2022 R 18 and R 18 Classic Options and Accessories

Model year 2022 R 18 and R 18 Classic motorcycles see the addition of the stylish new Option 719 design parts and accessories.

Option 719 Design Package AERO

The Option 719 Design Package AERO includes cylinder head covers, front engine cover and left and right intake snorkel covers in aluminum with a brushed, anodized finish. The cylinder head covers feature finely wrought air vents reminiscent of the “streamliners” of the 1920s and 1930s. The highlight is a badge on the front and side covers:

This is made of solid copper which is chrome-plated and partially finished in white. The white paint enclosing the number sequence “719” is reminiscent of historical emblems that were typically lined with enamel during that era.

Option 719 seat.

The Option 719 seat is an exclusive alternative to the standard seat found on the R 18 and R 18 Classic. In addition to the standard seat height, it offers diamond-shaped quilted embossing and an embroidered BMW logo and the 719 emblem on the side.

Option 719 Paint finish Galaxy Dust metallic/ Titanium Silver 2 metallic

Galaxy Dust metallic is a finish that changes in color spectrum from violet to turquoise blue, depending on the light. In addition, the color pigment creates a unique visual effect when exposed to sunlight. This special finish is combined with a Titanium Silver 2 metallic mirror on the fuel tank. The transition between the two-color surfaces consists of a hand-applied smoke effect familiar from

the legendary R 90 S. In addition, the mirror surface is surrounded by a classic white double pin stripe.

Option 719 Wheels AERO and ICON

The two Option 719 wheels - AERO and ICON in matt silver and matt black, respectively, provide a refined and sophisticated look to the R 18 and R 18 Classic. The cast alloy wheels feature a six-spoke design. The milled ribs of the spokes are a real eye-catcher. The milled areas give the aluminum a contrast to the painted surfaces - hence the name Contrast Cut.

BMW Group in America

BMW of North America, LLC has been present in the United States since 1975. Rolls-Royce Motor Cars NA, LLC began distributing vehicles in 2003. The BMW Group in the United States has grown to include marketing, sales, and financial service organizations for the BMW brand of motor vehicles, including motorcycles, the MINI brand, and Rolls-Royce Motor Cars; Designworks, a strategic design consultancy based in California; a technology office in Silicon Valley, and various other operations throughout the country.
