| 2VH                          | <b>Integral Active Steering</b><br>A variable-ratio four-wheel steering system that delivers significantly greater manoeuvrability at low and parking speeds with enhanced stability and passenger comfort at higher speeds. Speed-dependent adaptation of the steering angle of front and rear wheels combined with reduced effort applied to steering wheel for more agile handling that is more comfortable when parking.  | ●                  | -           | ●                   | Std<br>£1,750.00                   |
| 2VW                          | <b>Adaptive M Suspension Professional</b><br>Beyond the standard adaptive suspension, the Adaptive M Suspension Professional adds active roll stabilisation system. On bumpy roads the active roll stabilisation is able to uncouple the connection of one axle and ensures a high level of driving comfort. The active roll stabilisation also reduces the lateral inclination of the vehicle body and thereby increases the car's cornering ability significantly. With this option the vehicle is at its most agile.   | ○                  | ○           | ○                   | £1,895.00                          |
| 710                          | <b>M Leather steering wheel</b><br>The M leather steering wheel incl. multifunction (e.g. operation of radio, telephone and cruise control), gearshift paddles and M badge in sporty 3-spoke design. The steering wheel rim in leather 'Walknappa' black with shaped thumb rests ensures a sporty and direct steering feel.   | ●                  | ●           | ●                   | Std                                |
| <b>Safety and Technology</b> |   |                    |             |                     |                                    |
| 5AV                          | <b>Active Guard</b><br>Includes the manual Speed Limit Device (SLD) features including Speed Limit Info with no passing info and preview (only with nav), the Lane Departure Warning with steering impulse, and the Front Collision Warning with brake intervention.<br>- Speed Limit Assist combines the Speed Limit Info with the Speed Limiter incl. no passing info and preview of speed limits. Thus, the allowed speed limit is transferred after manual confirmation in the Speed Limiter.<br>- Lane departure warning with steering impulse, detects lane markings from about 70 km/h, warns via steering wheel vibration from accidentally leaving the lane and steers the vehicle back into the lane. Suppressed with set turn signal or tip turn signal (wanted lane change). Display in the instrument cluster.<br>- Front collision warning with brake intervention includes the approach control warning and person warning with city brake intervention. The system detects and reacts automatically with a braking intervention on vehicles (up to 85km/h) as well as cyclists and pedestrians (up to 65km/h). Above these limits, a warning and a preparation of the brake system to an intervention by the driver - for vehicles up to 250km/h or cyclists and pedestrians up to 85km/h. The automatic braking can reach a maximum delay of 9m/s² (full deceleration).<br>Please note: The system volumes included in the optional equipment only support within defined system limits. Responsibility and reaction to the real traffic situation remain with the respective driver.  | ●                  | ●           | ●                   | Std                                |

| 552                          | <b>BMW Icon Adaptive LED headlights</b><br>Full 'white' LED headlights for both low and high beam, offering a greater resemblance to daylight. Includes automatic height adjustment, 'white' LED BMW Icon light design used for Daytime Driving Lights and LED front indicators. Featuring Adaptive Headlights, which improve visibility by following the steering angle of the front wheels, providing better illumination of the road ahead through corners. Adaptive Headlights not active when car is reversing or when car is stationary and steering turned to offside, to avoid dazzling oncoming traffic.<br>BMW Selective Beam functionality is supported in combination with High-beam Assistant (option 5AC) to provide an intelligent anti-glare system that provides autonomous control of the left and right headlights and high-beam distribution to optimise illumination of the road ahead without glaring other road users. BMW Selective Beam can vary high and low beam simultaneously to direct the light distribution around other vehicles according to the traffic situation, ensuring unparalleled levels of illumination. For further information please refer to the Technology Hub on LaunchPad.  | ●                  | ●           | ●                   | Std                                |
| 5AC                          | <b>High-beam Assistant</b><br>Automatic switching on and off of the high-beam headlights depending on the traffic situation, controlled via a sensor on the front side of the interior mirror.  | ●                  | ●           | ●                   | Std                                |
