## **MY 2019 R 1250 Family**

BMW's outstanding boxer engine receives a significant technical update for model year 2019, resulting in a considerable improvement in performance and operating characteristics. Along with the notable engine enhancements are additional standard features and new options, packages, colors, styles, and Spezial selections as noted in the model details that follow this comparison to the current R 1200 models:

- **1,254 cc vs. 1,170cc**
- **136 vs. 125 hp (+9%)**
- **Best in Class Torque: 105 vs. 92 lb-ft (+14%)**
- **49.5 vs. 47 mpg (+5%)**
- **BMW ShiftCam Variable Engine Timing system**
  - **More balanced power delivery**
- **New cylinder head covers and manifold routing (+RT has a new spoiler)**

### **New Options:**

- **Additional features added to Ride Modes Pro:**
  - **Configurable Hill Start Control Pro** w/ smoother brake release and the ability to select 'automatic brake activation' to automatically engage the brake when stopping on an incline of 5%+
  - **Dynamic Brake Assist (DBA):** in emergency braking situations, DBA increases rear-brake force more quickly and reduces engine torque, even if the throttle is open
- **2 new Spezial Billet Packs:** planned availability beginning with January 2019 production

**MY 2019 R 1250 GS – Available Now**
