VAT at 20%)
Transmission																							
2TB	<b>Sport automatic transmission</b>  Dynamic and sporty gear changes via the steering wheel paddles or selector lever. Sport button activates Sport Mode where gear shifts are almost instantaneous in either up or down shifts. Includes Launch control.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
Steering and Chassis																							
255	<b>Sport leather steering wheel, three-spoke</b>  Three spoke multi-function sport leather steering wheel, with controls for media and telephone.	●	-	●	-	●	-	●	-	●	-	-	-	●	-	●	-	●	-	●	-	-	Std
710	<b>M Sport leather steering wheel, three-spoke</b>  M Sport three spoke multi-function leather steering wheel, with controls for media and telephone.	-	●	-	●	-	●	-	●	-	●	●	●	-	●	-	●	-	●	-	●	●	Std
258	<b>Run-flat tyres</b>  Run-flat tyres available and included with select alloy wheels. Please refer to the alloy wheel section below. Where a customer opts for an alloy wheel without run-flat tyres they will receive a tyre repair kit instead.	○	●	○	●	○	●	○	●	○	●	○	●	○	●	○	●	○	●	○	●	●	£0.00
2NH	<b>M Sport braking system</b>  Includes: - Blue painted brake calipers with 'M' designation	-	○	-	○	-	○	-	○	-	○	-	○	-	○	-	○	-	○	-	○	-	Only with: ZMS
2VB	<b>Tyre pressure monitoring</b>  Electronic monitoring system of individual tyre pressure. A warning indicator is automatically activated when tyre pressure loss is 20% or more. System must be initialised after each change in tyre pressure, when pressure in all tyres is correct.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
2VH	<b>Integral Active Steering</b>  A variable-ratio four-wheel steering system that delivers significantly greater manoeuvrability at low and parking speeds with enhanced stability and passenger comfort at higher speeds.	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	●	£1,195.00
2VR	<b>2-axle air suspension</b>  Provides improved comfort, agility and stability by reducing vibration whilst driving and speed dependent adaption of ride height (with automatic self-levelling suspension, manual raising by 20mm up to 35 km/h, automatic lowering by 10mm from 120km/h)  Please note this option will not show in SA3 or IVS as it is series standard.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
2VS	<b>Executive Drive Pro</b>  Enables soft damper settings while enhancing stabilisation. Combines comfortable suspension alignment with dynamic driving characteristics. Includes road preview via stereo camera integrated into the windscreen. The stereo camera detects uneven road surfaces, e.g. speed bumps in the road, and preconditions the suspension accordingly. With the included function of Dynamic Drive (active roll stabilisation), the vehicle's tendency to roll when cornering is reduced. The system is based on active anti-roll bars at the front and rear axles and it is in constant operation when the vehicle is in motion . Coordinated interaction between 2-axle air suspension and Dynamic Damper Control (both standard contents).	○	○	○	○	○	○	○	○	-	-	○	○	○	○	○	○	○	○	-	-	●	£2,450.00
Safety and Technology																							
5AV	<b>Active Guard</b>  contains: Approach control warning with city brake function - warns and brakes in an emergency - Max. Delay: 9m / s² - Speed range: 5-80 km / h - Max. Speed reduction: 45 km / h - recognizes standing goals - above 80 km / h only warning (no braking)  Person warning with city brake function - warns and brakes in an emergency - Max. Delay: 9m / s² - Speed range: 5-65 km/h (change from SP2015 to SP2018) - Max. Speed reduction: 40 km/h (change from SP2015 to SP2018) - recognizes standing goals - The warning of persons from about 80 cm height with upright posture and cyclists is available in the speed range of about 5-85 km/h (change from SP2015 to SP2018)  Please note: The system volumes included in the optional equipment only support within defined system limits. Responsibility and reaction to the real traffic situation remain with the respective	●		●		●		●		●		●		●		●		●		●		●	Std
428	<b>First Aid kit &amp; warning triangle</b>	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