| 5AU                          | <b>Driving Assistant Professional</b><br>Driving Assistant Professional offers optimum comfort and maximum safety during monotonous or complex driving situations. These can include traffic jams, stop-and-go traffic or long journeys through the city, on country roads or motorways, along with navigating junctions and lane changes.<br>The Active cruise control with Stop&Go function incl. Approach control warning, Person warning and Cyclist warning with braking function maintains the desired speed up to a limit of 130 mph and the set distance to the vehicle in front. When desired, Speed Limit Assist automatically takes over the actual driving speed, which is determined by the Speed Limit Info including No-overtaking indicator with preview.<br>The Steering and lane control assistant is also available up to 130 mph. This supports you with active steering interventions in safely steering the car within its lane. The Lane Keeping Assistant with active side collision protection helps to prevent collisions by prohibiting a lane change or unintentional straying into a different lane during heavy traffic or by preventing a threatening side collision with another road user with a steering intervention. When required, Approach control warning reacts with warnings of increasing intensity, light braking and, if necessary, full braking. The emergency stop assistant brings the vehicle to a standstill if the driver is suddenly unable to drive. After an accident occurs, the brakes are automatically applied until the car reaches a standstill. Depending on the traffic situation, the vehicle is guided up to the hard shoulder.<br>Real time 3D environment visualisation in the instrument cluster. | ○                  | ○           | ○                   | Only with:<br>Z0J or ZUL           |

| <b>316</b>                | <b>Tailgate operation, powered</b><br>The Automatic tailgate operation allows users to open and close the tailgate electrically - all that is required is the push of a button in the interior or on the car key. It can also be opened using the outside handle, and closed using a button on the inside of the tailgate.  | ●                  | ●           | ●                   | Std                             |
| <b>322</b>                | <b>Comfort Access</b><br>Access to the vehicle without removing key from pockets or bag. Sensors detect proximity of keys to the vehicle and allow doors to be unlocked by holding the door handle closest to the key. Locking by touching ribbed section of door handle when key is not inside the car. Including touch free opening and closing of the tailgate. Access can also be set up within BMW Operating System 7.0 to allow automatic locking and unlocking upon driver approach to the vehicle, with key on their person. An acoustic sound will identify when the vehicle unlocks upon approach and locks upon exit.<br><br>Includes BMW Digital Key technology allowing locking and unlocking of the driver's door and starting of the engine via smartphone, removing the need for a conventional car key. Smartphone needs to be held within 5cm of door handle to lock and unlock, and placed in Wireless Charging smartphone tray to start and drive vehicle. The BMW Digital Key will initially be available for selected Android platform NFC-capable smartphones at launch. One 'owner' digital key is provided from factory with a service duration of 1 year. In addition, additional BMW Digital Keys can be purchased via the ConnectedDrive Store and shared with up to five other people with applicable smartphones. Additional keys are purchased in packs of five and have a 1 year service duration from purchase.<br><br>In addition, from <b>November 2018 production</b> a high quality NFC "Key Card" (credit card sized) is included to enable keyless access to the vehicle for users without a compatible Smartphone. Just like the Digital Key on the smartphone, the Key Card offers the functionalities locking/unlocking and starting the engine. All customers without a capable smartphone (e.g. Apple iPhone) will thereby get a substitute solution. | ●                  | ●           | ●                   | Std                             |
| <b>323</b>                | <b>Soft-close doors</b><br>Motorised latches for both passenger doors allow silent and effortless closure. If a door is inadvertently left partly open it is automatically pulled to the fully closed position.   | ○                  | ○           | ○                   | Only with:<br>ZGK or ZUL        |
| <b>346</b>                | <b>Chrome Line Exterior</b><br>Kidney frame and struts, struts in the air flap control, air breather inlay, window frames, mirror base, and the tailpipe finishers in high-gloss chrome.<br><br><b>Note: For M850i xDrive mirror caps in body colour.</b>   | ○                  | ○           | ○                   | £0.00                           |
