5AS	Driving Assistant A range of camera-based driver assistance systems that enhance safety and reduce the risk of potential collisions, at both high and low speeds. Systems included in this option are:	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	£ 390.00
	Lane Departure Warning for detecting lane markings at speeds above approximately 45mph. If the car deviates from the lane of travel without the use of indicators, the steering wheel vibrates as an alert. If the indicators are used to signal, the system recognises this as an intentional lane change and the steering wheel will not vibrate.																	
	Forward Collision Warning operates at speeds above 10 mph and monitors vehicles ahead and warns the driver by an optical and acoustic alert if their approach could escalate into a rear-end collision. At higher speeds over 30 mph an urgent warning also activates brake preconditioning for maximum force.																	
	City Collision Mitigation proactively engages braking automatically for rapid reaction to potential vehicle collisions in driving situations up to 35 mph.																	
	Preventive Pedestrian Protection proactively engages braking automatically for rapid reaction to potential collisions with humans and cyclists in urban driving situations up to 35 mph. The identification of pedestrians and cyclists is only active in daylight.																	
	Attentiveness assistant includes audible warning in cabin and visual warning on iDrive when the system detects that the driver is losing concentration.																	
	The systems within Driving Assistant are not a substitute for the judgement of the driver. The driver should remain in control of the vehicle at all times and these systems are an aid but should not be solely relied upon. Only with 544 and 6WA.																	
	Not with 3AP.		_	Ļ	_	Ļ	_				_		_		_			
5DC	Head restraints, rear and folding Folding head restraints for rear seats. Replacement by removable head restraints for all seats possible if 5DC marked as '100% not required' in IVS / deselected in SA3.	•	•	•	•	ľ	•	•	•	•					•			Standard
5DF	Active Cruise Control (ACC) with Stop&Go function Automatic adjustment of the distance between the car and the vehicle ahead using radar sensors in the front bumper. In stop/start motorway traffic, the system will maintain the distance to the car ahead even if it comes to a complete stop. The distance to the car in front can be adjusted by the driver. Once the traffic ahead clears, the car will return to the pre-set speed, providing that the period the vehicle was stationary was not longer than 3 seconds. Settings selectable by steering-column stalk. Includes additional 'adaptive brake assist' to provide maximum braking power in situations where collisions are likely. Only with 205/2TB and 6WA.										0							£ 790.00
5DP	Park Assist Parking gap size measurement by ultra-sonic sensors assists the driver in parallel and bay parking manoeuvres. The system calculates the optimum line to be followed and controls the steering for the duration of the parking manoeuvre. Activated when reverse gear is selected or via the manual Park Assist button. Results of parking gap search are shown in the Control Display. In combination with 609 Professional Navigation Side parking aid is also added showing obstacles at the side of the vehicle via the Control display screen when activated. Features additional lateral parking assistance has been added to assist the driver further. Only with 508.	0	0	0	0	0	0	0		0	0	0	0	0	0	0	0	£ 255.00