552	<b>BMW Icon adaptive LED headlights</b>  Full 'white' LED headlights for both low and high beam, offering a greater resemblance to daylight. Includes automatic height adjustment, 'white' LED BMW Icon light design used for Daytime Driving Lights and LED front indicators. Featuring Adaptive Headlights, which improve visibility by following the steering angle of the front wheels, providing better illumination of the road ahead through corners. Adaptive Headlights not active when car is reversing or when car is stationary and steering turned to offside, to avoid dazzling oncoming traffic. Additional LED cornering lights improve vision at close range, operated with activation of the direction indicator or with corresponding steering wheel input at a speed up to approximately 35mph.  BMW Selective Beam functionality is supported in combination with High-beam Assistant (option 5AC) to provide an intelligent anti-glare system that provides autonomous control of the left and right headlights and high-beam distribution to optimise illumination of the road ahead without glaring other road users. BMW Selective Beam can vary high and low beam simultaneously to direct the light distribution around other vehicles according to the traffic situation, ensuring unparalleled levels of illumination. For further information please refer to the Technology Hub on LaunchPad.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	-	Std
5AC	<b>High-beam Assistant</b>  Automatic switching on and off of the high-beam headlights depending on the traffic situation, controlled via a sensor on the front side of the interior mirror.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
5AL	<b>Active Protection</b>  Safety package for initiating protective measures for the occupants if an accident situation is imminent - includes: - belt tensioning - automatic closing of windows until there is just a small gap - closure of sliding sunroof, depending on equipment - with comfort seat Positioning of passenger seat and rear seat backrests - automatic braking after crash - including attentiveness assistant  Please note this option will not show in SA3 or IVS as it is series standard.	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Std
5AU	<b>Driving Assistant Professional</b>  Camera/radar-based driver assistance system comprising the following functions:  - Steering and lane control assistant: Helps the driver stay in the middle of the lane by using corrective steering interventions within the 0–210 km/h speed range. This results in relaxed vehicle operation and relieves the driver of monotonous tasks (particularly in heavy traffic). In narrow passages on motorways (e.g. road works), the steering assistance ensures that a proper distance to vehicles at the sides, and lane markings is maintained. The driver is requested to keep both hands on the steering wheel during vehicle guidance to ensure that they are paying attention and able to react if necessary. If this is not complied with the system will be deactivated and the car brought to a controlled stop.  - Automatic Speed Limit Assist: Speed Limit Assist combines Speed Limit Information with active cruise control. It enables the automated, predictive adoption of a detected speed limit into the active cruise control.  - Lane keeping assistant with active side collision protection: Assists the driver in keeping in lane and actively preventing potential side collisions by means of corrective steering interventions within the 70 km/h to 210 km/h speed range (Lane Change Warning and Lane Departure Warning, side collision warning). A visual warning is displayed in addition to the active steering intervention, and the steering wheel vibrates. Applies to Lane Change Warning and Lane Departure Warning from approx. 20 km/h.  - Crossing traffic warning front: Warns of crossing traffic while leaving/entering a parking space as well as while turning into crossing traffic in situations with restricted visibility. Active at up to 7 km/h. Depending on vehicle configuration, information is shown in the camera display (panorama/Surround View) or in the PDC display.  - Evasion aid: Assists in critical approach situations when evading is still possible. Evasion aid is available in the speed range of 30-160 km/h. Reacts to vehicles ahead and pedestrians.  - Crossroads warning with city braking function: Braking assistance with visual/acoustic warning incl. active brake intervention in the event of a potential collision with intersecting traffic. Comprises the partial functions: warning in priority situations and at stop signs. Active at up to 85 km/h.  - Wrong-way warning: Detects "no entry" signs on motorways, at roundabouts and at one-way roads. Issues a visual/acoustic driver warning	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	●	Only with: ZOU
5AZ	<b>Laserlights</b>  Functionality - lighting levels: LED low-beam headlights, LED high-beam headlights with laser module (above 37 mph) - LED position light, LED daytime driving light, LED direction indicator, LED cornering light - adaptive headlights - Incl. BMW Selective Beam, the dazzle-free high-beam assistant from BMW  Technical content - LED for high amount of light and wide illumination - laser module for high-beam headlights increases the light intensity (over 500 m - light emitted from blue high-performance laser diodes is concentrated to white light with high intensity on a small phosphor plate)	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	●	Only with: ZOC

