeping to the middle of the lane by means of comfortable corrective steering interventions in the speed range up to 130 mph and also in monotonous situations (Traffic jam assistant). The function can be overridden by the driver at any time.
- **Lane keeping assistant with active side collision protection:** assists the driver in keeping

in lane and actively preventing potential side collisions by means of comfortable corrective steering interventions in the speed range of 43 mph to 130 mph. (Restricted function in the speed range of 18 mph to 43 mph: warning via a single steering impulse in the opposite direction).

- **Crossing traffic warning front:** supports the driver when entering intersecting traffic and warns of potential collisions in traffic situations where it is difficult for them to see everything around them.

- **Evasion aid:** Assistance in critical approach situations when evading is still possible. At the request of the driver, steering assistance is activated when driving past other vehicles.

- **Crossroads warning:** comprises two partial functions: warning in priority situations and at stop signs. Additional steering warning of crossing traffic in a speed range of up to 52 mph (visual advance warning and acoustic warning).

- **Wrong-way warning:** detection of "no entry" signs with visual and acoustic driver warning.