| <b>40C</b>                | <b>M Carbon roof</b><br>As part of the intelligent lightweight construction concept, the M carbon-fibre roof significantly helps to reduce the vehicle's weight. It consists of carbon-fibre reinforced plastic (CFRP) and is 800 g lighter than the standard roof. That way, the centre of gravity of the vehicle is shifted downwards and the driving dynamics are increased.   | ○                  | ○           | ○                   | £2,650.00                       |

Service included and active for the lifetime of the vehicle.</p>   | ●                  | ●           | ●                   | Std                             |
| <b>6AK</b>  | <p><b>BMW Online Services</b></p> <p>Included Services are initially standard for three years subscription from production (unless stated) and can then be extended or renewed via a customer's ConnectedDrive portal and the ConnectedDrive store.</p> <p><b>BMW Vehicle Apps.</b><br/>Formerly known as BMW Online. Access to a WAP based online services to view a wide range of general and location-based information. Included Apps are News, Weather and Country Information. Online-based content like News can be read out loud to minimize distraction while driving and offer the maximum in safety and comfort. The weather app shows the weather forecast for the upcoming 4 days. Country information contains all the relevant information when entering a different country with your BMW, for example information on tolls.</p> <p><b>BMW Connected+.</b><sup>^</sup><br/>An update of the personalization function in the vehicle and display of smartphone content on the Control Display in the BMW. Including; Send my Routes to Car, Share Live Trip Status, Navigate Door-to-Door and seamless link of My Destinations between you Connected App and vehicle.</p> <p><b>Intelligent Voice Control.</b><br/>Off-board voice processing offers a functional extension of the intelligent voice assistant through server-based processing of speech input. Examples of the features include online-based points of interest for the navigation (e.g. Italian restaurant in the vicinity), the dictation function for messages and an improvement in the recognition of natural speech input. Benefits at a glance; Flexible input of addresses and points of interest. More up-to-date data for the speech-based search for addresses and points of interest, Improvement in voice recognition for the input of addresses and points of interest. Flexible dictation of text messages and e-mail (Smartphone dependant).</p> <p><b>USB and Over the Air map updates.</b><br/>Manual and Automatic updates of the navigation map data either via USB or over-the-air. A USB map update can be completed via the BMW ConnectedDrive portal to integrate the latest European wide map data, or as soon as a new navigation map version is available for the country that your vehicle is registered in, the update is transferred via the integrated SIM card directly into the vehicle's navigation system, completely over-the-air. During the update process, the navigation system remains fully functional. Always have the most up-to-date navigation map data. Over-the-air updates up to 4-times annually. Updates take place automatically as soon as the latest version of map data is available.</p> <p><b>BMW Intelligent Personal Assistant.</b><br/>Building upon the Intelligent Voice Control, BMW drivers and passengers will be joined by an intelligent, digital character that responds to the prompt "Hey BMW". Communicate in a new and easy way with your car using the BMW Intelligent Personal Assistant. It knows you, learns your behaviours to get better every day and helps out whatever the situation. It allows functions within the vehicle to be controlled, can explain everything about your car and help you get better acquainted with your BMW. You can also assign your own personal activation word.</p> <p><b>Intelligent Functionalities.</b><br/>Smart Interior, working in conjunction with Intelligent Personal Assistant, offers personalised content based, and intelligent car related services in the vehicle and the Connected App. It automates vehicle functions to enhance the experience inside of the vehicle. Includes automate my habits service, where you can define your heating and cooling preferences. The vehicle then automatically adjusts the seat heating / ventilation settings to your liking. Also includes Weather Guard to warn the driver if the car is parked in adverse weather conditions via the BMW Connected App. This feature's deliverables is dependent on your vehicles capabilities and specification.</p> <p><b>Remote Software Upgrade.</b><br/>With Remote Software Upgrade your BMW stays up-to-date and is future-proof. The upgrades are downloaded via a smartphone with the Connected app and ideally a Wi-Fi connection (quicker and therefore recommended) or over the air directly into the car and provide security updates and functionality upgrades. The customers are always informed about the content of every Remote Software Upgrade as there are Release Notes displayed in the car and in the Connected App similar to an iOS upgrade.</p> <p><sup>^</sup>Service will follow on vehicles fitted with 6U3 via a Remote Software Upgrade within 2019.</p> | ●                  | ●           | ●                   | Std                             |