VAT at 20%)			
5DN	<b>Parking Assistant Plus</b>  Camera and ultrasound-based assistance system consisting of parking assistant, reversing assistant, lateral parking aid and rear view camera.  - Parking assistant: Facilitates parking into parallel and lateral parking spaces as well as leaving parking spaces parallel to the road. For this purpose, the system measures potential parking spaces while driving by at speeds below approx. 35 km/h even without prior activation. After displaying the information in the central display and activation by the driver, the parking assistant completely takes over vehicle control by steering, braking and shifting gears. Activation when reverse gear is engaged or transmission position "R" is selected or manually by button at speeds below 35 km/h. The function can be overridden by the driver at any time.  - Reversing Assistant: While driving forward, the function saves the last 50 m of an entry path taken by the driver themselves at a speed of up to 35km/h in order to follow this path while reversing upon request by the driver. This relieves the driver of steering tasks so they can focus entirely on monitoring the surroundings of the vehicle. The driver remains responsible for longitudinal control via accelerator and brakes (speed below 10 km/h) and for monitoring the surroundings of the vehicle to avoid collisions with objects in the vicinity.  - Lateral parking aid: Assists in damage minimisation while manoeuvring. Based on information from the Park Distance Control, the system memorises obstacles while driving past and shows their distance to the vehicle sides in the Control Display.  - Rear view camera: Supports the driver when reversing into a parking space and manoeuvring at speeds below 20 km/h by showing the area in the rear of the vehicle in the control display. The function provides better visibility while reversing. Interactive tracer lines show the vehicle's trajectory. In combination with Park Distance Control, distance information is displayed inside the camera image. A zoom function for the trailer tow hitch facilitates backing up to couple a trailer. The camera is activated by engaging reverse gear.  - Surround View system: offers the camera-based functions Top View, Panorama View and 3D View. Cameras at the front and rear and in the exterior mirrors provide a 360° view around the vehicle including a three-dimensional visualisation. Panorama View front and rear makes it safer to approach intersections and exits. In combination with radar-based monitoring of the area in front of the vehicle, the system warns of crossing traffic. An additional view on the Control Display shows the situation to the right and left of the vehicle. The displayed positioning lines facilitate positioning the vehicle at the stop line. The function is activated by the Panorama View button. Automatic activation is possible via the storage of personal locations. The view towards the front or rear depends on which gear is engaged.  - Remote View 3D: transfer of static images from 3D View to mobile terminal devices via the mobile phone network (only in combination with option code 6AP 'Remote Services'). In surround view, the vehicle and its surroundings can be viewed from any perspective.  - Active Park Distance Control: Prevention or minimisation of damage while reversing into parking spaces with reaction to collision-critical obstacles towards the rear and sides. If the accelerator is depressed and an obstacle is detected, the function brakes slightly to alert the driver (at speeds of up to 5 km/h). If the accelerator is not depressed and the distance to the obstacle is very short, the function applies the maximum possible braking force up to a complete standstill to prevent a collision or minimise the resulting damage.  <b>Please note: the system scopes contained in the optional equipment only provide assistance within defined system limits. It remains the responsibility of the respective driver to react to the actual traffic situation.</b>	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	Standard			
5DV	<b>Remote Control Parking</b>  For use in parking spaces where the vehicle is difficult for the driver and occupants to access. The vehicle can be automatically parked into and out of lateral parking spaces by activating the function "Remote Control Parking" on the BMW display key. The driver is outside the vehicle during the parking process. The position of the vehicle to the longitudinal axis of the parking space can deviate very slightly. Activation of the function is possible up to max. 5 % downhill / uphill gradients. Operation of option code 5DV 'Remote Control Parking' is only possible using the BMW Display key	○	○	○	○	○	○	○	○	-	-	○	○	○	○	○	○	○	○	○	○	○	●	Only with Z0.		
Seats																										
453	<b>Seat ventilation, front</b>  Ventilation of driver and front passenger seats via perforated leather.	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	○	-	Only with ZGK			
		-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	●	Standard

	Exhaust system with characteristic distinctively sporty sound																									
316	<b>Bootlid operation, powered</b>  Automatic bootlid operation via remote control. Closing is carried out by a button on the inside of the bootlid.  Please note this option will not show in SA3 or IVS as it is series standard.																									
322	<b>Comfort Access with smart opener</b>  Consists of: keyless access, welcome light setting from 2.5m, automatic unlocking upon reaching a distance of approx/ 0.5m (whilst approaching), automatic locking upon reaching a distance of 3m (whilst moving away) and contactless opening/closing of rear tailgate.																									
323	<b>Soft-close doors</b>  Motorised latches for all four passenger doors allow silent and effortless closure, and eliminate possibility of incomplete closure.																									
3AC	<b>Towbar, fully electric</b>  Concealed and permanently installed behind the bumper. Released and retracted electrically by means of a button in the luggage compartment. Comes with a 13-pin European electrical socket and adaptor to convert to 7-pin. Additional wiring connectors may be required depending on towing usage (available through Aftersales). Trailer Stability Control is included when this option is specified.									-	-									-	-	-				
3E1	<b>Pure Excellence Exterior Design</b>  The Pure Excellence design package emphasises the presence and luxurious character of the BMW 7 Series. The following exterior features are included: - Front side in chrome with chrome surfaces: - Clasp of top air inlet grille horizontal over vehicle width - Rear decorative bumper moulding incl. additional chrome finisher for tailpipe finishers		-		-		-		-		-		-		-						-	-	-			
4T8	<b>Exterior Mirrors - folding with anti-dazzle</b>  Exterior mirrors with automatic anti-dazzle function to driver's door mirror. Includes exterior mirrors that can fold-in at the touch of a button when parking or manoeuvring and 'kerb-view function' where the passenger door mirror automatically dips when reverse gear is selected.  Please note this option will not show in SA3 or IVS as it is series standard.																									
4U9	<b>eDrive exterior sound</b>  Artificial eDrive sound at low speeds (below approximately 20mph). This sound will be defaulted on when starting the vehicle but can be turned off via the iDrive system.	-	-	-	-	-	-	-	-			-	-	-	-	-	-	-	-				-			
754	<b>M rear spoiler</b>  M Sport rear spoiler bonded to luggage compartment lid.	-		-		-		-		-		-		-		-		-		-						
760	<b>Exterior trim, High-gloss Shadowline</b>  Contents in Black high-gloss: - Decorative mouldings side frame - Window recess cover - B pillar and window guide, rear - Mirror triangle - Exterior mirror frame and mirror cover panel  For M Sport models, decorative moulding at the bottom of front and rear doors, decorative moulding for air breather, exhaust tailpipe finishers as well as embellishers in front and rear bumper trim are finished in Dark Chrome. Insert in rear bumper trim in Dark Shadow metallic. Middle struts on front ornamental grille in Black high-gloss.  <b>Please note in order to have a Chrome trim on M Sport models please untick option 760 in SA3. For IVS ordering please select option 760 in the 100% Not Required. This will remove the exterior trim High-gloss Shadowline and revert to a Chrome finish around the window frames, front lower bumper, air breather, trim side finishers, rear side apron trims and the exhaust finishers.</b>																									
7M9	<b>Exterior trim, extended High-gloss Shadowline</b>  Includes kidney frame, door handle inserts, rear embellisher, and tailpipe finishers in black chrome. Kidney struts in black high-gloss. Note for M760Li xDrive: Mirror caps in body colour Only with 760	-		-		-		-		-		-		-		-		-		-						
Interior Equipment																										
248	<b>Steering-wheel heating</b>  Not with 4HC as part of ZRS & ZRR packages Standard on M760Li xDrive as part of 4HC																					-				
356	<b>Climate Comfort laminated glass</b>  Infrared reflective laminate for the front windscreen, side and rear windows, keeping cabin cooler in direct sunlight and providing enhanced sound insulation.																									