| <b>6C4</b>  | <p><b>ConnectedPackage Professional</b></p> <p>Included Services are initially standard for three years subscription from production (unless stated) and can then be extended or renewed via a customer's ConnectedDrive portal and the ConnectedDrive store.</p> <p><b>Apple CarPlay (1 year Subscription).</b><br/>Apple CarPlay® Preparation enables an iPhone® to be used wirelessly, conveniently and safely via the user interface in the vehicle. Smartphone contents and functions such as music, iMessages/SMS, telephony, SIRI and selected third-party apps can thus be displayed and operated in the customary manner via the user interface in the vehicle. Subscription for Apple CarPlay valid for 1 year from production, can be extended thereafter on 1 year, 3 years or lifetime subscriptions.</p> <p><b>Concierge Services.</b><br/>Direct access to UK based call centre, 24 hours a day, 365 days per year. No Smartphone required within vehicle, calls made using in-built 4G SIM card. Access to telephone and industry directories, points of interest, opening times of cultural facilities, flight information, addresses of restaurants, hotels, emergency pharmacies, cash machines, golf courses etc. Navigation data can be transferred directly to the driver's navigation system, and/or sent as a message to the vehicles control display with additional relevant information when required, e.g. telephone numbers, email addresses.</p> <p><b>Connected Navigation.</b><br/>BMW Connected Navigation offers customers a unrivalled navigation experience on their off board touchpoints as well as a unique in car experience. Get proactive suggestions, based on your behaviour and share locations from other apps including Google and Apple maps.</p> <p><b>Connected Parking.</b><br/>Parking Place Assistant to give intelligent parking route guidance close to your final destination based on the current parking situation, offering car parks close to destination or on-street parking availability. On-Street Parking Information**, shows probability of finding a parking space on selected streets. Roads are colour-coded in blue depending on the likelihood of available spaces. The service also individually updates the display with colour markers in real time as spaces become free on street once another BMW has vacated the parking space.</p> <p><b>In-Car Experiences.</b><br/>Your BMW will take care of you. It invigorates you when you're tired, relaxes you after a stressful day and adapts your vehicle's interior to perfectly suit your mood. With In-Car Experiences, which include the Caring Car Programmes and Experiences Modes, your vehicle will make sure you feel your best. Activated manually or via in-car voice speech prompt. This feature's deliverables are dependent on your vehicles capabilities and specification.</p> <p><b>Real-Time Traffic Information (RTTI).</b><br/>Displays real-time traffic information on motorways, roads and urban streets for the driver's current route and recommends potential diversions. Exact display of the traffic situation in real time, with updates being received every 3 minutes. Greater comfort and safety thanks to precise warnings of congestion and hazards (including Heavy Rain, Fog, Slippery Roads). Inclusion of traffic situation on recommended diversions.</p> <p><b>Remote Services.</b> Open/lock doors, display of vehicle location on the map in vehicle finder, flash headlights.<br/><b>Remote 3D View*.</b> Allows real time image to be taken of area surrounding vehicle environment. Access via smartphone app and can be retrieved on the smartphone as a 3D representation.</p> <p><b>Connected Teaser.</b><br/>Gives a 3 month trial period of the following services.</p> <p><b>Connected Music.</b><br/>Connected Music offers you direct and unlimited access to more than 50 million music tracks and audiobooks. Utilisation of the service can be through one of two channels, Connected Music or BMW Music. For Connected Music, you can use the service to log-in with your existing music streaming premium account of one of our music partners (Currently Spotify, Deezer or Napster). BMW Music utilises the option to access an in-vehicle music streaming service, direct to the vehicle, with music provided by our partner Napster.</p>   | ●                  | ●           | ●                   | Std                             |

\*Available on vehicles fitted with 5DN Parking Assistant Plus.

\*\*Currently available in Belfast, Birmingham, Bristol, Cardiff, Edinburgh, Glasgow, Leeds, Liverpool, London, Manchester, and Sheffield