358	<b>Climate Comfort windscreen</b>  Glass reflects infra-red and heat, to reduce temperature build-up within the car.																									
403	<b>Electric glass sunroof</b>  With automatic integral wind deflector, sun protection via heat-reflecting glass and independently-sliding headliner panel. Sliding function slides pane and headliner panel fully back inside roof cavity. One-touch action for both functions via roof mounted switch, and remote closing/opening of sliding feature via car key.																									
407	<b>Sky Lounge panoramic glass sunroof</b>  Panoramic glass sunroof with 15,000 integrated LED light graphics. Illuminated graphic surfaces in the glass provide a colourful light setting. The illuminated patterns placed in the glass roof provide a luxurious interior light ambience. Six predefined colours can be selected as per the ambient light colour setting selected in the iDrive menu. Graphic surfaces barelyvisible in daylight.	-	-	-	-	-	-	-	-	-	-	-	-													
415	<b>Sunblind - rear windscreen, electric</b>  Sunblind for rear windscreen with electric operation.																									
	In combination with 416													-	-	-	-	-	-	-	-	-	-			
416	<b>Sunblinds - rear windscreen and rear side windows, electric</b>  Sunblinds for rear windscreen and rear side windows, all with electric operation. G12 LWB models: Includes Ambient highlight in White for the rear doors (at the front). Light intensity can be controlled via capacitive touch sensor or via light setting in the BMW Touch Command (not included in option code 416).  Only with 415, Sunblind - rear windscreen, electric.													-	-	-	-	-	-	-	-	-	-			
420	<b>Sun protection glass</b>  Darkened glass for rear screen and rear side windows.  (If option 356 is specified, front windows will consist of Climate comfort laminated glass and windows behind B pillar will consist of a combination of Climate comfort laminated glass and Sun protection glass.)																									
465	<b>Through-loading system</b>  Adds a through-loading segment in backrest (dimensions approx. 30 x 20 cm).																									
4NB	<b>Air conditioning, automatic with four-zone control</b>  Fully automatic temperature control with 5 levels of intensity. Controlled by means of separate displays for driver/passenger and rear seat passengers. Includes 2 outlets in B-pillars.																									
4ND	<b>Instrument panel, leather</b>  Instrument panel and upper sections of doors finished in Nappa leather with Contrast stitching.																									
4NM	<b>Ambient Air</b>  Air ionisation and scents for the vehicle interior. Intensity of the scents can be controlled in three stages via iDrive controller or button in the air-conditioning control panel. Image in the Control Display. - Two selectable scent cartridges in the glove compartment in each case, which last about 6 months with average use. - The starter kit contains two scents: Blue Suite No. 1, Golden Suite No. 2. - More scents can be ordered via BMW accessories.																									
4U1	<b>Ceramic finish for controls</b>  Ceramic finish for gear selector lever, iDrive controller, audio and air conditioning controls. Maintains a comfortable temperature even in direct sunlight.																									
4UR	<b>Ambient lighting</b>  with mood lighting designs. Has 6 preconfigured selectable lighting designs with contour and mood lighting in the instrument panel and door upper-arm trim panels. Door sill finishers front and rear with external lighted clasp and BMW designation. Additional functional contents, lighting for front footwells, backrest lighting for front seats, map pockets, lighting for rear footwells, exiting lights.
